RED ROBIN GOURMET BURGERS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation and Recent Accounting Pronouncements

Red Robin Gourmet Burgers, Inc. (Red Robin or the Company), a Delaware corporation, develops and operates casual-dining restaurants. At July 15, 2007, the Company operated 240 company-owned restaurants located in 26 states. The Company also sells franchises, of which there were 133 restaurants in 24 states and two Canadian provinces as of July 15, 2007. The Company operates its business as one reportable segment.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of Red Robin and its wholly owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation. The Company's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Some of the more significant estimates included in the preparation of these financial statements pertain to recoverability of long-lived assets, fixed asset lives, recoverability of goodwill, estimated useful lives of other intangible assets, bonuses, self-insurance liabilities, stock-based compensation expense, legal contingencies, fair value of assets acquired in a business combination and income taxes. Actual results could differ from those estimates. The results of operations for any interim period are not necessarily indicative of results for the full year.

The accompanying condensed consolidated financial statements of Red Robin have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosures normally included in the Company's annual consolidated financial statements on Form 10-K have been condensed or omitted. The condensed consolidated balance sheet as of December 31, 2006 has been derived from the audited consolidated financial statements as of that date, but does not include all disclosures required by generally accepted accounting principles. For further information, please refer to and read these interim condensed consolidated financial statements in conjunction with the Company's audited consolidated financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2006.

The Company's quarter which ended July 15, 2007, is referred to as second quarter 2007, or the twelve weeks ended July 15, 2007; the first quarter ended April 22, 2007, is referred to as first quarter 2007, or the sixteen weeks ended April 22, 2007; and, together the first and second quarters of 2007 are referred to as the twenty-eight weeks ended July 15, 2007. The Company's quarter which ended July 9, 2006, is referred to as second quarter 2006, or the twelve weeks ended July 9, 2006; the first quarter ended April 16, 2006, is referred to as first quarter 2006, or the sixteen weeks ended April 16, 2006; and, together the first and second quarters of 2006 are referred to as the twenty-eight weeks ended July 9, 2006.

Recent Accounting Pronouncements

In February 2007, the Financial Accounting Standards Board's (FASB) issued Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, (SFAS 159). SFAS 159 allows entities the option to measure eligible financial instruments at fair value as of specified dates. Such election, which may be applied on an instrument by instrument basis, is typically irrevocable once elected. SFAS 159 is effective for fiscal years beginning after November 15, 2007, and early application is allowed under certain circumstances. The Company is evaluating the impact of the adoption of SFAS 159 on its consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*, (SFAS 157). This statement defines fair value, establishes a framework for using fair value to measure assets and liabilities, and expands disclosures about fair value measurements. The statement applies whenever other statements require or permit assets or liabilities to be measured at fair value. SFAS 157 is effective for the Company's fiscal year beginning December 31, 2008. The Company is evaluating the impact of the adoption of SFAS 157 on its consolidated financial statements.

2. Acquisition of Red Robin Franchised Restaurants

California Franchise Acquisition

On June 18, 2007, the Company acquired the assets of 15 of 17 Red Robin® franchised restaurants owned by Top Robin Ventures, Inc. and Morite of California, in the state of California, for a cash price of approximately \$44.3 million, including approximately \$1.5 million of the contingent consideration referenced below. The Company funded the acquisition through borrowings under its credit facility. Also on June 18, 2007, the Company assumed management of the two of the remaining existing restaurants under management services agreements. On July 16, 2007, the Company acquired for additional consideration one of the two remaining restaurants that operated under a management agreement and an eighteenth restaurant, which had been under construction in Fresno, California. The Fresno restaurant opened on July 16, 2007. See Note 10 *Subsequent Events*, below. The purchase agreement includes an earn-out arrangement under which the purchase price to be paid to the sellers may be increased by up to \$3 million if the 18 restaurants achieve certain aggregate 2007 sales targets. As of July 15, 2007, approximately \$1.5 million of this contingent consideration has been earned by the sellers and is included in the total purchase price referenced above for the 15 restaurants.

The acquired territory covered by the selling entities' exclusivity rights generally encompasses the area of Los Angeles County north of Interstate 10, the California counties of San Luis Obispo, Santa Barbara, Ventura, Fresno, Kings, Tulare and Kern, as well as a portion of Riverside County.

The acquisition of the 15 restaurants was accounted for using the purchase method as defined in SFAS No. 141 *Business Combinations*, (SFAS 141). Based on a purchase price of \$44.3 million, net of the \$1.6 million charge relating to Emerging Issues Task Force (EITF) Issue 04-1, *Accounting for Preexisting Relationships between the Parties to a Business Combination* (EITF 04-1), and the Company's estimates of the fair value of net assets acquired, \$11.3 million of goodwill was generated by the acquisitions, which is not amortizable for book purposes but is amortizable and deductible for tax purposes. The preliminary purchase price allocation is subject to revision after a more detailed analysis is completed including final determination of contingent consideration. Any change in the fair value of the net assets will change the amount of purchase price allocable to goodwill. The Company does not expect any adjustments to be significant.

The purchase price for the 15 restaurants has been allocated as follows (in thousands):

Current assets	\$ 1,200
Property and equipment	10,801
Goodwill	11,348
Intangible assets	18,788
Other assets	902
Current liabilities	(381)
Net assets acquired	\$42,658
Reacquired franchise costs	1,612
Total purchase price	\$44,270

Of the \$18.8 million of intangible assets, \$14.3 million was assigned to reacquired franchise rights with a weighted average life of approximately 21 years and \$4.5 million was assigned to leasehold interests with a weighted average life of approximately 17 years.

As a result of the acquisition of the 15 restaurants, the Company incurred a charge of \$1.6 million and recorded an intangible asset relating to reacquired franchise rights of \$14.3 million in accordance with EITF 04-1. EITF 04-1 requires that a business combination between two parties that have a preexisting relationship be evaluated to determine if a settlement of a preexisting relationship exists. EITF 04-1 also requires that certain reacquired rights (including the rights to the acquirer's trade name under a franchise agreement) be recognized as intangible assets apart from goodwill. However, if a contract giving rise to the reacquired rights includes terms that are favorable or unfavorable when compared to pricing for current market transactions for the same or similar items, EITF 04-1 requires that a settlement gain or loss should be measured as the lesser of (i) the amount by which the contract is favorable or unfavorable under market terms from the perspective of the acquirer or (ii) the stated settlement provisions of the contract available to the counterparty to which the contract is

unfavorable. This charge primarily reflects the lower royalty rates applicable to certain of the acquired restaurants compared to a standard royalty rate the Company would receive under the Company's current royalty agreements.

Managed Restaurants

Effective June 18, 2007, the Company also assumed management of the two remaining existing restaurant locations owned by the California franchisees under management services agreements. One of these restaurants was managed under a management service agreement which provided that the Company manage the restaurant's operations in return for a monthly fixed management fee of approximately \$25,000 which is recorded in restaurant revenues. Because the Company is not the primary beneficiary of this restaurant's operations, in accordance with FASB Interpretation No. 46 (Revised December 2003) — *Consolidation of Variable Interest Entities* (FIN 46R), the financial results for this restaurant have not been consolidated in the results of operations of the Company. On July 16, 2007, the Company acquired the assets of this restaurant as described in Note 10 and all operating results will be consolidated from that date forward.

Under the terms of the management services agreement for the second restaurant, the Company has assumed all operating responsibilities of this restaurant in exchange for a management fee equal to all the revenues from this restaurant. In accordance with FIN 46R, management had determined that the Company is the primary beneficiary of the operations of this restaurant and therefore has consolidated its results of operations with the Company's results since June 18, 2007, the date of the management service agreement. The Company intends to acquire this restaurant pending the resolution of certain lease arrangements by the sellers at which point the purchase price will be allocated to assets.

The financial results of the 15 restaurants whose assets were acquired on June 18, 2007 and the consolidated managed restaurant (2007 Acquired Restaurants) have been reflected in the Company's financial results beginning June 18, 2007.

Washington Franchise Acquisition

After July 9, 2006, the Company acquired 13 franchised Red Robin® restaurants in the state of Washington. Two of the restaurants were managed by the Company under a management services agreement until they were purchased on November 21, 2006 and December 25, 2006, respectively.

The acquisition of the 13 restaurants was accounted for using the purchase method as defined in SFAS 141. Based on a purchase price of \$40.8 million, net of the

\$1.7 million charge relating to EITF 04-1, and the Company's estimates of the fair value of net assets acquired, \$17.8 million of goodwill was generated by the acquisitions, which is not amortizable for book purposes.

The purchase price for the 13 restaurants has been allocated as follows (in thousands):

Current assets	\$ 819
Property and equipment	8,288
Goodwill	17,776
Intangible assets	15,929
Other assets	39
Current liabilities	(2,078)
Net assets acquired	\$40,773
Reacquired franchise costs	1,735
Total purchase price	<u>\$42,508</u>

Pro Forma Results (unaudited)

The following unaudited pro forma information presents a summary of the results of operations of the Company assuming the acquisition of the California and Washington franchise restaurants occurred at the beginning of the period presented as required by SFAS 141. Pro forma net income for 2007 excludes the nonrecurring \$1.6 million pre-tax charge related to the reacquired franchise rights of the California franchise acquisition as well as the nonrecurring \$1.7 million pre-tax charge related to a legal settlement, while the pro forma net income for 2006 excludes the nonrecurring \$1.7 million pre-tax charge, related to the reacquired franchise rights of the Washington franchise

acquisition. The pro forma financial information is presented for informational purposes only and is not indicative of the results of operations that would have been achieved if the acquisition had taken place at the beginning of the period presented, nor is it indicative of future operating results.

