RED ROBIN GOURMET BURGERS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation and Recent Accounting Pronouncements

Red Robin Gourmet Burgers, Inc. (Red Robin or the Company), a Delaware corporation, develops and operates casual-dining restaurants. At October 1, 2006, the Company operated 199 company-owned restaurants located in 24 states. The Company also sells franchises, of which there were 133 restaurants in 24 states and two Canadian provinces as of October 1, 2006. The Company operates its business as one reportable segment.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of Red Robin and its wholly owned subsidiaries. In addition, the financial statements include the financial results of the Managed Restaurants as described in Note 2. All intercompany accounts and transactions have been eliminated in consolidation. The Company's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Some of the more significant estimates included in the preparation of these financial statements pertain to impairment of long-lived assets, fixed asset lives, impairment of goodwill, estimated useful lives of other intangible assets, bonuses, self-insurance liabilities, stock-based compensation expense, fair value of assets acquired in a business combination and income taxes. Actual results could differ from those estimates. The results of operations for any interim period are not necessarily indicative of results for the full year.

The accompanying condensed consolidated financial statements of Red Robin have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures normally included in the Company's annual consolidated financial statements on Form 10-K have been condensed or omitted. The condensed consolidated balance sheet as of December 26, 2005 has been derived from the audited consolidated financial statements as of that date, but does not include all disclosures required by generally accepted accounting principles. For further information, please refer to and read these interim condensed consolidated financial statements in conjunction with the Company's audited consolidated financial statements included in the Company's annual report on Form 10-K for the year ended December 26, 2005.

The Company's quarter which ended October 1, 2006, is referred to as third quarter 2006, or the twelve weeks ended October 1, 2006; the first quarter ended April 16, 2006, is referred to as first quarter 2006, or the sixteen weeks ended April 16, 2006; and, together the first, second and third quarters of 2006 are referred to as the forty weeks ended October 1, 2006 or the year to date 2006. The Company's quarter which ended October 2, 2005, is referred to as third quarter 2005, or the twelve weeks ended October 2, 2005; the first quarter ended April 17, 2005, is referred to as first quarter 2005, or the sixteen weeks ended April 17, 2005; and, together the first, second and third quarters of 2005 are referred to as the forty weeks ended October 2, 2005 or the year to date 2005.

Reclassifications

Certain reclassifications have been made to prior year amounts in the Condensed Consolidated Statements of Cash Flows to conform to the current year presentation of changes in marketing fund restricted cash.

Stock-Based Compensation

Effective December 26, 2005, the Company adopted the fair value recognition provisions of Statement of Financial Accounting Standards (SFAS) No. 123R, *Share-Based Payment*, (SFAS 123R), a revision of SFAS 123, *Accounting for Stock-Based Compensation*, (SFAS 123), using the modified prospective transition method and therefore has not retrospectively adjusted results for prior periods. Under this transition method, stock-based compensation expense for fiscal year 2006 includes compensation expense for all stock-based compensation awards granted prior to, but not yet vested as of December 26, 2005, based on the grant date fair value estimated in accordance with the original provision of SFAS 123. Stock-based compensation expense for all stock-based compensation awards granted after December 26, 2005 is based on the grant-date fair value

estimated in accordance with the provisions of SFAS 123R. The Company recognizes these compensation costs on a graded vesting basis over the requisite service period of the award, which is generally the weighted option vesting term of three years. Prior to the adoption of SFAS 123R, the Company recognized stock-based compensation expense in accordance with Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees* (APB 25). The Company has applied the provisions of Staff Accounting Bulletin No. 107, *Share-Based Payment*, in its adoption of SFAS 123R. See Note 3 to the Condensed Consolidated Financial Statements for a further discussion on stock-based compensation.

Recent Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board's (FASB) issued SFAS No. 157, *Fair Value Measurements*, (SFAS 157). This statement defines fair value, establishes a framework for using fair value to measure assets and liabilities, and expands disclosures about fair value measurements. The statement applies whenever other statements require or permit assets or liabilities to be measured at fair value. SFAS 157 is effective for the Company's fiscal year beginning December 31, 2008. The Company is evaluating the impact the adoption of SFAS 157 will have on its consolidated financial statements.

In July 2006, the FASB issued Financial Interpretation No. 48, *Accounting for Uncertainty in Income Taxes—an Interpretation of FASB Statement No. 109* (FIN 48). FIN 48 prescribes a comprehensive financial statement model of how a company should recognize, measure, present, and disclose uncertain tax positions that the company has taken or expects to take in its income tax returns. FIN 48 requires that only income tax benefits that meet the "more likely than not" recognition threshold be recognized or continue to be recognized on the effective date. Initial derecognition amounts would be reported as a cumulative effect of a change in accounting principle. FIN 48 is effective for the Company's fiscal year beginning January 1, 2007. The Company is evaluating the impact the adoption of FIN 48 will have on its consolidated financial statements.

In March 2006, the FASB Emerging Issues Task Force (EITF) issued Issue 06-3, *How Sales Taxes Collected From Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement* (EITF 06-3). A consensus was reached that entities may adopt a policy of presenting sales taxes in the income statement on either a gross or net basis. If taxes are significant, an entity should disclose its policy of presenting taxes and the amounts of taxes. The guidance is effective for the Company's fiscal year beginning January 1, 2007. The Company presents sales net of sales taxes. EITF 06-3 will not impact the method for recording these sales taxes in the consolidated financial statements.

2. Acquisition of Red Robin Franchised Restaurants

On July 10, 2006, the Company completed its acquisition of 11 of 13 franchised Red Robin® restaurants in the state of Washington. The franchised restaurants were owned by various entities affiliated with Great Western Dining, the former manager of the restaurants. The cash purchase price was funded through borrowings under the Company's existing credit facility.

The acquisition of the 11 restaurants was accounted for using the purchase method as defined in SFAS No. 141 *Business Combinations*. Based on a purchase price of \$34.1 million, net of the \$1.4 million charge relating to EITF Issue 04-1, *Accounting for Preexisting Relationships between the Parties to a Business Combination* (EITF 04-1), and the Company's estimates of the fair value of net assets acquired, \$13.4 million of goodwill was generated by the acquisitions, which is not amortizable for book purposes.

The preliminary purchase price allocation is subject to revision after a more detailed analysis is completed including final determination of working capital adjustments. Any change in the fair value of the net assets will change the amount of purchase price allocable to goodwill. The Company does not expect any adjustments to be significant.

The purchase price for the 11 restaurants acquired on July 10, 2006 has been preliminarily allocated as follows:

Current assets	\$ 723
Property and equipment, net	7,721
Goodwill	13,386
Intangible assets	12,891
Other assets	39
Current liabilities	(2,067)
Reacquired franchise rights settlement loss	1,434
Estimated total purchase price	<u>\$ 34,127</u>

Of the \$12.9 million of intangible assets, \$8.7 million was assigned to reacquired franchise rights with a weighted average useful life of approximately 19 years and \$4.2 million was assigned to lease rights with a weighted average useful life of approximately 17 years.

As a result of the acquisition of the 11 restaurants, the Company incurred a charge of \$1.4 million and recorded an intangible asset relating to reacquired franchise rights of \$8.7 million in accordance with EITF 04-1. EITF 04-1 requires that a business combination between two parties that have a preexisting relationship be evaluated to determine if a settlement of a preexisting relationship exists. EITF 04-1 also requires that certain reacquired rights (including the rights to the acquirer's trade name under a franchise agreement) be recognized as intangible assets apart from goodwill. However, if a contract giving rise to the reacquired rights includes terms that are favorable or unfavorable when compared to pricing for current market transactions for the same or similar items, EITF 04-1 requires that a settlement gain or loss should be measured as the lesser of (i) the amount by which the contract is favorable or unfavorable under market terms from the perspective of the acquirer or (ii) the stated settlement provisions of the contract available to the counterparty to which the contract is unfavorable. This charge reflects the lower royalty rates applicable to the Acquired Restaurants compared to a standard royalty rate the Company would receive under the Company's current royalty agreements.

Goodwill

A preliminary estimate of \$13.4 million has been allocated to goodwill. Goodwill represents the excess of the purchase price over the fair value of the net tangible and intangible assets acquired. Goodwill will not be amortized but instead will be tested for impairment at least annually (more frequently if certain indicators are present). In the event that management determines that the value of goodwill has become impaired, the Company will incur an accounting charge for the amount of impairment during the fiscal quarter in which the determination is made. Any change in the fair value of the net assets of the Acquired Restaurants will change the amount of the purchase price allocable to goodwill.

Managed Restaurants

Effective July 10, 2006, the Company also assumed management of the remaining two restaurant locations (Managed Restaurants) owned by the Washington franchisees under a management services agreement. The financial results for all 13 restaurants (Acquired Restaurants) have been reflected in the Company's financial results

beginning July 10, 2006.

The Managed Restaurants have been consolidated in accordance with FIN 46 (Revised December 2003) – Consolidation of Variable Interest Entities (FIN 46R). Under the terms of the management agreement, the Company has assumed all operating responsibilities of these restaurants in exchange for a management fee equal to all the revenues from these Managed Restaurants. Management had determined that the Company is the primary beneficiary of the operations of the Managed Restaurants and therefore has consolidated their results of operations with the Company's results since July 10, 2006. The Company intends to acquire the two managed restaurants at which point the purchase price will be allocated to assets.