(In thousands, except per share data)	Twelve Weeks Ended		Twenty-eight Weeks Ended

Diluted EPS	0.39	0.49	0.85	1.04

3. Stock-Based Compensation

At the Company's annual meeting of stockholders, which occurred during the second quarter 2007, the stockholders approved the 2007 Performance Incentive Plan (2007 Stock Plan) which authorizes the issuance of stock options, stock appreciation rights, restricted stock, stock bonuses and other forms of awards granted or denominated in the Company's common stock or units of the Company's common stock, as well as cash bonus awards pursuant to the plan. Persons eligible to receive awards under the 2007 Stock Plan include officers and employees of the Company and any of the Company's subsidiaries, directors of the Company, and certain consultants and advisors to the Company or any of its subsidiaries. The maximum number of shares of the Company's common stock that may be issued or transferred pursuant to awards under the 2007 Stock Plan is equal to 1,000,000 shares. Vesting of the awards under the 2007 Stock Plan is determined at the date of grant by the plan administrator. Each award granted under the 2007 Stock Plan fully vests, becomes exercisable and/or payable, as applicable, upon a change in control event. However, unless the individual award agreement provides otherwise, with respect to executive and certain other high level officers of the Company, upon occurrence of a change in control, no award will vest unless such officers' employment with the Company is terminated by the Company without cause during the two-year period following such change in control event. Each award expires on such date as shall be determined at the date of grant, however, the maximum term of options, SARs and other rights to acquire common stock under the plan is ten years after the initial date of the award, subject to provisions for further deferred payment in certain circumstances. The 2007 Stock Plan terminates on April 3, 2017, unless terminated earlier by the Company's board of directors.

The Company has four other stock based compensation plans with outstanding award grants: the 1996 Stock Option Plan (the 1996 Stock Plan), the 2000 Management Performance Common Stock Option Plan (the 2000 Stock Plan), the 2002 Incentive Stock Option Plan (2002 Stock Plan) and the 2004 Performance Incentive Plan (the 2004 Stock Plan). No further grants can be made under these plans.

During the twelve weeks ended July 15, 2007, the Company issued approximately 79,000 options to purchase shares of its common stock to eligible employees with a weighted average grant date fair value of \$10.54 per share and a weighted average exercise price of \$41.36 per share. For the twenty-eight weeks ended July 15, 2007, the Company issued approximately 582,000 options with a weighted average grant date fair value of \$11.22 per share and a weighted average exercise price of \$39.17 per share. During the first quarter of 2007, the Company also granted to its chief executive officer a total of 97,000 shares of non-vested common stock with a weighted average grant date fair value of \$41.54 which vest in installments on the anniversaries of the grants. Compensation expense is recognized over the remaining weighted average vesting period which is approximately 1.4 years (approximately 2.0 years for the non-vested common stock granted to the chief executive officer).

Stock-based compensation, including options and non-vested shares, is recognized as follows (in thousands):

	Twelve Weeks Ended		Twenty-eight Weeks Ended	
	July 15, 2007	July 9, 2006	July 15, 2007	July 9, 2006
Restaurant labor	\$ 263	\$ 201	\$ 548	\$ 478
General and administrative	1,537	1,168	3,021	2,808
Total stock-based compensation expense	<u>\$ 1,800</u>	<u>1,369</u>	<u>3,569</u>	<u>3,286</u>

For the twelve and twenty-eight weeks ended July 15, 2007, \$130,000 and \$324,000 of stock-based compensation was recognized as capitalized development and is

included in property and equipment in the condensed consolidated balance sheet, respectively. During the quarter ended July 15, 2007, approximately 19,000 options to purchase common shares were exercised and approximately 40,000 options were forfeited. During the twenty-eight weeks ended July 15, 2007, approximately 52,000 options to purchase common shares were exercised and approximately 95,000 options were forfeited.

4. Borrowings

Borrowings at July 15, 2007 and December 31, 2006 are summarized below (in thousands):

	July 15, 2007	December 31, 2006
Term loan	\$ 150,000	\$ —
Revolving credit agreement	—	99,000
Capital lease obligations	9,634	9,895
Collateralized notes payable	4,425	5,076
	<u>164,059</u>	<u>113,971</u>
Current portion	(12,836)	(1,630)
Long-term debt	<u>\$ 151,223</u>	<u>\$ 112,341</u>

On June 15, 2007, the Company amended and restated its existing credit facility to provide a more flexible capital structure and facilitate its growth plans. The amended credit agreement provides for more favorable borrowing rates, allows the Company the ability to repurchase shares of its capital stock within certain limits and to continue to finance restaurant construction, fund franchise restaurant acquisitions, and to be used for working capital and general corporate requirements. The amended credit facility is comprised of (i) a \$150 million revolving credit facility maturing on June 15, 2012 and (ii) a \$150 million term loan maturing on June 15, 2012, both with rates initially based on the London Interbank Offered Rate (LIBOR) plus 0.75%. The amended credit agreement also allows, subject to lender participation, the Company to increase the revolving credit facility by up to an additional \$100 million in the future. As part of the credit agreement, the Company may also request the issuance of up to \$15 million in letters of credit, the outstanding amount of which reduces the net borrowing capacity under the agreement. The amended credit facility requires the payment of an annual commitment fee based upon the unused portion of the credit facility. The credit facility's interest rates and the annual commitment rate are based on a financial leverage ratio, as defined in the credit agreement. The Company's obligations under the amended credit facility are secured by first priority liens and security interests in the capital stock of subsidiaries of the Company. Additionally, the credit agreement includes a negative pledge on all tangible and intangible assets (including all real and personal property) with customary exceptions.

The Company borrowed \$150.0 million under the term loan facility and used the proceeds to repay all borrowings under the prior credit facility, to pay related transaction fees and expenses and to fund the acquisition of the California franchisee restaurants as described in Note 2. At July 15, 2007, the Company had no borrowings under the revolving credit facility and had letters of credit outstanding of \$4.5 million. Loan origination costs associated with the amended credit facility and the net outstanding balance of costs related to the original credit facility are \$1.7 million and are included as deferred costs in other assets, net in the accompanying consolidated balance sheet as of July 15, 2007.

The Company is subject to a number of customary covenants under the various borrowing agreements, including limitations on additional borrowings, acquisitions, capital expenditures, lease commitments and dividend payments, and

requirements to maintain certain financial ratios. As of July 15, 2007, the Company was in compliance with all debt covenants.

5. Income Taxes

On January 1, 2007, the Company adopted the provisions of FASB Interpretation (FIN) No. 48, *Accounting for Uncertainty in Income Taxes — an Interpretation of FASB Statement No. 109*, (FIN 48). As a result of the implementation of FIN 48, the Company recognized an increase of approximately \$74,000 in the liability for unrecognized tax benefits, which was accounted for as a reduction to the January 1, 2007 balance of retained earnings. As of July 15, 2007, the Company had approximately \$384,000 of unrecognized tax benefits, all of which if recognized, would favorably affect the Company's effective tax rate.

The Company's policy for recording interest and penalties associated with tax audits is to record such items as a component of income before taxes. Penalties are recorded in other (gains) losses, net, and interest paid or received is recorded in interest expense or interest income, respectively, in the statement of income.

The Company is open to federal and state tax audits until the applicable statute of limitations expire. The Company is no longer subject to U.S. federal tax examinations by tax authorities for tax years before 2003. For the majority of states where the Company has a significant presence, it is no longer subject to tax examination by tax authorities for tax years before 2003.

6. Earnings Per Share

Basic earnings per share amounts are calculated by dividing net income by the weighted-average number of common shares outstanding during the period. Diluted earnings per share amounts are calculated based upon the weighted-average number of common and potentially dilutive common shares outstanding during the period. Potentially dilutive shares are excluded from the computation in periods in which they have an anti-dilutive effect. Diluted earnings per share reflect the potential dilution that could occur if holders of options exercised their options into common stock. During the twelve and twenty-eight weeks ended July 15, 2007, respectively, approximately 1.4 million and 1.3 million stock options outstanding were not included in the computation of diluted earnings per share because to do so would have been anti-dilutive for the period presented. During the twelve and twenty-eight weeks ended July 9, 2006, respectively, a total of 847,000 and 741,000 stock options outstanding were not included in the computation of diluted earnings per share because to do so would have been anti-dilutive for the period presented. The Company uses the treasury stock method to calculate the impact of outstanding stock options. The computations for basic and diluted earnings per share are as follows (in thousands, except per share data):

	Twelve Weeks Ended		Twenty-eight Weeks Ended	
	July 15, 2007	July 9, 2006	July 15, 2007	July 9, 2006
Net income	\$ 4,925	\$ 7,194	\$ 12,388	\$ 14,549
Basic weighted-average shares outstanding	16,640	16,522	16,622	16,509
Dilutive effect of stock options	174	205	170	210
Diluted weighted-average shares outstanding	<u>16,814</u>	<u>16,727</u>	<u>16,792</u>	<u>16,719</u>

Earnings per share:

Basic	\$ 0.30	\$ 0.44	\$ 0.75	\$ 0.88
Diluted	\$ 0.29	\$ 0.43	\$ 0.74	\$ 0.87

7. Advertising Costs

Costs incurred in connection with the advertising and promotion of the Company are included in other operating expenses and are expensed as incurred. Such costs amounted to \$3.8 million and \$7.9 million for the twelve and twenty-eight weeks ended July 15, 2007, respectively and \$2.2 million and \$5.0 million for the twelve and twenty-eight weeks ended July 9, 2006, respectively.

11

Under the Company's franchise agreements, both the Company and the franchise partners must contribute a minimum percentage of revenues to two marketing and national media advertising funds (the Marketing Funds). These Marketing Funds are used to develop and distribute Red Robin® branded marketing materials, for media purchases and for administrative costs. The Company's portion of costs incurred by the Marketing Funds are recorded as operating expense on the Company's financial statements. Restricted assets represent contributed funds held for future use.

8. Related Party Transactions

The Company's former chief concept officer owns 7.0% of Mach Robin, LLC (Mach Robin), and an entity that directly or indirectly owns or controls 100% of Red Robin Restaurants of Canada, Ltd. (RRRC). Mach Robin and RRRC operate Red Robin® restaurants under franchise agreements in the U.S. and Canada, respectively. The Company recognized royalty income from Mach Robin in the amount of \$225,000 and \$593,000 during the twelve and twenty-eight weeks ended July 9, 2006. The Company recognized royalty income from RRRC of \$273,000 and \$606,000 during the twelve and twenty-eight weeks ended July 9, 2006.

For further related party transaction information, refer to the consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2006.

9. Contingencies

On February 1, 2006, the Company received a notice from the SEC that the SEC had issued a formal order of investigation related to a 2005 internal Company investigation regarding the Company's former chairman, president and chief executive officer. On June 4, 2007, the staff of the Denver Regional Office of the SEC notified the Company that the investigation has been terminated as to Red Robin and no enforcement action has been recommended to the Commission.

On August 15, 2005, Andre Andropolis filed a purported class action complaint against the Company, the former chief executive officer and former chief financial officer (the Andropolis Complaint) in the United States District Court for the District of Colorado on behalf of himself and all other purchasers of the Company's common stock during the putative class period of November 8, 2004 through August 11, 2005. On September 30, 2005, Mark Baird filed a similar purported class action complaint (the Baird Complaint). These actions are more fully described in our Annual Report on Form 10-K filed February 28, 2007. After mediation, the parties to the Andropolis matter reached an agreement to settle, which was preliminarily approved by the Court on May 31, 2007. The settlement involves a payment of \$1.5 million, covered by insurance, to the putative class and its counsel. The hearing for final approval is scheduled for September 28, 2007.

On August 31, 2005, Elliot Wilster commenced a stockholder derivative suit on behalf of the Company in the United States District Court for the District of Colorado (the Wilster Complaint). The action was brought against the Company as a nominal defendant and against the former chief executive officer, then-current board members and the Company's former senior vice president and chief concept officer. This action is more fully described in our Annual Report on Form 10-K filed February 28, 2007. On August 3, 2006, the Court in the Wilster case granted the Company's motion to dismiss all claims against all defendants for failure to plead demand futility. The plaintiff appealed this ruling to the United States Court of Appeals for the Tenth Circuit. The parties have reached an agreement to settle and executed a memorandum of understanding. The proposed settlement involves payment of \$250,000 to plaintiff's counsel, also covered by insurance and the adoption by the Company of certain corporate governance measures. The proposed settlement is subject to court approval.

In January 2006, the Company was served with a purported class action lawsuit, Huggett v. Red Robin International, Inc. This lawsuit was filed in the Superior Court of the State of California. The Huggett lawsuit alleges failure to comply with California wage and hour regulations, including those governing meal and rest periods, payment of wages upon termination and provision of itemized statements to employees, as well as unlawful business practices and unfair competition. The Huggett complaint states claims for damages, including punitive and exemplary damages and injunctive relief. The Company filed an answer to the Huggett complaint and removed the case to the United States District Court for the Central District of California. On March 13, 2006, Huggett filed a motion to remand the case to the California state court. On June 9, 2006, the Court denied the motion to remand. On April 16, 2007, the parties attempted an unsuccessful effort to mediate

12

the claim. On May 29, 2007, Huggett filed a motion to certify the putative class and the Company filed its reply on July 27, 2007. A hearing on the motion is scheduled on September 10, 2007. However, the putative class in the Huggett matter is the same as the putative class in the Harper case described below, which is pending before the same judge as the Huggett matter. As described below, the parties have reached a tentative settlement in the Harper matter, which is subject to court approval. The Company expects that approval by the Court of the settlement in the Harper matter will resolve the Huggett class claims as well.

In December 2006, the Company was served with two additional purported class action lawsuits alleging violations of California's wage and hour laws. William Harper v. Red Robin International, Inc. was filed in the Superior Court of California alleging failure by the Company to provide meal and rest breaks in compliance with California wage and hour regulations. Marie Hill vs. Red Robin International, Inc. was filed the same day as the Harper case. In the Hill case, a former employee alleges failure to pay overtime, misclassification of managers, and failure to pay for or provide meal and rest breaks. The Company filed answers in both cases and removed them to the United States District Court for the Central District of California. The Company then filed notices of related cases with the Court in the Huggett case stating that the two new cases should be heard by the same judge as the Huggett matter.

On August 7, 2007, the parties to the Harper and Hill cases entered into memoranda of understanding to settle all pending claims, including an extended class period to include putative class members in the Huggett matter. The Company has admitted no liability in connection with the settlement. In connection with the settlement, the Company has recorded a charge of \$1.7 million for the estimated payments, costs and administrative expenses of the settlement liability. This amount is an estimate subject

to adjustment based on actual claims filed. The settlements are subject to court approval.

In the normal course of business, there are various other claims in process, matters in litigation and other contingencies. These include claims resulting from "slip and fall" accidents, employment related claims and claims from guests or team members alleging illness, injury or other food quality, health or operational concerns. To date, no claims of these types of litigation, certain of which are covered by insurance policies, have had a material effect on the Company. While it is not possible to predict the outcome of these other suits, legal proceedings and claims with certainty, management is of the opinion that adequate provision for potential losses associated with these other matters has been made in the financial statements and that the ultimate resolution of these other matters will not have a material adverse effect on the Company's financial position and results of operations.

10. Subsequent Events

On July 16, 2007, the Company acquired the assets of one of the remaining two existing franchised restaurants owned by Top Robin Ventures, Inc. and acquired and opened a new restaurant that had been under construction in Fresno, California. These restaurants were part of the acquisition of certain franchised Red Robin restaurants in the State of California, discussed in Note 2 above. The existing restaurant had been operated by the Company since the original closing on June 18, 2007 under a management services agreement. The Company paid consideration for the existing restaurant of \$3.3 million. The consideration paid for the new restaurant was approximately \$1.3 million, which was comprised of reimbursement for construction and related costs, including costs of opening the restaurant. The purchase price was paid in cash. The last additional restaurant continues to be operated by the Company under a management services agreement.

On August 8, 2007, the Company's Board of Directors authorized a plan for the Company to repurchase up to \$50 million worth of its common stock. This repurchase plan does not obligate the Company to acquire any specific number of shares or acquire shares over any specified period of time. No shares have been repurchased under the plan.

13

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis of Financial Condition and Results of Operations provides a narrative of our financial performance and condition that should be read in conjunction with the accompanying condensed consolidated financial statements.

Overview

All comparisons under this heading between 2007 and 2006 refer to the twelve and twenty-eight week periods ending July 15, 2007 and July 9, 2006, respectively, unless otherwise indicated.

As of July 15, 2007, there were 373 Red Robin® casual dining restaurants in 39 states and Canada. Of these restaurants, 240 were company-owned, two were managed by the Company under management agreements with the franchisee and the remaining 133 were operated under franchise agreements.

Our primary source of revenue is from the sale of food and beverages at company-owned restaurants. We also earn revenue from royalties and fees from franchised restaurants as well as revenue from rent.

Our challenges include increased competition among casual dining restaurant chains for the guest's discretionary dining dollars, increasing wage and salary costs, increasing food and commodity prices, increased energy and petroleum-based product prices, and costs to increase the Company's brand awareness in new markets. In light of these complexities and challenges, management has pursued a disciplined growth strategy that focuses on adding company-owned restaurants and increasing sales at existing restaurants. In addition, management is focused on managing restaurant operating costs and building our corporate infrastructure to facilitate our long-term growth expectations.