Pro Forma Results

The following unaudited pro forma information presents a summary of the results of operations of the Company assuming the acquisition of the 11 restaurants and the consolidation of the two Managed Restaurants occurred at the beginning of each period presented as required by SFAS 141. The pro forma financial information is presented for informational purposes only and is not indicative of the results of operations that would have been achieved if the acquisition had taken place at the beginning of each of the periods presented, nor is it indicative of future operating results.

Basic EPS	0.38	1.35	1.42
Diluted EPS	0.37	1.33	1.39

8

3. Stock-Based Compensation

The Company has four stock based compensation plans: the 1996 Stock Option Plan (the 1996 Stock Plan), the 2000 Management Performance Common Stock Option Plan (the 2000 Stock Plan), the 2002 Incentive Stock Option Plan (2002 Stock Plan) and the 2004 Performance Incentive Plan (the 2004 Stock Plan).

As of October 1, 2006, there are no remaining options authorized for grant under the 1996, 2000 or 2002 Stock Plans. In general, options granted under these plans were issued at the estimated fair market value at the date of grant. Vesting of awards under these plans were time based over a period of one to four years; however, in some cases, options under these plans vested based on the attainment of certain financial results. Options granted under these plans expire within ten years from the date of grant.

In 2004, stockholders approved the 2004 Stock Plan which authorizes stock options, stock appreciation rights, restricted stock, stock bonuses and other forms of awards granted or denominated in the Company's common stock or units of the Company's common stock, as well as cash bonus awards pursuant to the plan. Persons eligible to receive awards under the 2004 Stock Plan include officers or employees of the Company or any of the Company's subsidiaries, directors of the Company, and certain consultants and advisors to the Company or any of its subsidiaries. The maximum number of shares of the Company's common stock that may be issued or transferred pursuant to awards under the 2004 Stock Plan is equal to 2,697,613 shares. Vesting of the awards under the 2004 Stock Plan is determined at the date of grant by the plan administrator. Each award granted under the 2004 Stock Plan may, at the discretion of the plan administrator, become fully vested, exercisable, and/or payable, as applicable, upon a change in control event if the award will not be assumed or substituted for or otherwise continued after the event. Each award expires on such date as shall be determined at the date of grant, however, the maximum term of options, stock appreciation rights and other rights to acquire common stock under the plan is ten years after the initial date of the award, subject to provisions for further deferred payment in certain circumstances. Any shares subject to awards under the 1996 Stock Plan, the 2000 Stock Plan, the 2002 Stock Plan and the 2004 Stock Plan that are not paid or exercised before they expire or are terminated will become available for other award grants under the 2004 Stock Plan. The 2004 Stock Plan terminates on April 12, 2014, if not sooner terminated by the Company's board of directors. Options are the only types of equity or equity-linked awards currently outstanding under the 2004 Stock Plan.

Effective December 26, 2005, the beginning of the first quarter of fiscal 2006, the Company adopted the fair value recognition provisions of SFAS 123R using the modified prospective transition method and, therefore, has not retrospectively adjusted prior periods' results. Under this transition method, stock-based compensation expense in fiscal 2006 includes compensation expense for all stock-based compensation awards granted prior to, but not yet vested as of, December 26, 2005, based on the grant date fair value estimated in accordance with the original provisions of SFAS 123. Stock-based compensation expense for all stock-based payment awards granted after December 26, 2005 is based on the grant date fair value estimated in accordance with the provisions of SFAS 123R. The Company recognizes these compensation costs net of a forfeiture rate and recognizes the compensation costs for only those shares expected to vest on a graded vesting basis over the requisite service period of the award, which is generally the weighted option vesting term of three years. The Company estimated the forfeiture rate based on its historical experience during the preceding four fiscal years.

Prior to December 26, 2005, the Company provided pro forma disclosure amounts in accordance with SFAS No. 148, *Accounting for Stock-Based Compensation—Transition and Disclosure* (SFAS 148), as if the fair value method defined by SFAS 123 had been applied to its stock-based compensation.

During the third quarter of 2005, in accordance with FASB Interpretation No. 44, *Accounting for Certain Transactions Involving Stock Compensation* (FIN 44), the Company recorded a non-cash stock-based compensation expense of \$2.8 million. This expense related to approximately 400,000 stock options the board of directors granted to our former chairman, president and chief executive officer and former senior vice president and chief financial officer in May 2000. The board of directors accelerated vesting of those stock options in 2002, and our former chairman, president and chief executive officer and former chief financial officer exercised these options in 2002. This accelerated vesting triggered the modification of these awards such that they were revalued based upon the fair value of the underlying stock at the time of the modification. Because under their original terms these awards would not have vested until after these individuals ceased to be employed by the Company, FIN 44 required the Company to recognize stock-based compensation expense in the period of departure in an amount equal to the excess fair value of the underlying stock over the option exercise price at the time of the modification.

For the prior year's disclosure under SFAS 123, for the twelve and forty weeks ended October 2, 2005, the Company determined compensation costs based on the fair value at the date of grant for its stock options, net income and earnings per share reflected the following pro forma amounts (in thousands, except per share data):

9

	Twelve Weeks Ended October 2, 2005	Forty Weeks Ended October 2, 2005
Net income, as reported	\$ 6,467	\$ 21,853
Add: Stock-based employee compensation costs included in reported net income, net of tax benefit	1,883	1,902
Deduct: Stock-based employee compensation costs based on fair value method, net of tax benefit	(413)	(1,812)
Pro forma net income	<u>\$ 7,937</u>	<u>\$ 21,943</u>
Basic earnings per share:		
As reported	<u>\$ 0.40</u>	<u>\$ 1.35</u>
Pro forma	<u>\$ 0.49</u>	<u>\$ 1.35</u>
Diluted earnings per share:		
As reported	<u>\$ 0.39</u>	<u>\$ 1.31</u>
Pro forma	<u>\$ 0.48</u>	<u>\$ 1.32</u>

At October 1, 2006, the Company recognized total compensation expense related to all stock-based payment awards made to our employees and directors including employee stock option awards and employee stock purchases made under our Employee Stock Purchase Plan (ESPP) of \$1.3 million and \$4.6 million for the twelve and forty weeks ended October 1, 2006, respectively. Stock-based compensation capitalized as part of fixed assets was \$120,000 and \$393,000 for the twelve and forty weeks ended October 1, 2006. Prior to December 26, 2005, the Company accounted for those awards under the recognition and measurement provisions of APB 25. Accordingly, the Company generally recognized compensation expense only when it granted options with a discounted exercise price. Any resulting compensation expense was recognized ratably over the associated service period, which was generally the option vesting term.

The table below summarizes the status of the Company's stock based compensation plans:

	Shares (in thousands)	Weighted Average Exercise Price	Weighted Average Remaining Years of Contractual Life	Aggregate Intrinsic Value (in thousands)
Outstanding, as of July 9, 2006	1,391	\$ 36.72		
Awards granted	42	38.10		
Awards forfeited or expired	(22)	44.19		
Awards exercised	(37)	17.77		
Outstanding, as of October 1, 2006	<u>1,374</u>	\$ 37.15	8.13	\$ 11,037
Outstanding, as of December 25, 2005	1,110	\$ 34.11		
Awards granted	439	41.54		
Awards forfeited or expired	(84)	42.46		
Awards exercised	(91)	16.06		
Outstanding, as of October 1, 2006	<u>1,374</u>	\$ 37.15	8.13	\$ 11,362
Exercisable as of October 1, 2006	555	\$ 30.08	7.07	\$ 8,493
Vested and expected to vest as of October 1, 2006	1,275	\$ 36.69	8.06	\$ 11,117

10

The estimated fair value of each option grant is calculated using the Black-Scholes multiple option-pricing model. The assumptions used in the model and resulting data are as follows:

Assumptions	Twelve Weeks Ended		Forty Weeks Ended	
	October 1, 2006	October 2, 2005	October 1, 2006	October 2, 2005
Risk-free interest rate	4.7%	4.1%	4.8%	4.0%
Weighted average expected years until exercise	2.7	4.8	2.5	5.2
Expected stock volatility	37.1%	34.4%	36.3%	32.2%
Dividend yield	0.0%	0.0%	0.0%	0.0%
Weighted-average Black-Scholes fair value per share at date of grant				
	\$ 10.69	\$ 17.06	\$ 11.15	\$ 18.16
Total intrinsic value of options exercised (in thousands)	\$ 917	\$ 3,875	\$ 3,062	\$ 8,915

The risk-free interest rate was based on the rate for zero coupon U.S. Government issues with a remaining term similar to the expected life. The expected life of the options represents the period of time the options are expected to be outstanding and is based on historical trends. The expected stock price volatility represents an average of the Company's historical volatility measured over a period approximating the expected life. The dividend yield assumption is based on the Company's history and expectations of dividend payouts.