The following summarizes the operational and financial highlights during the first twenty-eight weeks of fiscal 2007:

- *Franchise Acquisitions.* We acquired 15 franchised Red Robin® restaurants in the state of California for \$44.3 million. The cash purchase price was funded through borrowings under the Company's recently amended credit facility. Effective June 18, 2007, we also assumed management of two additional existing restaurant locations, (Managed Restaurants), owned by the California franchisees under management services agreements. The 15 acquired restaurants and one of the Managed Restaurants collectively are referred to as the 2007 Acquired Restaurants and have been included in our results of operations beginning June 18, 2007. The remaining managed restaurant and one restaurant under construction by the California franchisee are not consolidated in our results of operations as of and for the periods ended July 15, 2007. Management fee income has been recorded for the unconsolidated managed restaurant. We incurred a charge of \$1.6 million related to the reacquisition of the existing franchise and development agreements of the 2007 Acquired Restaurants. This charge is reported as "Reacquired franchise costs" in the Consolidated Statements of Income.

The 13 franchised Red Robin® restaurants in the state of Washington acquired after July 9, 2006 are collectively referred to as the 2006 Acquired Restaurants, and the combination of the 2007 Acquired Restaurants and the 2006 Acquired Restaurants are referred to as the Acquired Restaurants.

- *Launch of National Media Advertising Campaign.* In April and May 2007, we launched our first national media advertising campaign on cable television and the internet. We believe a national media campaign will increase revenue in both new and existing markets, expand our presence as a national restaurant company and provide support for our efforts to enter new markets where our brand has less recognition. We believe our sales were positively impacted by this media campaign in the second quarter of 2007; however, because we have not utilized national marketing efforts in the past, we are unable to predict whether the campaign will be successful in the long run. The costs of our national advertising campaign increased restaurant operating costs by approximately \$874,000 and \$1.8 million for the twelve and twenty-eight weeks ended July 15, 2007 as we increased our contribution to a national marketing fund into which our franchise partners also contribute. The increased national advertising campaign expenditures will continue throughout the remainder of 2007.

14

- *New Restaurant Training Initiatives.* Our focus on the performance of new restaurants has led to the development of a number of programs designed to normalize new restaurant performance faster. As part of our first quarter 2007 restaurant openings, we initiated new training programs which are focused on accelerating and measuring the proficiencies of each hourly team member. We have also added additional modules to our manager training programs to better prepare new managers for the challenging environment a new restaurant creates. In support of this initiative, we have raised our average pre-opening costs per restaurant. In addition, we have observed higher labor and travel costs soon after the openings. We believe adding more trainers for each opening will result in near term pressure on our profit margins in exchange for higher retention of opening sales volumes and faster normalization of profits.
- *New Restaurant Openings.* During the second quarter of 2007, we opened nine company-owned restaurants, six of which were opened in new markets. For the twenty-eight weeks ended July 15, 2007, approximately 61% of total non-comparable restaurant operating weeks were in new markets compared to 56% in the first twenty-eight weeks of 2006. New markets present operational challenges as we expand into markets where we have less brand recognition, a lower concentration of trained team members and generally higher operating costs. In the second quarter 2007, our non-comparable restaurant average weekly sales volumes increased 2.8% from the second quarter 2006 and 5.6% from the first quarter 2007. We believe this improved performance can be attributed primarily to the national media advertising campaign and new restaurant training initiatives discussed above.
- *Comparable Restaurant Sales.* For the twelve and twenty-eight weeks ended July 15, 2007, the 162 restaurants in our current comparable base experienced a 3.1% and 1.1% respective increase in sales for these same restaurants last year. Increases in the average guest check contributed 2.4% and 2.8% of the increases for the twelve and twenty-eight weeks ended July 15, 2007. For the twelve weeks ended July 15, 2007, guest counts increased 0.7% over the prior year, and for the twenty-eight weeks ended July 15, 2007, guest counts decreased 1.7%. The comparable restaurant average weekly sales volumes are impacted by both the year over year sales growth of the restaurants in the comparable base and the growing number of less mature restaurants comprising our comparable restaurant base. Historically, our less mature restaurants operate at a lower average weekly sales volume during the early years of operation. As these restaurants enter the comparable restaurant base, the average weekly sales volumes could be negatively impacted until these restaurants reach normalized volumes, historically in the third year of operation.
- *Managing Restaurant Operating Costs.* For the twelve and twenty-eight weeks ended July 15, 2007, total restaurant operating costs represented 80% of restaurant revenues as compared to 78% and 79% for the twelve and twenty-eight weeks ended July 9, 2006. Restaurant operating costs represent food and beverage expenses, labor and benefit expenses, occupancy expenses and other operating costs such as supplies, repairs and maintenance and utility expenses. Our operating costs are impacted by the initiatives discussed above to improve performance and maintain sales growth in our new and existing restaurants. In addition, we continue to see increasing inflationary pressures on operating costs including minimum wage increases, commodity food price increases and energy price increases. We expect that these upward price pressures will continue for the remainder of 2007 and 2008. In response to these costs pressures, we will implement an approximate 2.9% price increase in September 2007 which we believe will maintain our restaurant profitability.

Restaurant Data and Comparable Restaurant Sales

The following table details restaurant unit data for our company-owned and franchise locations for the periods indicated.

	Twelve Weeks Ended		Twenty-eight Weeks Ended	
	July 15, 2007	July 9, 2006	July 15, 2007	July 9, 2006
Company-owned:				
Beginning of period	216	172	208	163
Opened during period	9	8	18	17
Acquired during period	15	—	15	—
Closed during period	—	—	(1)	—
End of period	240	180	240	180
Franchised:				
Beginning of period	147	139	139	136
Opened during period	2	3	11	6
Sold or closed during period	(16)	—	(17)	—
End of period	133	142	133	142
Total number of Red Robin® restaurants	373	322	373	322

* Does not include the two Managed Restaurants.

Since July 15, 2007 and through August 14, 2007, we have opened five additional company-owned restaurants. We expect to open 25 to 26 company-owned restaurants during fiscal 2007. We anticipate that our franchisees will open between 14 and 15 restaurants during fiscal 2007.

Results of Operations

Operating results for each period presented below are expressed as a percentage of total revenues, except for the components of restaurant operating costs, which are expressed as a percentage of restaurant revenues.

This information has been prepared on a basis consistent with the audited 2006 annual financial statements and, in the opinion of management, includes all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the information for the periods presented. Our operating results may fluctuate significantly as a result of a variety of factors, and operating results for any period presented are not necessarily indicative of results for a full fiscal year.

	Twelve Weeks Ended		Twenty-eight Weeks Ended	
	July 15, 2007	July 9, 2006	July 15, 2007	July 9, 2006
Revenues:				
Restaurant	97.9%	97.2%	97.7%	97.2%

Other	—	—	—	—
Income before income taxes	3.9	7.9	4.6	7.1
Provision for income taxes	1.1	2.7	1.4	2.4
Net income	2.8%	5.3%	3.2%	4.7%

Certain percentage amounts in the table above do not sum due to rounding as well as the fact that restaurant operating costs are expressed as a percentage of restaurant revenues, as opposed to total revenues.

Total Revenues

(In thousands, except percentages)	Twelve Weeks Ended		Percent Change	Twenty-eight Weeks Ended		Percent Change
	July 15, 2007	July 9, 2006		July 15, 2007	July 9, 2006	
Restaurant revenue	\$ 174,865	\$ 132,071	32.4%	\$ 381,922	\$ 297,722	28.3%
Franchise royalties and fees	3,709	3,751	(1.1)%	8,927	8,547	4.4%
Rent revenue	38	38	—	88	124	(29.0)%
Total revenues	\$ 178,612	\$ 135,860	31.5%	\$ 390,937	\$ 306,393	27.6%
Average weekly sales volumes:						
Comparable restaurants	\$ 65,553	\$ 65,404	0.2%	\$ 64,232	\$ 65,371	(1.7)%
Non-comparable restaurants	59,979	58,330	2.8%	56,483	57,544	(1.8)%
2006 Acquired Restaurants	85,599	—	—	83,836	—	—
2007 Acquired Restaurants	66,506	—	—	66,506	—	—

For the twelve weeks ended July 15, 2007 restaurant revenues, which are comprised almost entirely of food and beverage sales, increased by \$42.8 million, or 32.4% from the second quarter 2006. Of this increase, \$19.6 million was attributable to comparable restaurant revenue, \$13.2 million was attributable to restaurant revenues from the 2006 Acquired Restaurants, \$4.6 million was attributable to nine new company-owned restaurants opened during the second quarter 2007, \$4.2 million was attributable to the 2007 Acquired Restaurants, and \$1.2 million to additional revenues from 41 non-comparable restaurants opened during 2006 and 2007.

For the twenty-eight weeks ended July 15, 2007, restaurant revenues increased by \$84.2 million, or 28.3%, compared to the same period in fiscal 2006. Of this increase, \$35.9 million was attributable to comparable restaurant revenue, \$30.3

million was attributable to restaurant revenues from the 2006 Acquired Restaurants, \$18.0 million was attributable to 18 new company-owned restaurants opened during 2007, \$4.2 million was attributable to the 2007 Acquired Restaurants, and a \$4.2 million decrease in revenue from 43 non-comparable restaurants opened during 2006 and 2005.