As of October 1, 2006, there was \$7.3 million of total unrecognized compensation cost, excluding estimated forfeitures, related to nonvested options granted under the Company's stock-based compensation plans. That cost is expected to be recognized over a weighted-average period of 1.3 years.

4. Borrowings

Borrowings at October 1, 2006 and December 25, 2005 are summarized below (in thousands):

	October 1, 2006	December 25, 2005
Revolving credit agreement	<u>\$ 89,753</u>	<u>\$ 42,329</u>

Capital lease obligations	9,996	10,064
Collateralized notes payable	5,252	6,131
	105,001	58,524
Current portion	(1,553)	(2,861)
Long-term debt	<u>\$ 103,448</u>	<u>\$ 55,663</u>

As of October 1, 2006 and December 25, 2005, borrowings under the revolving credit agreement bore interest at approximately 6.4% and 5.8%, respectively. During the third quarter, the Company borrowed approximately \$33.5 million in connection with the acquisition of 11 franchised Red Robin® restaurants in the state of Washington on July 10, 2006. See the discussion of this acquisition in Note 2.

The Company maintains an outstanding letter of credit to back the Company's self-insured workers' compensation program. This letter of credit reduces the amount of future borrowings available under the revolving credit agreement. The amount outstanding under this letter of credit was \$3.6 million at October 1, 2006 and December 25, 2005.

5. Earnings Per Share

Basic earnings per share amounts are calculated by dividing net income by the weighted-average number of common shares outstanding during the period. Diluted earnings per share amounts are calculated based upon the weighted-average number of common and potentially dilutive common shares outstanding during the period. Potentially dilutive shares are excluded from the computation in periods in which they have an anti-dilutive effect. Diluted earnings per share reflect the potential dilution that could occur if holders of options exercised their options into common stock. During the twelve and forty weeks ended October 1, 2006, respectively, approximately 896,000 and 794,000 stock options outstanding were not included in the computation of diluted earnings per share because to do so would have been anti-dilutive for the period presented. During the twelve and forty weeks ended October 2, 2005, a total of 307,000 and 179,000 stock options outstanding were not included in the computation of diluted earnings per share because to do so would have been anti-dilutive for the period presented. The Company uses the treasury stock method to calculate the impact of outstanding stock options. The computations for basic and diluted earnings per share are as follows (in thousands, except per share data):

11

	Twelve Weeks Ended		Forty Weeks Ended	
	October 1, 2006	October 2, 2005	October 1, 2006	October 2, 2005
Net income	<u>\$ 5,992</u>	<u>\$ 6,467</u>	<u>\$ 20,541</u>	<u>\$ 21,853</u>
Basic weighted-average shares outstanding	16,556	16,350	16,523	16,244
Dilutive effect of stock options	195	335	206	395
Diluted weighted-average shares outstanding	<u>16,751</u>	<u>16,685</u>	<u>16,729</u>	<u>16,639</u>
Earnings per share:				
Basic	<u>\$ 0.36</u>	<u>\$ 0.40</u>	<u>\$ 1.24</u>	<u>\$ 1.35</u>
Diluted	<u>\$ 0.36</u>	<u>\$ 0.39</u>	<u>\$ 1.23</u>	<u>\$ 1.31</u>

6. Related Party Transactions

The Company's senior vice president and chief concept officer owns 7.0% of Mach Robin, LLC (Mach Robin), and an entity that directly or indirectly owns or controls 100% of Red Robin Restaurants of Canada, Ltd. (RRRC). Mach Robin and RRRC operate Red Robin® restaurants under franchise agreements in the U.S. and Canada, respectively. The Company recognized royalty income from Mach Robin in the amounts of \$246,000 and \$838,000 during the twelve and forty weeks ended October 1, 2006, and \$252,000 and \$759,000 during the same periods ended October 2, 2005. The Company recognized royalty income from RRRC of \$284,000 and \$890,000 during the twelve and forty weeks ended October 1, 2006, and \$236,000 and \$732,000 during the same period ended October 2, 2005.

In August 2006, the Board of Directors of the Company voted to terminate the informal unpaid consulting agreement with the Company's former chairman, president and chief executive officer, which the Company entered into in August 2005. No consulting services were requested from or provided by him at any time under the agreement.

For further related party transaction information, refer to the consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K for the year ended December 25, 2005.

7. Other Comprehensive Income

Comprehensive income consisted of (in thousands):

	Twelve Weeks Ended		Forty Weeks Ended	
	October 1, 2006	October 2, 2005	October 1, 2006	October 2, 2005
Net income	<u>\$ 5,992</u>	<u>\$ 6,467</u>	<u>\$ 20,541</u>	<u>\$ 21,853</u>
Unrealized gain (loss) on cash flow hedge, net of tax	—	(5)	—	23
Total comprehensive income	<u>\$ 5,992</u>	<u>\$ 6,462</u>	<u>\$ 20,541</u>	<u>\$ 21,876</u>

The interest rate swap agreement the Company had entered into in December 2002, to reduce exposure to rising interest rates, expired January 2006.

8. Contingencies

On August 11, 2005, the Company announced certain management changes that followed an internal investigation conducted by a special committee of the board of directors relating to use of chartered aircraft and travel and entertainment expenses. The special committee, which retained independent counsel to conduct the investigation, identified various expenses incurred since 2001 by the person who formerly served as chairman, president and chief executive officer that were inconsistent with Company policies or that lacked sufficient documentation.

On February 1, 2006, the Company received a notice from the SEC that the SEC had issued a formal order of investigation related to the above-mentioned internal investigation. The SEC indicated in its order that it had not determined whether the Company has violated the law in any way. The Company has cooperated with the SEC and intends to continue to cooperate fully with the SEC in its formal investigation.

On August 15, 2005, Andre Andropolis filed a purported class action complaint against the Company, the former chief executive officer and former chief financial officer (the Andropolis Complaint) in the United States District Court for the District of Colorado on behalf of himself and all other purchasers of the Company's common stock during the putative class

period of November 8, 2004 through August 11, 2005. On September 30, 2005, Mark Baird filed a similar purported class action complaint (the Baird Complaint) on behalf of himself and the same class of stockholders as defined in the Andropolis Complaint in the United States District Court for the District of Colorado. Both complaints allege that the Company and the Company's former chief executive officer and former chief financial officer violated Sections 10(b) (including Rule 10b-5) and 20(a) of the Securities Exchange Act of 1934 (the Exchange Act) by disseminating false and misleading financial reports on behalf of the Company and by withholding adverse financial information on behalf of the Company from the class, and that the individual defendants were control persons who caused the Company to engage in such acts. The plaintiffs further allege that, because of the actions of the former chief executive officer and former chief financial officer, the Company's stock price became inflated between November 8, 2004 and August 11, 2005, and on August 12, 2005, the Company's stock price fell sharply following the disclosure of the investigation. The class has not been certified and no discovery has occurred. Lead plaintiff, City of Philadelphia Board of Pensions and Retirement (the Lead Plaintiff) and Lead Counsel have been appointed for both of these class actions. We refer below to these class actions collectively as "Andropolis".

On February 28, 2006, the Lead Plaintiff filed a consolidated complaint. In addition to the allegations in the initial Andropolis Complaint against the Company and the Company's former chief executive officer and former chief financial officer, the consolidated complaint alleges that the Company and the Company's current chief executive officer and current chief financial officer violated Sections 10(b) and 20(a) of the Exchange Act in connection with the Company's announcement on January 10, 2006 that it was lowering its guidance for the quarter ended December 25, 2005, alleges claims against the Company's former controller and alleges violations of Section 14(a) of the Exchange Act. The consolidated complaint seeks damages on behalf of a putative class of purchasers of the Company's common stock during the putative class period of August 13, 2004 to January 9, 2006 (inclusive). All defendants have filed motions to dismiss the consolidated complaint that are currently pending before the court.

On August 31, 2005, Elliot Wilster commenced a stockholder derivative suit on behalf of the Company in the United States District Court for the District of Colorado (the Wilster Complaint). The action was brought against the Company as a nominal defendant and against the former chief executive officer, then-current board members and the Company's current senior vice president and chief concept officer. The Wilster Complaint alleged that several of the individual defendants improperly profited from their sales of Company stock while they knew proprietary, non-public information regarding the former chief executive officer's alleged abuse of his corporate position. The Wilster Complaint also alleged that the defendants breached their fiduciary duty, abused their control, engaged in gross mismanagement, wasted corporate assets and were unjustly enriched at the expense of and to the detriment of the Company by failing to act on the former chief executive officer's alleged abuse of his corporate position and by waiving a conflict of interest resulting from proposed franchise development involving the former chief executive officer and the senior vice president and chief concept officer. The Wilster Complaint sought monetary damages against the individual defendants, equitable relief, restitution and attorneys' fees. On December 15, 2005, Wilster filed an amended stockholder derivative complaint (the Amended Wilster Complaint) that added the Company's former chief financial officer as a defendant. On August 3, 2006, the Court in the Wilster case granted the Company's motion to dismiss all claims against all defendants for failure to plead demand futility. The Court ruled that the Wilster plaintiff failed to allege particularized facts to show that a majority of the Board lacked independence or was interested in the challenged transactions and activity such that a pre-litigation demand on the Board was futile. The plaintiff has appealed this ruling to the United States Court of Appeals for the Tenth Circuit. All defendants, including the Company, have filed a Motion to Dismiss this appeal as untimely.

The Wilster case had been consolidated for pretrial purposes with the Andropolis case. There have been no other material developments in the Andropolis case.

In January 2006, the Company was served with a purported class action lawsuit, Huggett v. Red Robin International, Inc. This lawsuit was filed in the Superior Court of the State of California. The Huggett lawsuit alleges failure to comply with California wage and hour regulations, including those governing meal and rest periods, payment of wages upon termination and provision of itemized statements to employees, as well as unlawful business practices and unfair competition. The Huggett complaint states claims for damages, including punitive and exemplary damages and injunctive relief. The Company filed an answer to the Huggett complaint and removed the case to the United States District Court for the Central District of California. On March 13, 2006, Huggett filed a motion to remand the case to the California state court. On June 9, 2006, the Court denied the motion to remand.

Although the Company plans to vigorously defend these suits, the Company cannot predict the outcome of these lawsuits or what actions the SEC may take. It is possible that the Company may be required to pay damages, settlement costs, legal costs or other amounts that may not be covered by insurance, which could have a material adverse effect on the Company's financial condition and results of operations.

In the normal course of business, there are various other claims in process, matters in litigation and other contingencies. These include claims resulting from "slip and fall" accidents, employment related claims and claims from guests or team members alleging illness, injury or other food quality, health or operational concerns. To date, no claims of these types of litigation, certain of which are covered by insurance policies, have had a material effect on us. While it is not possible to predict the outcome of these other suits, legal proceedings and claims with certainty, management is of the opinion that adequate provision for potential losses associated with these other matters has been made in the financial statements and that the ultimate resolution of these other matters will not have a material adverse effect on the Company's financial position and results of operations.

9. Significant and Unusual Items

As discussed in Note 2 above, the Company incurred a charge of \$1.4 million relating to reacquired franchise rights in accordance with EITF 04-1. This charge reflects the lower royalty rates applicable to the Acquired Restaurants compared to a standard royalty rate the Company would receive under the Company's current royalty agreements. This charge is presented as a significant and unusual item in the accompanying condensed consolidated statements of income for the twelve and forty weeks ended October 1, 2006.

On August 11, 2005, the Company announced the retirement of its then current chairman, president and chief executive officer, and the resignation of its then current senior vice president and chief financial officer. These management changes followed an internal investigation commenced during the second quarter of 2005 by a special committee of the Company's board of directors relating to use of chartered aircraft and travel and entertainment expenses. On August 19, 2005, the former chairman, president and chief executive officer reimbursed the Company \$1.25 million for these expenses. As a result, the Company recognized a pre-tax gain of \$1.25 million.

In addition, in accordance with FIN 44, the Company recorded a non-cash stock-based compensation expense of approximately \$2.8 million in the third quarter 2005.

This charge relates to approximately 400,000 stock options granted in May 2000. The board of directors accelerated vesting of those stock options in 2002, and the former chairman, president and chief executive officer and the former senior vice president and chief financial officer exercised those stock options in 2002. This accelerated vesting triggered the modification of these awards such that they were revalued based upon the fair value of the underlying stock at the time of the modification. Absent this modification, these stock option awards would have been forfeited upon the retirement and the resignation of these former executives. Because these awards would not have vested under their original terms, FIN 44 requires the Company to recognize stock-based compensation expense during the twelve weeks ended October 2, 2005, in an amount equal to the excess fair value of the underlying stock over the option exercise price at the time of the modification.

The \$1.25 million gain and the \$2.8 million stock-based compensation expense are presented as a net charge of \$1.5 million significant and unusual items, in the accompanying condensed consolidated statements of income for the twelve and forty weeks ended October 2, 2005.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis of Financial Condition and Results of Operations provides a narrative on our financial performance and condition that should be read in conjunction with the accompanying condensed consolidated financial statements.

Overview

All comparisons under this heading between 2006 and 2005 refer to the twelve-week and forty-week periods ending October 1, 2006 and October 2, 2005, respectively, unless otherwise indicated.

As of October 1, 2006, there were 332 Red Robin® casual dining restaurants in 37 states and Canada. 199 of these restaurants were company-owned, two are managed by the Company under a management agreement with a franchisee (Managed Restaurants) and the remaining 133 were operated under franchise agreements.

Our primary source of revenue is from the sale of food and beverages at company-owned restaurants. We also earn revenue from royalties and fees from franchised restaurants as well as revenue from rent.

Our challenges include increased competition among casual dining restaurant chains for the guest's discretionary dining

dollars, increasing labor and benefit costs, increased energy and petroleum-based product prices, and increasing real-estate and new restaurant construction costs. In light of these complexities and challenges, management is pursuing a disciplined growth strategy that includes the addition of company-owned restaurants as well as programs to increase sales at existing restaurants. In addition, management is focused on managing restaurant operating and development costs and building our corporate infrastructure to facilitate our long-term growth expectations.

The following summarizes the most significant events occurring during fiscal 2006:

- *Franchise Acquisitions.* On July 10, 2006, we completed the acquisition of 11 of 13 franchised Red Robin® restaurants in the state of Washington. The franchised restaurants were owned by various entities affiliated with Great Western Dining, the former manager of the restaurants. Effective July 10, 2006, we also assumed management of the remaining two restaurant locations owned by the Washington franchisees under a management services agreement. The 13 restaurants collectively are referred to as the Acquired Restaurants and have been included in our results of operations beginning July 10, 2006.
- *Company-Owned Restaurant Sales.* Our company-owned comparable restaurants sales have increased 0.8% and 3.1% for the twelve and forty weeks ended October 2, 2006. We consider restaurants as comparable in the first period following five full quarters of operations. These increases reflect increases in the average guest check of 1.4% for both the twelve and forty weeks ended October 1, 2006, offset by a decrease in guest counts of 0.6% and an increase in guest counts of 1.7% for the twelve and forty weeks ended October 1, 2006, respectively. We are experiencing the dilution from less mature restaurants entering the comparable base. Newer restaurants generally take at least three years to generate average sales volumes equivalent to historical comparable restaurants. By the end of fiscal 2006, approximately 41% of our company-owned restaurants will have been opened less than three years. As these less mature restaurants enter the comparable base, our comparable restaurant sales volume could continue to be negatively affected.
- *New Restaurant Openings.* Contributing to restaurant revenue growth has been the revenue from our non-comparable restaurants. Since October 2, 2005, we have opened 36 company-owned restaurants. We have been challenged with restaurant openings in new markets where we do not have strong brand awareness. Approximately 61% of our non-comparable restaurant operating weeks in the third and fourth quarter of 2006 are coming from restaurants in new markets. We have developed and will continue to develop brand building initiatives designed to improve brand awareness in new markets.
- *Reduced Commodity Food Costs.* We have generally experienced an improvement in the prices for several food cost categories including hamburger, meats, dairy, fresh produce and canned goods since the third quarter 2005. In addition, we introduced a new menu that was engineered to drive sales of higher margin menu items.
- *Increased Labor and Benefits Costs.* We continue to see increases in labor and related costs, both on an absolute basis and as a percentage of restaurant revenue. The increases include stock-based compensation, higher hourly and management salaries and related benefits.
- *Adoption of SFAS No. 123R.* In the first quarter 2006, the Company adopted the fair value recognition provisions of Statement of Financial Accounting Standards (SFAS) No. 123R, *Share-Based Payment*, (SFAS 123R), a revision of SFAS 123, *Accounting for Stock-Based Compensation*, using the modified prospective transition method and therefore has not retrospectively adjusted results for prior periods. For the quarter ended October 1, 2006, we recognized total pre-tax stock-based compensation expense of \$1.3 million, of which \$197,000 and \$1.1 million were recognized in restaurant labor and general and administrative expenses, respectively. We recognized total stock-base compensation expense of \$4.6 million for the forty weeks ended October 1, 2006, of which \$675,000 and \$3.9 million were recognized in restaurant labor and general and administrative expenses, respectively.

The following table details restaurant unit data for our company-owned and franchise locations for the periods indicated.

	Twelve Weeks Ended		Forty Weeks Ended	
	October 1, 2006	October 2, 2005	October 1, 2006	October 2, 2005
Company-owned:				
Beginning of period	180	148	163	137
Opened during period	8	4	25	15
Acquired Restaurants*	11	—	11	—
End of period	199	152	199	152
Franchised:				
Beginning of period	142	126	136	118
Opened during period	2	1	8	10
Sold or closed during period	(11)	—	(11)	(1)
End of period	133	127	133	127
Total number of Red Robin® restaurants	332	279	332	279

* Does not include the two Managed Restaurants.

Since October 1, 2006 and through November 1, 2006, we have opened four additional company-owned restaurants and our franchisees have opened four additional restaurants. We expect to open an additional three company-owned restaurants in the fourth quarter of 2006. We anticipate that our franchisees will open an additional three to four restaurants in the fourth quarter of 2006.