Average weekly sales volumes represent the total restaurant revenue for a population of restaurants in both a comparable and non-comparable category for each time period presented divided by the number of operating weeks in the period. Comparable restaurant average weekly sales volumes include those restaurants that are in the comparable base at the end of each period presented. At the end of the second quarter 2007, there were 162 comparable restaurants compared to 137 comparable restaurants at the end of the second quarter 2006. Non-comparable restaurants presented include those restaurants that had not yet achieved the five full quarters of operations during the periods presented. At the end of the second quarter 2007, there were 50 non-comparable restaurants versus 43 at the end of the second quarter 2006. Fluctuations in average weekly sales volumes for comparable restaurants reflect the effect of same store sales changes as well as the performance of new restaurants entering the comparable base during the period. The 0.2% increase in average comparable weekly sales in the second quarter 2007 was primarily the result of higher guest counts and average guest checks, offset by the 26 less mature restaurants entering the comparable restaurant base since the end of the second quarter of 2006. The 1.7% decrease in average comparable weekly sales volumes for the twenty-eight weeks ended July 15, 2007 was primarily the result of decreased guest counts and less mature restaurants entering the comparable base offset by a higher average guest check.

Franchise royalties and fees, which consist primarily of royalty income and initial franchise fees, decreased 1.1% for the twelve weeks ended July 15, 2007 over the same period last year while it increased 4.4% for the twenty-eight weeks ended July 15, 2007 over the same period last year. The quarter over quarter decrease is attributable to the \$435,000 reduction in franchise royalties from the 2006 Acquired Restaurants. The year over year increase in franchise royalties and fees is due primarily to the 21 restaurants opened by our franchisees since the second quarter 2006, offset by the \$1.0 million reduction in franchise royalties from the 2006 Acquired Restaurants. Our franchisees reported that comparable sales increased 0.2% for U.S. restaurants and 5.0% for Canadian restaurants in the second quarter of 2007. For the twenty-eight weeks ended July

15, 2007 and July 9, 2006, our franchisees reported comparable sales U.S. restaurants decreased 1.0% and Canadian restaurants increased 4.1%

Cost and Expenses

Cost of Sales

(In thousands, except percentages)	Twelve Weeks Ended			Twenty-eight Weeks Ended		
	July 15, 2007	July 9, 2006	Percent Change	July 15, 2007	July 9, 2006	Percent Change
Cost of sales	\$ 40,699	\$ 29,781	36.7%	\$ 87,734	\$ 67,876	29.3%
As a percent of restaurant revenue	23.3%	22.5%	0.8%	23.0%	22.8%	0.2%

Cost of sales, comprised of food and beverage expenses, are variable and generally fluctuate with sales volume. For the twelve and twenty-eight weeks ended July 15, 2007, cost of sales increased as a percentage of restaurant revenues due primarily to higher commodity costs, including proteins and dairy products offset by lower poultry costs and leverage from price increases implemented since April 2006.

Labor

(In thousands, except percentages)	Twelve Weeks Ended			Twenty-eight Weeks Ended		
	July 15, 2007	July 9, 2006	Percent Change	July 15, 2007	July 9, 2006	Percent Change
Labor	\$ 60,181	\$ 45,649	31.8%	\$ 131,183	\$ 103,189	27.1%
As a percent of restaurant revenue	34.4%	34.6%	(0.2)%	34.3%	34.7%	(0.4)%

Labor costs include restaurant hourly wages, fixed management salaries, stock-based compensation, bonuses, taxes and benefits for restaurant team members. For the twelve and twenty-eight weeks ended July 15, 2007, labor decreased as a percentage of restaurant revenue due to lower costs related to our self-insured health and workers' compensation benefits and reduced bonus expense. Offsetting these reductions were increases for restaurant wages and compensation due to minimum wage increases and higher labor costs for restaurants opened during the twelve and twenty-eight weeks ending July 15, 2007.

18

Operating

(In thousands, except percentages)	Twelve Weeks Ended			Twenty-eight Weeks Ended		
	July 15, 2007	July 9, 2006	Percent Change	July 15, 2007	July 9, 2006	Percent Change
Operating	\$ 28,699	\$ 20,177	42.2%	\$ 62,755	\$ 45,510	37.9%
As a percent of restaurant revenue	16.4%	15.3%	1.1%	16.4%	15.3%	1.1%

Operating costs include variable costs such as restaurant supplies, advertising and energy costs, and fixed costs such as service repairs and maintenance costs. For the twelve and twenty-eight weeks ended July 15, 2007, operating costs increased as a percentage of restaurant revenue due primarily to increased advertising expense as contributions to the national advertising fund began in April 2007. Also contributing to higher costs were higher utility, travel, maintenance and supplies expenses.

Occupancy

(In thousands, except percentages)	Twelve Weeks Ended			Twenty-eight Weeks Ended		
	July 15, 2007	July 9, 2006	Percent Change	July 15, 2007	July 9, 2006	Percent Change
Occupancy	\$ 10,343	\$ 7,858	31.6%	\$ 23,596	\$ 17,931	31.6%
As a percent of restaurant revenue	5.9%	5.9%	—%	6.2%	6.0%	0.2%

Occupancy costs include fixed rents, percentage rents, common area maintenance charges, real estate and personal property taxes, general liability insurance and other property costs. As a percentage of restaurant revenue, occupancy costs remained flat for the twelve weeks ended July 15, 2007 compared to prior year as higher occupancy expenses related to acquired restaurants were offset by leverage from fixed charges. For the twenty-eight weeks ended July 15, 2007, occupancy costs as a percentage of restaurant revenue, increased over the prior year period due to higher occupancy expenses related to the Acquired Restaurants and lower average restaurant sales volumes.

Depreciation and Amortization

(In thousands, except percentages)	Twelve Weeks Ended			Twenty-eight Weeks Ended		
	July 15, 2007	July 9, 2006	Percent Change	July 15, 2007	July 9, 2006	Percent Change
Depreciation and amortization	\$ 9,870	\$ 7,381	33.7%	\$ 22,159	\$ 16,503	34.3%
As a percent of total revenues	5.5%	5.4%	0.1%	5.7%	5.4%	0.3%

Depreciation and amortization includes depreciation on capital expenditures for restaurants and corporate assets as well as amortization of acquired intangible assets and liquor licenses. For the twelve and twenty-eight weeks ended July 15, 2007, depreciation and amortization expense as a percentage of total revenues increased due to increased depreciation and amortization for tangible and intangible assets related to the Acquired Restaurants.

General and Administrative

(In thousands, except percentages)	Twelve Weeks Ended			Twenty-eight Weeks Ended		
	July 15, 2007	July 9, 2006	Percent Change	July 15, 2007	July 9, 2006	Percent Change
General and administrative	\$ 14,043	\$ 11,382	23.4%	\$ 32,976	\$ 27,229	21.1%
As a percent of total revenues	7.9%	8.4%	(0.5)%	8.4%	8.9%	(0.5)%

General and administrative costs include all corporate and administrative functions that support existing restaurant operations, franchises, and provide infrastructure to facilitate our future growth. Components of this category include corporate management, supervisory and staff salaries, bonuses, stock-based compensation and related employee benefits, travel, information systems, training, office rent, franchise administrative support, legal, professional and consulting fees and marketing costs. For the twelve and twenty-eight weeks ended July 15, 2007, general and administrative costs decreased as a percentage of total revenues due to leverage from higher revenues, reductions in local store marketing and reductions in administrative bonuses. These reductions were partially offset by increased costs for professional services and consulting fees and for costs associated with the integration of the 2007 Acquired Restaurants.

Pre-opening Costs

(In thousands, except percentages)	Twelve Weeks Ended			Twenty-eight Weeks Ended		
	July 15, 2007	July 9, 2006	Percent Change	July 15, 2007	July 9, 2006	Percent Change
Pre-opening costs	\$ 2,600	\$ 1,912	36.0%	\$ 5,079	\$ 4,155	22.2%
As a percent of total revenues	1.5%	1.4%	0.1%	1.3%	1.4%	(0.1)%
Average per restaurant pre-opening costs	\$ 287	\$ 239	20.1%	\$ 281	\$ 235	19.6%

Pre-opening costs, which are expensed as incurred, consist of the costs of labor, hiring and training the initial hourly work force for our new restaurants, travel expenses for our training teams, the cost of food and beverages used in training, marketing costs, lease costs incurred prior to opening and other direct costs related to the opening of new restaurants. Pre-opening costs for the twelve weeks ended July 15, 2007 and July 9, 2006 reflect the opening of nine and eight new restaurants in each period presented, respectively. In addition, these amounts include approximately \$623,000 and \$79,000, respectively, for restaurants that will be opened or have been opened in the third quarter 2007 and 2006. Average per restaurant pre-opening costs represent total costs incurred for those restaurants that opened for business during the periods presented. The increase in the average per restaurant pre-opening costs reflects higher training expenses for our new training programs. This increased training is designed to focus on accelerating the development of proficiencies of each hourly team member to improve productivity and normalize operations of our new restaurants sooner than what we had experienced in the performance of restaurants opened prior to 2007.