Results of Operations

Operating results for each period presented below are expressed as a percentage of total revenues, except for the components of restaurant operating costs, which are expressed as a percentage of restaurant revenues.

This information has been prepared on a basis consistent with the audited 2005 annual financial statements and, in the opinion of management, includes all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the information for the periods presented. Our operating results may fluctuate significantly as a result of a variety of factors, and operating results for any period presented are not necessarily indicative of results for a full fiscal year. The 2006 results include the impact of stock-based compensation expense.

16

	Twelve Weeks Ended		Forty Weeks Ended	
	October 1, 2006	October 2, 2005	October 1, 2006	October 2, 2005

Net income	4.0%	5.7%	4.5%	5.9%

Certain percentage amounts in the table above do not sum due to rounding as well as the fact that restaurant operating costs are expressed as a percentage of restaurant revenues, as opposed to total revenues.

Total Revenues

(In thousands, except percentages)	Twelve Weeks Ended		Percent Change	Forty Weeks Ended		Percent Change
	October 1, 2006	October 2, 2005		October 1, 2006	October 2, 2005	
Restaurant revenue	\$ 145,316	\$ 110,993	30.9%	\$ 443,038	\$ 358,808	23.5%
Franchise royalties and fees	3,210	3,158	1.6%	11,757	10,445	12.6%
Rent revenue	37	61	(39.3)%	161	272	(40.8)%
Total revenues	\$ 148,563	\$ 114,212	30.1%	\$ 454,956	\$ 369,525	23.1%
Average weekly sales volumes:						
Comparable restaurants	\$ 62,767	\$ 63,467	(1.1)%	\$ 64,542	\$ 63,976	0.9%

Non-comparable restaurants	\$ 54,705	\$ 58,665	(6.7)%	\$ 56,673	\$ 59,543	(4.8)%
Acquired Restaurants	\$ 85,565	\$ —	—%	\$ 85,565	\$ —	—%

Restaurant revenues, which are comprised almost entirely of food and beverage sales, increased by \$34.3 million, or 30.9%, compared to the third quarter 2005. Of this increase, \$14.4 million was attributable to new company-owned restaurants opened during 2006, \$13.3 million to revenues from the Acquired Restaurants, \$6.2 million to additional revenues from non-comparable restaurants opened in 2005, and \$0.4 million to a 0.8% increase in comparable restaurant sales over the prior year. The increase in comparable restaurant sales was driven by a 1.4% increase in the average guest check partially offset by a 0.6% decrease in guest counts.

For the forty weeks ended October 1, 2006, restaurant revenues increased by \$84.2 million, or 23.5%, compared to the same period in fiscal 2005. Of this increase, \$27.5 million was attributable to new company-owned restaurants opened during 2006, \$13.3 million to revenues from the Acquired Restaurants, \$34.2 million to additional revenues from non-comparable restaurants opened in 2005, and \$9.2 million to a 3.1% increase in comparable restaurant sales. The increase in comparable restaurant sales was driven by a 1.7% increase in guest counts and a 1.4% increase in the average guest check. The increase in average guest check for both the twelve and forty weeks ended October 1, 2006, is primarily attributable to an approximate 1.0% and 1.5% price increase implemented in March 2006 and June 2005, respectively.

17

The decrease in comparable average weekly sales volume during the third quarter 2006 was primarily the result of the a higher weighting of the eight less mature restaurants entering the comparable base in the third quarter 2006 offset by an increase in same store sales growth. The increase in comparable average weekly sales volume during the forty weeks ended October 1, 2006 was primarily the result of the increase in same stores sales growth partially offset by a higher weighting of the 20 less mature restaurants entering the comparable base during 2006. The performance of these newer restaurants entering the comparable base reflects the historical ramp up of our restaurants during the early years of operations. The decrease in the non-comparable restaurants' average weekly sales volumes in 2006 compared to 2005 is primarily attributed to the heavier weighting in 2006 of the number of operating weeks from new restaurants recently opened in new markets. Typically, a restaurant in a new market does not have the brand recognition of a restaurant that opens in an existing market, and therefore the sales volumes for a restaurant in a new market ramp up more slowly.

Franchise royalties and fees, which consist primarily of royalty income and initial franchise fees, increased by 1.6% and 12.6% for the twelve and forty weeks ended October 1, 2006, respectively, over the same periods last year. The 1.6% increase for the twelve weeks ended October 1, 2006 was driven by a 2.6% increase in existing franchise royalty income; a 13.6% increase for franchise restaurants opened in 2006; partially offset by a \$453,000 decrease from royalties earned in 2005 from the Acquired Restaurants. For the twelve weeks ended October 1, 2006, our franchisees reported that comparable sales for U.S. and Canadian restaurants increased 2.0% and 12.1% respectively. The 12.6% increase for the forty weeks ended October 1, 2006 was driven by a 7% increase in existing franchise restaurants; a 12% increase for franchise restaurants opened in 2006; partially offset by a \$453,000 decrease from royalties earned in 2005 from the Acquired Restaurants. Comparable sales for U.S. and Canadian franchise restaurants for the forty weeks ended October 1, 2006 increased 3.0% and 8.9%, respectively over the prior year.

Costs and Expenses

Cost of Sales

(In thousands, except percentages)	Twelve Weeks Ended			Forty Weeks Ended		
	October 1, 2006	October 2, 2005	Percent Change	October 1, 2006	October 2, 2005	Percent Change
Cost of sales	\$ 32,725	\$ 25,316	29.3%	\$ 100,601	\$ 83,910	19.9%
As a percent of restaurant revenue	22.5%	22.8%	(0.3)%	22.7%	23.4%	(0.7)%

Cost of sales, comprised of food and beverage expenses, are variable and generally fluctuate with sales volume. As a percentage of restaurant revenues, cost of sales improved 0.3% and 0.7%, for the twelve and forty weeks ended October 1, 2006, respectively, due primarily to lower commodity costs and menu mix changes to lower cost items, as well as the leverage from price increases implemented since June 2005.

Labor

(In thousands, except percentages)	Twelve Weeks Ended			Forty Weeks Ended		
	October 1, 2006	October 2, 2005	Percent Change	October 1, 2006	October 2, 2005	Percent Change
Labor	\$ 49,302	\$ 37,521	31.4%	\$ 152,491	\$ 120,989	26.0%
As a percent of restaurant revenue	33.9%	33.8%	0.1%	34.4%	33.7%	0.7%

Labor costs include restaurant hourly wages, fixed management salaries, stock-based compensation, bonuses, taxes and benefits for restaurant team members. Labor as a percentage of restaurant revenue increased 0.1% and 0.7% for the twelve and forty weeks ended October 1, 2006, respectively. These increases were the result of increases in salaried labor costs, incentive bonuses and benefit costs (including stock-based compensation costs) partially offset by improved workers compensation and health insurance cost trends. For the twelve weeks ended October 1, 2006, higher salaries and wages and stock compensation contributed a 0.8% increase as a percentage of restaurant revenue primarily offset by a 0.8% decrease in benefit costs. For the forty weeks ended October 1, 2006, higher wages and stock compensation expense contributed 0.5% and 0.2%, respectively to the increases.

Operating

(In thousands, except percentages)	Twelve Weeks Ended			Forty Weeks Ended		
	October 1, 2006	October 2, 2005	Percent Change	October 1, 2006	October 2, 2005	Percent Change
Operating	\$ 23,520	\$ 16,726	40.6%	\$ 69,030	\$ 53,653	28.7%
As a percent of restaurant revenue	16.2%	15.1%	1.1%	15.6%	15.0%	0.6%

18

Operating costs include variable costs such as restaurant supplies, advertising and energy costs, and fixed costs such as service repairs and maintenance costs. Operating

costs as a percent of restaurant revenue increased 1.1% and 0.6% for the twelve and forty weeks ended October 1, 2006, respectively. For the twelve weeks ended October 1, 2006, higher utility, supplies and maintenance expenses contributed 0.5%, 0.2% and 0.2%, respectively to the higher total operating costs. For the forty weeks ended October 1, 2006, utility, supplies and maintenance expenses contribute 0.3%, 0.1% and 0.1%, respectively to the higher total operating costs.

Occupancy

(In thousands, except percentages)	Twelve Weeks Ended			Forty Weeks Ended		
	October 1, 2006	October 2, 2005	Percent Change	October 1, 2006	October 2, 2005	Percent Change
Occupancy	\$ 9,514	\$ 7,199	32.2%	\$ 27,445	\$ 22,839	20.2%
As a percent of restaurant revenue	6.5%	6.5%	—%	6.2%	6.4%	(0.2)%

Occupancy costs include fixed rents, percentage rents, common area maintenance charges, real estate and personal property taxes, general liability insurance and other property costs. Our occupancy costs generally increase as the number of company-owned restaurants increases but decline as a percentage of restaurant revenues as we leverage our fixed costs. Occupancy expense as a percent of restaurant revenue improved over the prior year periods due to the leverage provided by the increase in restaurant sales.

Depreciation and Amortization

(In thousands, except percentages)	Twelve Weeks Ended			Forty Weeks Ended		
	October 1, 2006	October 2, 2005	Percent Change	October 1, 2006	October 2, 2005	Percent Change
Depreciation and amortization	\$ 8,399	\$ 6,150	36.6%	\$ 24,902	\$ 19,393	28.4%
As a percent of total revenues	5.7%	5.4%	0.3%	5.5%	5.2%	0.3%

Depreciation and amortization includes depreciation on capital expenditures for restaurants and corporate assets as well as amortization of acquired intangible assets and liquor licenses. Depreciation and amortization expense as a percentage of total revenues has increased primarily due to increased depreciation and amortization for tangible and intangible assets related to the Acquired Restaurants as well as the increase in per restaurant costs capitalized for restaurants opened in 2006 and 2005.

General and Administrative

(In thousands, except percentages)	Twelve Weeks Ended			Forty Weeks Ended		
	October 1, 2006	October 2, 2005	Percent Change	October 1, 2006	October 2, 2005	Percent Change
General and administrative	\$ 10,900	\$ 7,987	36.5%	\$ 38,129	\$ 27,506	38.6%
As a percent of total revenues	7.3%	7.0%	0.3%	8.4%	7.4%	1.0%

General and administrative costs include all corporate and administrative functions that support existing restaurant operations, franchises, and provide infrastructure to facilitate our future growth. Components of this category include corporate management, supervisory and staff salaries, bonuses, stock-based compensation and related employee benefits, travel, information systems, training, office rent, franchise administrative support, legal, professional and consulting fees and marketing costs. General and administrative expenses as a percentage of total revenues increased from 7.0% in the 2005 quarter to 7.3% in the 2006 quarter and increased from 7.4% in the 2005 year to date period to 8.4% in the 2006 year to date period. Stock-based compensation related to adoption of SFAS 123R contributed 0.7% in the 2006 quarter, and 0.9% in the 2006 year to date period. The increase in both periods was partially offset by the absorption of general and administrative costs over a larger revenue base.

Pre-opening Costs

(In thousands, except percentages)	Twelve Weeks Ended			Forty Weeks Ended		
	October 1, 2006	October 2, 2005	Percent Change	October 1, 2006	October 2, 2005	Percent Change
Pre-opening costs	\$ 2,488	\$ 1,364	82.4%	\$ 6,643	\$ 4,175	59.1%
As a percent of total revenues	1.7%	1.2%	0.5%	1.5%	1.1%	0.4%
Average per restaurant pre-opening costs	\$ 265	\$ 229	15.7%	\$ 250	\$ 215	16.8%

Pre-opening costs, which are expensed as incurred, consist of the costs of labor, hiring and training the initial hourly work force for our new restaurants, travel expenses for our training teams, the cost of food and beverages used in training, marketing

costs, lease costs incurred prior to opening and other direct costs related to the opening of new restaurants. Pre-opening costs for the twelve weeks ended October 1, 2006 and October 2, 2005 reflect the opening of eight and four new restaurants respectively. For the forty weeks ended October 1, 2006 and October 2, 2005, pre-opening costs reflect the opening of 25 and 15 new restaurants respectively. In addition, these amounts include approximately \$368,000 and \$449,000 for restaurants that will be opened or have been opened in the fourth quarter of 2006 and 2005, respectively. Average per restaurant pre-opening costs represent total costs incurred for those restaurants that opened for business during the periods presented. The increases in our average pre-opening costs per restaurant reflects an increase in lease costs incurred prior to opening. These increased lease costs are driven by the number of restaurants built on leased land versus restaurants built on purchased land. Our 2006 new restaurants are weighted more heavily to leased land than our 2005 restaurant openings.

Significant and Unusual Items

(In thousands, except percentages)	Twelve Weeks Ended			Forty Weeks Ended		
	October 1, 2006	October 2, 2005	Percent Change	October 1, 2006	October 2, 2005	Percent Change
Significant and unusual items	\$ 1,434	\$ 1,543	(7.1)%	\$ 1,434	\$ 1,543	(7.1)%
As a percent of total revenues	1.0%	1.4%	(0.4)%	0.3%	0.4%	(0.1)%

In the third quarter 2006, we incurred a charge of \$1.4 million for 11 of the 13 Acquired Restaurants in accordance with EITF 04-1 which requires that a business combination between two parties that have a preexisting relationship be evaluated to determine if a settlement of a preexisting relationship exists. If a contract includes terms that are favorable or unfavorable when compared to pricing for current market transactions for the same or similar items, EITF 04-1 requires that a settlement gain or loss be recorded. This charge reflects the lower royalty rates applicable to the Acquired Restaurants compared to a standard royalty rates we would receive under our current royalty agreements.

On August 18, 2005, our former chairman, president and chief executive officer entered into a Restitution Agreement with us, and on August 19, 2005, we received

\$1.25 million as reimbursement from him for various expenses that were found to be inconsistent with company policies or that lacked sufficient documentation. In addition, in accordance with FASB Interpretation No. 44, *Accounting for Certain Transactions Involving Stock Compensation*, we recorded a non-cash stock-based compensation expense of \$2.8 million for stock options previously granted to and exercised by our former chairman, president and chief executive officer and former senior vice president and chief financial officer. The third quarter 2005 reflects a net \$1.5 million charge for these two significant and unusual items.

Interest Expense, net

Interest expense was \$1.6 million and \$0.7 million for the twelve weeks ended October 1, 2006 and October 2, 2005, respectively and \$3.6 million and \$2.2 million for the forty weeks ended October 1, 2006 and October 2, 2005, respectively. Interest expense in 2006 was higher due to higher borrowings outstanding under our revolving credit facility and a slightly higher average interest rate of 7.1% versus 7.0% in 2005. The acquisition of the 11 Acquired Restaurants was funded through borrowings under our revolving credit facility.

Provision for Income Taxes

The effective income tax rate for the third quarter 2006 was 31.0% compared to 33.2% for the third quarter 2005. The effective tax rate for the forty weeks ended October 1, 2006 and October 2, 2005 was 33.0% and 34.2%, respectively. All periods of 2006 were favorably impacted by higher hourly employment tax credits.

Liquidity and Capital Resources

General. Cash and cash equivalents increased \$846,000 to \$4.2 million during the first forty weeks of fiscal 2006, compared to \$3.3 million at the end of fiscal 2005. This increase was due primarily to higher cash flows provided by operating activities and net borrowings under the revolving credit facility offset by our cash purchase of the 11 franchised-owned restaurants on July 10, 2006. We continue to reinvest available cash flows from operations to develop new restaurants or enhance existing restaurants.

Financial Condition. The Company and the restaurant industry in general, maintain relatively low levels of accounts receivable and inventories. Vendors grant trade credit for purchases such as food and supplies. We also continually invest in our business through the addition of new restaurants and refurbishment of existing restaurants, which are reflected as long-term assets and not as part of working capital.

Credit Facility. We currently maintain a \$200 million revolving credit facility that matures on December 14, 2010. Borrowings under the amended credit agreement bear interest at one of the following rates as selected by the Company: an Alternative Base Rate (ABR), which is based on the Prime Rate plus 0.00% to 0.25% or a London Interbank Offered Rate (LIBOR), which is based on the relevant one, two, three or six month LIBOR, at the Company's discretion, plus 0.625% to 1.25%. In addition to the ABR and LIBOR loans, the agreement provides for a swing-line loan sub-facility which allows the Company to borrow up to \$7.5 million. The credit facility also requires the payment of an annual commitment fee based on the unused portion of the credit facility. The annual commitment rate and the credit facility's interest rates are based on a financial leverage ratio, as defined in the credit agreement. The Company and certain of its subsidiaries granted liens on substantially all personal property assets and certain real property assets to secure our respective obligations under the credit facility. As long as the Company meets a certain financial leverage ratio, the Company will not be required to mortgage or encumber real property assets acquired in the future. Additionally, certain of our real and personal property secure other indebtedness of the Company. At October 1, 2006, we had \$89.8 million of outstanding borrowings under our revolving credit facility and had letters of credit outstanding against our credit facility of \$3.6 million.

Covenants. We are subject to a number of customary covenants under our various credit agreements, including limitations on additional borrowings, acquisitions, dividend payments, and requirements to maintain certain financial ratios. As of October 1, 2006, we were in compliance with all debt covenants.

Total debt outstanding increased to \$105.0 million at October 1, 2006 from \$58.5 million at December 25, 2005, due to additional borrowings to construct new restaurants, fund the purchase of the Acquired Restaurants and acquire other assets, offset by payments made on capital lease obligations. For the acquisition of the 11 franchisee-owned restaurants on July 10, 2006, the Company borrowed approximately \$33.5 million under our existing revolving credit facility.

Capital Expenditures. Cash paid for capital expenditures, including capital lease obligations, was \$73.0 million and \$61.1 million for the forty weeks ended October 1, 2006 and October 2, 2005, respectively. The increased capital expenditures in 2006 reflects higher expenditures for new restaurants as well as increases in facility improvements.

During fiscal year 2006, we expect capital expenditures to total \$100 million to \$105 million, excluding capital expenditures for the purchase of the Acquired Restaurants. We plan to open another three new company-owned restaurants in 2006 and plan to continue our investment in restaurant remodels and capital improvements as well as expanding our corporate infrastructure to support our growth model.