Legal Settlement

For the twelve and twenty-eight weeks ended July 15, we recorded a \$1.7 million charge related to the agreement to settle several legal proceedings against us in the state of California. See Note 9 *Contingencies*, in the Notes to Condensed Consolidated Financial Statements for additional information regarding these proceedings and the related charge.

Reacquired Franchise Costs

As a result of the acquisition of the 2007 Acquired Restaurants, we incurred a charge of \$1.6 million, for the twelve and twenty-eight weeks ended July 15, 2007, relating to reacquired franchise rights of \$14.3 million in accordance with Emerging Issues Task Force (EITF) Issue 04-1, *Accounting for Preexisting Relationships between the Parties to a Business Combination* (EITF 04-1). EITF 04-1 requires that a business combination between two parties that have a preexisting relationship be evaluated to determine if a settlement of a preexisting relationship exists. The \$1.6 million charge reflects the lower royalty rates applicable to certain of the acquired restaurants compared to a standard royalty rate the Company would receive under the Company's current royalty agreements. See Note 2 *Acquisition of Red Robin Franchised Restaurants*, in the Notes to Condensed Consolidated Financial Statements for additional information regarding the acquisition and related charge.

Interest Expense, net

Interest expense was \$1.9 million and \$937,000 for the twelve weeks ended July 15, 2007 and July 9, 2006, respectively and \$4.2 million and \$2.0 million for the twenty-eight weeks ended July 15, 2007 and July 9, 2006, respectively. Interest expense in 2007 was higher due to higher borrowings outstanding under our revolving credit facility slightly offset by a lower average interest rate of 6.3% versus 6.9% in 2006.

Provision for Income Taxes

The effective income tax rate for the second quarter 2007 was 29.4% compared to 33.4% for the second quarter 2006. The effective tax rate for the twenty-eight weeks ended July 15, 2007 and July 9, 2006 was 31.0% and 33.8%, respectively. This decrease is due the favorable effects of tax credits.

Liquidity and Capital Resources

General. Cash and cash equivalents increased approximately \$13.8 million to \$16.6 million during the twenty-eight weeks ended July 15, 2007, compared to \$2.8 million at the end of fiscal 2006. This increase was due primarily to retained net proceeds from our \$150 million term loan, net of amounts to acquire the 15 California franchise restaurants, the July 16, 2007 acquisition of one of the two existing franchised restaurants owned by Top Robin Ventures, Inc. and the new restaurant that had been under construction in Fresno, California for \$4.6 million, as well as cash flows provided by operating activities. We continue to reinvest available cash flows from operations to develop new restaurants or enhance existing restaurants.

Financial Condition. The Company and the restaurant industry in general, maintain relatively low levels of accounts receivable and inventories. Vendors grant trade credit for purchases such as food and supplies. We also continually invest in our business through the addition of new restaurants and refurbishment of existing restaurants, which are reflected as long-term assets and not as part of working capital.

Credit Facility. On June 15, 2007, we amended and restated our existing credit facility to provide a more flexible capital structure and facilitate our growth plans. The amended credit agreement provides for more favorable borrowing rates, allows us the ability to repurchase shares of our capital stock within certain limits and to continue to finance restaurant construction, fund franchise restaurant acquisitions, and to be used for working capital and general corporate requirements. The amended credit facility is comprised of (i) a \$150 million revolving credit facility maturing on June 15, 2012 and (ii) a \$150 million term loan maturing on June 15, 2012, both with rates initially based on the London Interbank Offered Rate (LIBOR) plus 0.75%. The amended credit agreement also allows us, subject to lender participation, to increase the revolving credit

facility by up to an additional \$100 million in the future. As part of the credit agreement, we may also request the issuance of up to \$15 million in letters of credit, the outstanding amount of which reduces the net borrowing capacity under the agreement. The amended credit facility requires the payment of an annual commitment fee based upon the unused portion of the credit facility. The credit facility's interest rates and the annual commitment rate are based on a financial leverage ratio, as defined in the credit agreement. Our obligations under the amended credit facility are secured by first priority liens and security interests in the capital stock of subsidiaries of the Company. Additionally, the credit agreement includes a negative pledge on all tangible and intangible assets (including all real and personal property) with customary exceptions.

We borrowed \$150.0 million under the term loan facility and used the proceeds to repay all borrowings under the prior credit facility, to pay related transaction fees and expenses and to fund the acquisition of the California franchisee restaurants as described in Note 2 in the accompanying Notes to Condensed Consolidated Financial Statements; we also retained the net proceeds of the term loan to fund the acquisition of the two restaurants on July 16, 2007 and for working capital and general corporate purposes. At July 15, 2007, we had no borrowings under the revolving credit facility and had letters of credit outstanding of \$4.5 million. Loan origination costs associated with the amended credit facility and the net outstanding balance of costs related to the original credit facility are \$1.7 million and are included as deferred costs in other assets, net in the accompanying consolidated balance sheet as of July 15, 2007.

Covenants. We are subject to a number of customary covenants under our various credit agreements, including limitations on additional borrowings, acquisitions, dividend payments, and requirements to maintain certain financial ratios. As of July 15, 2007, we were in compliance with all debt covenants.

Debt Outstanding. Total debt outstanding increased to \$164.1 million at July 15, 2007 from \$114.0 million at December 31, 2006. Current maturities of long-term debt increased \$11.2 million and long-term debt, net of current maturities, increased \$38.9 million due to borrowings under the amended credit facility. The increase in the current portion of debt reflects required loan repayments under our term loan borrowing beginning in 2007.

Capital Expenditures. Cash paid for capital expenditures, including capital lease obligations, was \$46.1 million and \$47.7 million for the twenty-eight weeks ended July 15, 2007 and July 9, 2006, respectively. These capital expenditures reflect ongoing construction of new restaurants as well as expenditures for facility improvements and infrastructure needs.

During fiscal year 2007, we expect capital expenditures to total \$75 million to \$85 million. We plan to open 25 to 26 new company-owned restaurants in 2007, and we plan to continue our investment in restaurant remodels and capital improvements and expand our corporate infrastructure to support our growth model.

Future Liquidity. We require capital principally to grow the business through new restaurant construction, as well as to maintain, improve and refurbish existing restaurants, support for growing infrastructure needs, and for general operating purposes. In addition, we have and may

continue to use capital to acquire franchise restaurants. Our primary short-term and long-term sources of liquidity are expected to be cash flows from operations and the revolving bank credit facility as amended in June 2007. Based upon current levels of operations and anticipated growth, we expect that cash flows from operations, combined with other financing alternatives in place or available, will be sufficient to meet debt service, capital expenditures and working capital requirements for at least the next twelve months.

Inflation

The primary inflationary factors affecting our operations are food, labor costs, energy costs, and materials used in the construction of new restaurants. A large number of our restaurant personnel are paid at rates based on the applicable minimum wage, and increases in the minimum wage have directly affected our labor costs. Many of our leases require us to pay taxes, maintenance, repairs, insurance and utilities, all of which are generally subject to inflationary increases. We believe inflation has had a negative impact on our financial condition and results of operations in the current year, due primarily to increased labor costs, higher energy costs, higher costs for certain supplies and petroleum based products, higher costs for materials and labor related to construction of our new restaurants and commodity prices for certain foods we purchase at market rates. Uncertainties related to higher costs, including energy costs, commodity prices, annual indexed wage increases and construction materials make it difficult to predict what impact, if any, inflation may have on our business during 2007.

Seasonality

Our business is subject to seasonal fluctuations. Historically, sales in most of our restaurants have been higher during the summer months and winter holiday season. Our quarterly and annual operating results and comparable restaurant sales may fluctuate significantly as a result of seasonality and other factors. Accordingly, results for any one quarter are not necessarily indicative of results to be expected for any other quarter or for any year and comparable restaurant sales for any particular future period may decrease.

Off Balance Sheet Arrangements

Except for operating leases (primarily restaurant ground leases), we do not have any off balance sheet arrangements.

Critical Accounting Policies and Estimates

We have identified the following as the Company's most critical accounting policies, which are those that are most important to the portrayal of the Company's financial condition and results and require management's most subjective and complex judgments. Information regarding the Company's other significant accounting policies are disclosed in Note 1 of our consolidated financial statements.

Stock-Based Compensation Expense. Under the fair value recognition provisions of the Statement of Financial Accounting Standards (SFAS) No. 123(R), *Share-Based Payment*, a revision of SFAS 123, *Accounting for Stock-Based Compensation*, we recognize stock-based compensation using the Black-Scholes option pricing model and recognize expense on a graded vesting basis over the requisite service periods of an option. Determining the appropriate fair value model and calculating the fair value of share-based payment awards requires the input of highly subjective and judgmental assumptions including volatility, forfeiture rates, and expected option life. If any of the assumptions used in the model change significantly, share-based compensation expense may differ materially in the future from that recorded in the current period.