Future Liquidity. We require capital principally to grow the business through new restaurant construction, as well as to maintain, improve and refurbish existing restaurants, and for general operating purposes. In addition, we have and may continue to use capital to acquire franchise restaurants. Our primary short-term and long-term sources of liquidity are expected to be cash flows from operations and the revolving bank credit facility. Based upon current levels of operations and anticipated growth, we expect that cash flows from operations, combined with other financing alternatives in place or available, will be sufficient to meet debt service, capital expenditures and working capital requirements. In addition, our acquisition of 11 franchisee-owned restaurants on July 10, 2006 was funded primarily from our revolving credit facility. Our anticipated acquisition of the two Managed Restaurants will be funded through borrowings under the revolving credit facility.

Inflation

The primary inflationary factors affecting our operations are food, labor costs, energy costs and materials used in the construction of new restaurants. A large number of our restaurant personnel are paid at rates based on the applicable minimum wage, and increases in the minimum wage directly affect our labor costs. Many of our leases require us to pay taxes, maintenance, repairs, insurance and utilities, all of which are generally subject to inflationary increases. We believe inflation has had a negative impact on our financial condition and results of operations in the current year, due primarily to higher energy costs, higher costs for certain supplies and petroleum based products, and higher costs for materials and labor related to construction of our new restaurants. Uncertainties related to fluctuating costs, including energy costs, commodity prices, wages and construction materials make it difficult to predict what impact, if any, inflation may have on our business during 2006.

Seasonality

Our business is subject to seasonal fluctuations. Historically, sales in most of our restaurants have been higher during the summer months and winter holiday season. Our quarterly and annual operating results and comparable restaurant sales may fluctuate significantly as a result of seasonality and other factors. Accordingly, results for any one quarter are not necessarily indicative of results to be expected for any other quarter or for any year and comparable restaurant sales for any particular future period may decrease.

Off Balance Sheet Arrangements

Except for operating leases (primarily restaurant leases), we do not have any off balance sheet arrangements.

Critical Accounting Policies and Estimates

We have identified the following as the Company's most critical accounting policies, which are those that are most important to the portrayal of the Company's financial condition and results and require management's most subjective and complex judgments. Information regarding the Company's other significant accounting policies are disclosed in Note 1 of our consolidated financial statements.

Stock-Based Compensation Expense. Effective December 26, 2005, the beginning of the first quarter of fiscal 2006, we adopted the fair value recognition provisions of SFAS 123R, using the modified prospective transition method, and therefore have not restated prior periods' results. Under the fair value recognition provisions of SFAS 123R, we recognize stock-based compensation using the Black-Scholes option pricing model and recognize expense on a graded vesting basis over the requisite service periods of an option. Determining the appropriate fair value model and calculating the fair value of share-based payment awards requires the input of highly subjective and judgmental assumptions including volatility, forfeiture rates, and expected option life. If any of the assumptions used in the model change significantly, share-based compensation expense may differ materially in the future from that recorded in the current period.

Property and Equipment. Property and equipment is recorded at cost. Expenditures for major additions and improvements are capitalized and minor replacements, maintenance and repairs are charged to expense as incurred. Depreciation is computed using the straight-line method over the estimated useful life for owned assets and the shorter of the estimated useful life or the term of the underlying lease for leased assets. Changes in circumstances, such as changes to our business model or changes in our capital strategy, can result in the actual useful lives differing from our estimates. In those cases where management determines that the useful life of property and equipment should be shortened, we would depreciate the net book value over its revised remaining useful life thereby increasing depreciation and amortization expense. Factors such as changes in the planned use of fixtures or closing of facilities could also result in shortened useful lives.

Our accounting policies regarding property and equipment include judgments by management regarding the estimated useful lives of these assets, the expected lease term for assets related to properties under lease and the determination as to what constitutes enhancing the value of or increasing the life of existing assets. These judgments and estimates may produce materially different amounts of depreciation and amortization expense than would be reported if different assumptions were used. As discussed further below, these judgments may also impact management's need to recognize an impairment charge on the carrying amount of these assets as the cash flows associated with the assets are realized.

Impairment of Long-Lived Assets. Long-lived assets, including restaurant sites, leasehold improvements, other fixed assets and amortized intangible assets are reviewed when indicators of impairment are present. Expected cash flows associated with an asset are the key factor in determining the recoverability of the asset. Identifiable cash flows are generally measured at the restaurant level. The estimate of cash flows is based upon, among other things, certain assumptions about expected future operating performance. Management's estimates of undiscounted cash flows may differ from actual cash flows due to, among other things, changes in economic conditions, changes to our business model or changes in operating performance. If the sum of the undiscounted cash flows is less than the carrying value of the asset, we recognize an impairment loss, measured as the amount by which the carrying value exceeds the fair value of the asset.

Judgments made by management related to the expected useful lives of long-lived assets and our ability to realize undiscounted cash flows in excess of the carrying amounts of such assets are affected by factors such as the ongoing maintenance and improvements of the assets, changes in economic conditions and changes in operating performance. As the ongoing expected cash flows and carrying amounts of long-lived assets are assessed, these factors could cause us to realize a material impairment charge. There were no asset impairment charges during the forty weeks ended October 1, 2006 and October 2, 2005.

Goodwill. We also evaluate goodwill annually or more frequently if indicators of impairment are present. The evaluation is based upon a comparison of the carrying value of our net assets including goodwill balances to the fair value of our net assets using the quoted market price of our common stock. We completed our most recent goodwill impairment test in December 2005 and determined that there were no impairment losses related to goodwill. In the event that business conditions change and our market value were to drop significantly below year-end levels, future tests may result in a need to record a loss due to a write-down of the value of goodwill. At October 1, 2006, goodwill recorded in the consolidated balance sheet totaled \$38.5 million.

Lease Accounting. Under the provisions of certain of our leases, there are rent holidays and/or escalations in payments over the base lease term, as well as renewal periods. The effects of rent holidays and escalations are reflected in rent costs on a straight-line basis over the expected lease term, which includes cancelable option periods when it is deemed to be reasonably assured that we will exercise such option periods due to the fact that we would incur an economic penalty for not doing so. The lease term commences on the date when we become legally obligated for the rent payments which generally coincides with the time when the landlord delivers the property for us to develop and we waive contract contingencies. All rent costs recognized during construction periods are expensed immediately as pre-opening expenses.

Judgments made by management for its lease obligations include the probable term for each lease that affects the classification and accounting for a lease as capital or operating; the rent holidays and/or escalations in payments that are taken into consideration when calculating straight-line rent; and the term over which leasehold improvements for each restaurant facility are amortized. These judgments may produce materially different amounts of depreciation, amortization and rent expense than would be reported if different assumed lease terms were used.

Insurance/Self-Insurance Liabilities. The Company is self-insured for a portion of losses related to group health insurance, general liability and workers' compensation. We maintain stop-loss coverage with third party insurers to limit our total exposure. The self-insurance liability represents an estimate of the cost of claims incurred and unpaid as of the balance sheet date. The estimated liability is not discounted and is established based upon analysis of historical data and actuarial based estimates, and is closely monitored and adjusted when warranted by changing circumstances. In addition, our history of self-insured experience is short and our significant rate of growth could affect the accuracy of estimates based on historical experience. Should a greater amount of claims occur compared to what was estimated, or should medical costs increase beyond what was expected, our accrued liabilities might not be sufficient and additional expenses may be recorded. Actual claims experience could also be more favorable than estimated, resulting in expense reductions. Unanticipated changes may produce materially different amounts of expense than that reported under these programs.

Recent Accounting Pronouncements

In September 2006, the Financial Accounting Standards Board's (FASB) issued SFAS No. 157, *Fair Value Measurements*, (SFAS 157). This statement defines fair value, establishes a framework for using fair value to measure assets and liabilities, and expands disclosures about fair value measurements. The statement applies whenever other statements require or permit assets or liabilities to be measured at fair value. SFAS 157 is effective for our fiscal year beginning December 31, 2008. We are evaluating the impact the adoption of SFAS 157 will have on our consolidated financial statements.

In July 2006, the FASB issued Financial Interpretation No. 48, *Accounting for Uncertainty in Income Taxes—an Interpretation of FASB Statement No. 109* (FIN 48). FIN 48 prescribes a comprehensive financial statement model of how a company should recognize, measure, present, and disclose uncertain tax positions that the company has taken or expects to take in its income tax returns. FIN 48 requires that only income tax benefits that meet the "more likely than not" recognition threshold be recognized or continue to be recognized on the effective date. Initial derecognition amounts would be reported as a cumulative effect of a change in accounting principle. FIN 48 is effective for our fiscal year beginning January 1, 2007. We are assessing the impact the new guidance will have on our consolidated financial statements.

In March 2006, the FASB's Emerging Issues Task Force (EITF) issued Issue 06-3, *How Sales Taxes Collected From Customers and Remitted to Governmental Authorities Should Be Presented in the Income Statement* (EITF 06-3). A consensus was reached that entities may adopt a policy of presenting sales taxes in the income statement on either a gross or net basis. If taxes are significant, an entity should disclose its policy of presenting taxes and the amounts of taxes. The guidance is effective for our fiscal year beginning January 1, 2007. We present company sales net of sales taxes. EITF 06-3 will not impact the method for recording these sales taxes in our consolidated financial statements.