Property and Equipment. Property and equipment is recorded at cost. Expenditures for major additions and improvements are capitalized and minor replacements, maintenance and repairs are charged to expense as incurred. Depreciation is computed using the straight-line method over the estimated useful life for owned assets and the shorter of the estimated useful life or the term of the underlying lease for leased assets. Changes in circumstances, such as changes to our business model or changes in our capital strategy, can result in the actual useful lives differing from our estimates. In those cases where management determines that the useful life of property and equipment should be shortened, we would depreciate the net book value over its revised remaining useful life thereby increasing depreciation and amortization expense. Factors such as changes in the planned use of fixtures or closing of facilities could also result in shortened useful lives.

Our accounting policies regarding property and equipment include judgments by management regarding the estimated useful lives of these assets, the expected lease term for assets related to properties under lease and the determination as to what constitutes enhancing the value of or increasing the life of existing assets. These judgments and estimates may produce materially different amounts of depreciation and amortization expense than would be reported if different assumptions were used. As discussed further below, these judgments may also impact management's need to recognize an impairment charge on the carrying amount of these assets as the cash flows associated with the assets are realized.

Impairment of Long-Lived Assets. Long-lived assets, including restaurant sites, leasehold improvements, other fixed assets and amortized intangible assets are reviewed when indicators of impairment are present. Expected cash flows associated with an asset are the key factor in determining the recoverability of the asset. Identifiable cash flows are generally measured at the restaurant level. The estimate of cash flows is based upon, among other things, certain assumptions about expected future operating performance. Management's estimates of undiscounted cash flows may differ from actual cash flows due to, among other things, changes in economic conditions, changes to our business model or changes in operating performance. If the sum of the undiscounted cash flows is less than the carrying value of the asset, we recognize an impairment loss, measured as the amount by which the carrying value exceeds the fair value of the asset.

Judgments made by management related to the expected useful lives of long-lived assets and our ability to realize undiscounted cash flows in excess of the carrying amounts of such assets are affected by factors such as the ongoing maintenance and improvements of the assets, changes in economic conditions and changes in operating performance. As the ongoing expected cash flows and carrying amounts of long-lived assets are assessed, these factors could cause us to realize a material impairment charge. There were no asset impairment charges during the twenty-eight weeks ended July 15, 2007 and July 9, 2006.

Goodwill. We also evaluate goodwill annually or more frequently if indicators of impairment are present. The evaluation is based upon a comparison of the carrying value of our net assets including goodwill balances to the fair value of our net assets using the quoted market price of our common stock. We completed our most recent goodwill impairment test in December 2006 and determined that there were no impairment losses related to goodwill. In the event that business conditions change and our market value were to drop significantly below year-end levels, future tests may result in a need to record a loss due to a write-down of the value of goodwill. At July 15, 2007, goodwill recorded in the consolidated balance sheet totaled \$54.7 million.

Lease Accounting. Under the provisions of certain of our leases, there are rent holidays and/or escalations in payments over the base lease term, as well as renewal periods. The effects of rent holidays and escalations are reflected in rent costs on a straight-line basis over the expected lease term, which includes cancelable option periods when it is deemed to be reasonably assured that we will exercise such option periods due to the fact that we would incur an economic penalty for not doing so. The lease term commences on the date when we become legally obligated for the rent payments which generally coincides with the time when the landlord delivers the property for us to develop and we waive contract contingencies. All rent costs recognized during construction periods are expensed immediately as pre-opening expenses.

Judgments made by management for its lease obligations include the probable term for each lease that affects the classification and accounting for a lease as capital or operating; the rent holidays and/or escalations in payments that are taken into consideration when calculating straight-line rent; and the term over which leasehold improvements for each restaurant facility are amortized. These judgments may produce materially different amounts of depreciation, amortization and rent expense than would be reported if different assumed lease terms were used.

Insurance/Self-Insurance Liabilities. The Company is self-insured for a portion of losses related to group health insurance, general liability and workers' compensation. We maintain stop-loss coverage with third party insurers to limit our total exposure. The self-insurance liability represents an estimate of the cost of claims incurred and unpaid as of the balance sheet date. The estimated liability is not discounted and is established based upon analysis of historical data and actuarial based estimates, and is closely monitored and adjusted when warranted by changing circumstances. In addition, our history of self-insured experience is short and our significant rate of growth could affect the accuracy of estimates based on historical experience. Should a greater amount of claims occur compared to what was estimated, or should medical costs increase beyond what was expected, our accrued liabilities might not be sufficient and additional expenses may be recorded. Actual claims experience could also be more favorable than estimated, resulting in expense reductions. Unanticipated changes in our estimates may produce materially different amounts of expense than that reported historically under these programs.

Recent Accounting Pronouncements

In February 2007, the Financial Accounting Standards Board's (FASB) issued Statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, (SFAS 159). SFAS 159 allows entities the option to measure eligible financial instruments at fair value as of specified dates. Such election, which may be applied on an instrument by instrument basis, is typically irrevocable once elected. SFAS 159 is effective for fiscal years beginning after November 15, 2007, and early application is allowed under certain circumstances. We have not yet determined the impact this interpretation will have on our financial position.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*, (SFAS 157). This statement defines fair value, establishes a framework for using fair value to measure assets and liabilities, and expands disclosures about fair value measurements. The statement applies whenever other statements require or permit assets or liabilities to be measured at fair value. SFAS 157 is effective for our fiscal year beginning December 31, 2008. We are evaluating the impact the adoption of SFAS 157 will have on our consolidated financial statements.

Forward-Looking Statements

Certain information and statements contained in this report that reflect the Company's current expectations regarding, among other things, future results of operations, economic performance, liquidity and capital resources, financial condition and achievements of the Company, are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements include statements regarding our expectations, beliefs, intentions, plans, objectives, goals, strategies, future events or performance and underlying assumptions and other statements which are other than statements of historical facts. These statements may be identified, without limitation, by the use of forward-looking terminology such as "anticipate," "believe," "estimates," "expects," "intend," "plan," "will," "would" or comparable and similar terms or the negative thereof. Certain forward-looking statements are included in this Form 10-Q, principally in the sections captioned "Financial Statements" and "Management's Discussion and Analysis". All forward-looking statements included in this Form 10-Q are based on information available to the Company on the date hereof. Such statements speak only as of the date hereof and we undertake no obligation to update any such statement to reflect events or circumstances arising after the date hereof. These statements are based on assumptions believed by us to be reasonable, and involve known and unknown risks and uncertainties that could cause actual results to differ materially from those described in the statements. These risks and uncertainties include, but are not limited to, the following: our ability to integrate the acquired restaurants and operate them as expected; finalization of purchase price and purchase price accounting

adjustments related to the acquisition of the California franchised restaurants; our ability to achieve and manage our planned expansion, including both in new markets and existing markets; lack of awareness of our brand in new markets; higher percentage of operating weeks from non-comparable restaurants; concentration of less mature restaurants in the comparable restaurant base; effectiveness of our initiative to normalize new restaurant operations; the effectiveness of our new national advertising strategy; the ability to attract, motivate and retain qualified team members, particularly in new markets; the ability of our franchisees to open and manage new restaurants; effectiveness of our management strategies and decisions; the concentration of our restaurants in the Western United States; changes in the availability and costs of food; changes in labor costs; changes in energy costs; changes in availability of capital or credit facility borrowings; changes in the cost and availability of building materials and restaurant supplies; potential fluctuation in our quarterly operating results due to seasonality and other factors; the effect of increased competition in the casual dining market; the continued service of key management personnel; changes in consumer preferences, general economic conditions or consumer discretionary spending; health concerns about our food products and food preparation; our ability to protect our name and logo and other proprietary information; the impact of federal, state or local government regulations relating to our team members or the sale of food or alcoholic beverages; the costs associated with pending litigation and any expense related to settlement of such matters; approval by the Court of the settlement terms for certain pending litigation; our franchisees' adherence to our practices, policies and procedures; additional costs associated with compliance, including the Sarbanes-Oxley Act and related regulations and requirements; the effectiveness of our internal controls over financial reporting; future changes in financial accounting standards; and other risk factors described from time to time in the Company's Annual Report on Form 10-K for 2006 filed with the SEC.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk exposures for our assets are related to cash, cash equivalents and investments. We invest our excess cash in highly liquid short-term investments with maturities of less than one year. These investments are not held for trading or other speculative purposes. Changes in interest rates affect the investment income we earn on our investments and, therefore, impact our cash flows and results of operations.

Under our revolving credit agreement, amended in June 2007, we are exposed to market risk from changes in interest rates on borrowings, which bear interest at one of the following rates we select: an Alternate Base Rate (ABR), based on the Prime Rate plus 0.00% to 0.25%, or a LIBOR, based on the relevant one, two, three or six-month LIBOR, at our discretion, plus 0.50% to 1.00%. The spread, or margin, for ABR and LIBOR loans under the revolving credit agreement is subject to quarterly adjustment based on our then current leverage ratio, as defined by the credit agreement. As of July 15, 2007, we had \$154.4 million of borrowings subject to variable interest rates, and a plus or minus 1.0% change in the effective interest rate applied to these loans would have resulted in pre-tax interest expense fluctuation of \$1.5 million on an annualized basis.

Primarily all of our transactions are conducted, and our accounts are denominated, in United States dollars. Accordingly, we are not exposed to significant foreign currency risk.