Forward-Looking Statements

Certain information and statements contained in this report that reflect the Company's current expectations regarding, among other things, future results of operations, economic performance, liquidity and capital resources, financial condition and achievements of the Company, are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements include statements regarding our expectations, beliefs, intentions, plans, objectives, goals, strategies, future events or performance and underlying assumptions and other statements which are other than statements of historical facts. These statements may be identified, without limitation, by the use of forward-looking terminology such as "anticipate," "assume", "believe", "estimates", "expects," "intend", "plan", "project," "will," "would" or comparable and similar terms or the negative thereof. Certain forward-looking statements are included in this Form 10-Q, principally in the sections captioned "Financial Statements" and "Management's Discussion and Analysis". All forward-looking statements included in this Form 10-Q are based on information

available to the Company on the date hereof. Such statements speak only as of the date hereof and we undertake no obligation to update any such statement to reflect events or circumstances arising after the date hereof. These statements are based on assumptions believed by us to be reasonable, and involve known and unknown risks and uncertainties that could cause actual results to differ materially from those described in the statements. These risks and uncertainties include, but are not limited to, the following: our ability to consummate the acquisition of the remaining two restaurants from our franchisee in the state of Washington; our ability to integrate the acquired restaurants and operate them as expected; finalization of purchase price and purchase price accounting adjustments related to the acquisition of the Washington franchised restaurants; our ability to achieve and manage our planned expansion; lack of brand awareness in new markets; our ability to open restaurants and operate them as expected; changes in the cost and availability of building materials and restaurant supplies; our ability to reduce construction costs in our building; the concentration of our restaurants in the Western United States; changes in consumer preferences, general economic conditions or consumer discretionary spending; effectiveness of our management strategies, initiatives and decisions; changes in availability of capital or credit facility borrowings; changes in the availability and costs of food; increases in energy costs; potential increases in labor expense due to pending minimum wage legislation in some states; costs of legal fees related to defending class actions and other lawsuits and legal matters; our quarterly operating results due to seasonality and other factors; the effect of increased competition in the casual dining market; the continued service of key management personnel; our ability to protect our name and logo and other proprietary information; our ability to attract, motivate and retain qualified team members; the costs associated with pending litigation and investigations including diversion of management time and attention and any expense related to settlement of such matters; the ability of our franchisees to open and manage new restaurants; our franchisees' adherence to our practices, policies and procedures; additional costs associated with compliance, including the Sarbanes-Oxley Act and related regulations and requirements; the effectiveness of our internal controls over financial reporting; future changes in financial accounting standards; and other risk factors described from time to time in the Company's Annual Report on Form 10-K for 2005 filed with the SEC.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk exposures for our assets are related to cash, cash equivalents and investments. We invest our excess cash in highly liquid short-term investments with maturities of less than one year. These investments are not held for trading or other speculative purposes. Changes in interest rates affect the investment income we earn on our investments and, therefore, impact our cash flows and results of operations.

Under our revolving credit agreement, amended in December 2005, we are exposed to market risk from changes in interest rates on borrowings, which bear interest at one of the following rates we select: an Alternate Base Rate (ABR), based on the Prime Rate plus 0.00% to 0.25%, or a LIBOR, based on the relevant one, two, three or six-month LIBOR, at our discretion, plus 0.625% to 1.25%. The spread, or margin, for ABR and LIBOR loans under the revolving credit agreement is subject to quarterly adjustment based on our then current leverage ratio, as defined by the credit agreement.

Our objective in managing exposure to interest rate changes is to lower overall borrowing costs and to limit the impact of interest rate changes on earnings and cash flows. To achieve this objective, we may use interest rate swaps and caps to manage our net exposure to interest rate changes related to our borrowings. The interest rate swap agreement the Company had entered into in December 2002, to reduce exposure to rising interest rates, expired January 2006. As appropriate, on the date derivative contracts are entered into, we designate derivatives as either a hedge of the fair value of a recognized asset or liability or of an unrecognized firm commitment (fair value hedge), or a hedge of a forecasted transaction or of the variability of cash flows to be received or paid related to a recognized asset or liability (cash flow hedge).

As of October 1, 2006, we had \$95.0 million of borrowings subject to variable interest rates, and a plus or minus 1.0% change in the effective interest rate applied to these loans would have resulted in pre-tax interest expense fluctuation of \$950,000 on an annualized basis.

Primarily all of our transactions are conducted, and our accounts are denominated, in United States dollars. Accordingly, we are not exposed to significant foreign currency risk.

Many of the food products purchased by us are affected by changes in weather, production, availability, seasonality and other factors outside our control. In an effort to control some of this risk, we have entered into some fixed price purchase commitments. In addition, we believe that almost all of our food and supplies are available from several sources, which helps to control food commodity risks.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's reports under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the management of Red Robin Gourmet Burgers, Inc. (Management), including the Company's Chief Executive Officer (CEO) and Chief Financial Officer (CFO), as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, Management recognizes that any controls and procedures, no matter how well designed and operated, can only provide reasonable assurance of achieving the desired control objectives. As a result, the Company's CEO and CFO have concluded that, based upon the evaluation of disclosure controls and procedures (as defined in Rule 13a-15(e) or 15d-15(e) under the Exchange Act), the Company's disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Control Over Financial Reporting

The Company's Management, with the participation of the CEO and CFO, have evaluated whether any change in the Company's internal control over financial reporting occurred during the fiscal quarter ended October 1, 2006. Based on that evaluation, Management concluded that there has been no change in the Company's internal control over financial reporting during the fiscal quarter ended October 1, 2006 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - - OTHER INFORMATION

Item 1. Legal Proceedings

On August 31, 2005, Elliot Wilster commenced a stockholder derivative suit on behalf of the Company in the United States District Court for the District of Colorado (the Wilster Complaint). The action was brought against the Company as a nominal defendant and against the former chief executive officer, then-current board members and the Company's current senior vice president and chief concept officer. The Wilster Complaint alleged that several of the individual defendants improperly profited from their sales of Company stock while they knew proprietary, non-public information regarding the former chief executive officer's alleged abuse of his corporate position. The Wilster Complaint also alleged that the defendants breached their fiduciary duty, abused their control, engaged in gross mismanagement, wasted corporate assets and were unjustly enriched at the expense of and to the detriment of the Company by failing to act on the former chief executive officer's alleged abuse of his corporate position and by waiving a conflict of interest resulting from proposed franchise development involving the former chief executive officer and the senior vice president and chief concept officer. The Wilster Complaint sought monetary damages against the individual defendants, equitable relief, restitution and attorneys' fees. On December 15, 2005, Wilster filed an amended stockholder derivative complaint (the Amended Wilster Complaint) that added the Company's former chief financial officer as a defendant. On August 3, 2006, the Court in the Wilster case granted the Company's motion to dismiss all claims against all defendants for failure to plead demand futility. The Court ruled that the Wilster plaintiff failed to allege particularized facts to show that a majority of the Board lacks independence or is interested in the challenged transactions and activity such that a pre-litigation demand on the Board was futile. The plaintiff has appealed this ruling to the United States Court of Appeals for the Tenth Circuit. All defendants, including the Company, have filed a Motion to Dismiss this appeal as untimely.

The Wilster case had been consolidated for pretrial purposes with the Andropolis case. There have been no other material developments in the Andropolis case.

See Note 8 *Contingencies*, in the Notes to Condensed Consolidated Financial Statements, for additional information regarding certain legal proceedings to which the Company is a party.

Item 1A. Risk Factors

A description of the risk factors associated with our business is contained in Item 1A, "Risk Factors," of our 2005 Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 23, 2006. There have been no material changes in our Risk Factors disclosed in our 2005 Annual Report on Form 10-K.

Item 6. Exhibits

Exhibit Number	Description
31.1	Rule 13a-14(a) Certification of Chief Executive Officer
31.2	Rule 13a-14(a) Certification of Chief Financial Officer
32.1	Section 1350 Certifications of Chief Executive Officer and Chief Financial Officer

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

CERTIFICATION

I, Dennis B. Mullen, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Red Robin Gourmet Burgers, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15(a)-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure control and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation;
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**Written Statement
Pursuant To
18 U.S.C. Section 1350**

In connection with the Quarterly Report of Red Robin Gourmet Burgers, Inc. (the "Company") on Form 10-Q for the period ended October 1, 2006, as filed with the Securities and Exchange Commission August 11, 2006 (the "Report"), the undersigned, Dennis B. Mullen, Chief Executive Officer, and Katherine L. Scherping, Chief Financial Officer, of Red Robin Gourmet Burgers, Inc. (the "Company"), certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that;

- (a) the quarterly report on Form 10-Q for the period ended October 1, 2006 of the Company (the "Periodic Report") fully complies with the requirements of section 13(a) and 15(d) of the Securities Exchange Act of 1934; and
- (b) the information contained in the Periodic Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