Many of the food products purchased by us are affected by changes in weather, production, availability, seasonality and other factors outside our control. In an effort to control some of this risk, we have entered into some fixed price purchase commitments. In addition, we believe that almost all of our food and supplies are available from several sources, which helps to control food commodity risks.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's reports under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the management of Red Robin Gourmet Burgers, Inc. (Management), including the Company's Chief Executive Officer (CEO) and Chief Financial Officer (CFO), as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, Management recognizes that any controls and procedures, no matter how well designed and operated, can only provide reasonable assurance of achieving the desired control objectives. As a result, the Company's CEO and CFO have concluded that, based upon the evaluation of disclosure controls and procedures (as defined in Rule 13a-15(e) or 15d-15(e) under the Exchange Act), the Company's disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Control Over Financial Reporting

The Company's Management, with the participation of the CEO and CFO, have evaluated whether any change in the Company's internal control over financial reporting occurred during the fiscal quarter ended July 15, 2007. Based on that evaluation, Management concluded that there has been no change in the Company's internal control over financial reporting during the fiscal quarter ended July 15, 2007 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

On February 1, 2006, the Company received a notice from the SEC that the SEC had issued a formal order of investigation related to a 2005 internal Company investigation regarding the Company's former chairman, president and chief executive officer. On June 4, 2007, the staff of the Denver Regional Office of the SEC notified the Company that the investigation has been terminated as to Red Robin and no enforcement action has been recommended to the Commission.

On August 15, 2005, Andre Andropolis filed a purported class action complaint against the Company, the former chief executive officer and former chief financial officer (the Andropolis Complaint) in the United States District Court for the District of Colorado on behalf of himself and all other purchasers of the Company's common stock during the putative class period of November 8, 2004 through August 11, 2005. On September 30, 2005, Mark Baird filed a similar purported class action complaint (the Baird Complaint). The Andropolis and Baird complaints were consolidated by the Court and are referred to together as "Andropolis". On January 2, 2007, the Court granted

the defendants' motions to dismiss all claims with prejudice. Final judgment was entered on January 17, 2007, which plaintiffs appealed. These actions are more fully described in our Annual Report on Form 10-K filed February 28, 2007. After mediation, the parties to the Andropolis matter reached an agreement to settle, which was preliminarily approved by the Court on May 31, 2007. The settlement involves a payment of \$1.5 million, covered by insurance, to the putative class and its counsel. The hearing for final approval is scheduled for September 28, 2007.

On August 31, 2005, Elliot Wilster commenced a stockholder derivative suit on behalf of the Company in the United States District Court for the District of Colorado (the Wilster Complaint). The action was brought against the Company as a nominal defendant and against the former chief executive officer, then-current board members and the Company's former senior vice president and chief concept officer. This action is more fully described in our Annual Report on Form 10-K filed February 28, 2007. On August 3, 2006, the Court in the Wilster case granted the Company's motion to dismiss all claims against all defendants for failure to plead demand futility. The plaintiff appealed this ruling to the United States Court of Appeals for the Tenth Circuit. The parties have reached an agreement to settle and executed a memorandum of understanding. The proposed settlement involves payment of \$250,000 to plaintiff's counsel, also covered by insurance and the adoption by the Company of certain corporate governance measures. The proposed settlement is subject to court approval.

In January 2006, the Company was served with a purported class action lawsuit, Huggett v. Red Robin International, Inc. This lawsuit was filed in the Superior Court of the State of California. The Huggett lawsuit alleges failure to comply with California wage and hour regulations, including those governing meal and rest periods, payment of wages upon termination and provision of itemized statements to employees, as well as unlawful business practices and unfair competition. The Huggett complaint states claims for damages, including punitive and exemplary damages and injunctive relief. The Company filed an answer to the Huggett complaint and removed the case to the United States District Court for the Central District of California. On March 13, 2006, Huggett filed a motion to remand the case to the California state court. On June 9, 2006, the Court denied the motion to remand. On April 16, 2007, the parties attempted an unsuccessful effort to mediate the claim. On May 29, 2007, Huggett filed a motion to certify the putative class and the Company filed its reply on July 27, 2007. A hearing on the motion is scheduled for September 10, 2007. However, the putative class in the Huggett matter is the same as the putative class in the Harper case described below, which is pending before the same judge as the Huggett matter. As described below, the parties have reached a tentative settlement in the Harper matter, which is subject to court approval. The Company expects that approval by the Court of the settlement in the Harper matter will resolve the Huggett class claims as well.

In December 2006, the Company was served with two additional purported class action lawsuits alleging violations of California's wage and hour laws. William Harper v. Red Robin International, Inc. was filed in the Superior Court of California alleging failure by the Company to provide meal and rest breaks in compliance with California wage and hour regulations. Marie Hill vs. Red Robin International, Inc. was filed the same day as the Harper case. In the Hill case, a former employee alleges failure to pay overtime, misclassification of managers, and failure to pay for or provide meal and rest breaks. The Company filed answers in both cases and removed them to the United States District Court for the Central District of California. The Company then filed notices of related cases with the Court in the *Huggett* case stating that the two new cases should be heard by the same judge as the Huggett matter.

On August 7, 2007, the parties to the Harper and Hill cases entered into memoranda of understanding to settle all pending claims, including an extended class period to include putative class members in the Huggett matter. The Company has admitted no liability in connection with the settlement. In connection with the settlement, the Company has recorded a charge of \$1.7 million for the estimated payments, costs and administrative expenses of the settlement liability. This amount is an estimate subject to adjustment based on actual claims filed. The settlements are subject to court approval.

See Note 9 *Contingencies*, in the Notes to Condensed Consolidated Financial Statements, for additional information regarding certain legal proceedings to which the Company is a party.

Item 1A. Risk Factors

A description of the risk factors associated with our business is contained in Item 1A, "Risk Factors," of our 2006 Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 28, 2007. There have been no material changes in our Risk Factors disclosed in our 2006 Annual Report on Form 10-K.

Item 4. Submission of Matters to a Vote of Security Holders

The following matters were submitted to a vote of security holders during the Company's annual meeting of stockholders held on May 31, 2007.

Description of Matter	Number of Shares		
	Voted For	Votes Withheld	Abstentions
1. Election of Class II Directors			
Edward T. Harvey Jr.	15,330,838	36,788	0
Gary J. Singer	15,163,674	203,952	0
2. Adoption of the Company's 2007 Performance Incentive Plan			
	12,008,593	1,973,174	6,705
3. Ratification of Appointment of Independent Registered Public Accounting Firm			
	15,354,944	5,338	7,343

- There were 1,379,148 broker non-votes on proposal 2.
- Directors whose terms continued following the meeting are Dennis B. Mullen, Benjamin Graebel, Edward T. Harvey Jr., Gary J. Singer, Richard Howell, J. Taylor Simonton and James T. Rothe.

Item 5. Other Information

On August 15, 2007, the Company's Board of Directors appointed Pattye L. Moore to the Board. The Board appointed Ms. Moore based on her extensive background and leadership experience in the restaurant industry. Ms. Moore previously served as a director of Sonic Corp. from January 2000 to January 2006, and served as its president from January 2002 to October 2004. She also serves on the boards of directors of ONEOK, Inc., a publicly-held diversified energy company and the fifth largest gas distribution company in the United States, and of Quik-Trip Corporation, a privately-held gas and convenience store retailer. Ms. Moore is the sole owner of Pattye Moore & Associates, LLC, which has provided marketing and strategic consulting services to the Company since 2004, including in connection with the Company's recent national media strategy. No payments by the Company to Ms. Moore have exceeded \$120,000 in any fiscal year in which she has provided services. Ms. Moore will discontinue her consulting services to the Company upon joining the Board. As a director, Ms. Moore is entitled to participate in the Company's 2007 Performance Incentive

Plan, and was granted 5,000 options on August 15, 2007 priced at the close of business on such date. The options vest monthly in equal increments over 24 months.

There were no arrangements or understandings between Ms. Moore and any person pursuant to which she was elected a director. Ms. Moore will not immediately be appointed to any Board committees.

Item 6. Exhibits

<u>Exhibit Number</u>	<u>Description</u>
10.1	Amended and Restated Credit Agreement, dated June 15, 2007 (incorporated by reference to Exhibit 10.1 to Form 8-K filed June 21, 2007)

CERTIFICATION

I, Dennis B. Mullen, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Red Robin Gourmet Burgers, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15(a)-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure control and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation;
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**Written Statement
Pursuant To
18 U.S.C. Section 1350**

In connection with the Quarterly Report of Red Robin Gourmet Burgers, Inc. (the "Company") on Form 10-Q for the period ended July 15, 2007, as filed with the Securities and Exchange Commission on August 17, 2007 (the "Report"), the undersigned, Dennis B. Mullen, Chief Executive Officer, and Katherine L. Scherping, Chief Financial Officer, of Red Robin Gourmet Burgers, Inc. (the "Company"), certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

- (a) the quarterly report on Form 10-Q for the period ended July 15, 2007 of the Company (the "Periodic Report") fully complies with the requirements of section 13(a) and 15(d) of the Securities Exchange Act of 1934; and
- (b) the information contained in the Periodic Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

Dated: August 17, 2007
