We expect the investment to deliver gains in sales and profits, and drive long-term shareholder value. Due to the hard work and dedication of our team members, we are beginning to reap the rewards of the investments by delivering positive comparable restaurant revenue in the first five weeks of the second quarter."

Hart continued, "Our menu and our brand are centered around providing everyday value to each and every guest through our over 30 bottomless sides, our Tavern Burger lineup, our pizza offerings and throughout our menu. We believe this brand positioning has been beneficial to our top-line trends as we continue to create moments of connection over craveable food that only Red Robin can provide."

Balance Sheet and Liquidity

During the first quarter of fiscal 2024, the Company repaid \$21.2 million of debt. As of April 21, 2024, Red Robin had outstanding borrowings under its credit facility of \$167.9 million and liquidity of approximately \$55.6 million, including cash and cash equivalents and available borrowing capacity under its credit facility.

Sale-Leaseback Activity

During the first quarter of fiscal 2024, the Company completed a third sale-leaseback transaction with Essential Properties Realty Trust, Inc. (NYSE:EPRT) to sell and simultaneously lease-back ten owned properties. The transaction generated gross proceeds of approximately \$23.9 million and the net proceeds were used to repay debt pursuant to the Company's credit agreement.

Outlook for Fiscal 2024 and Guidance Policy

Comparable restaurant revenue in the first five weeks of the second quarter of fiscal 2024 increased 0.3%⁽¹⁾ as compared to the same weeks in 2023.

The Company provides guidance of select information related to the Company's financial and operating performance, and such measures may differ from year to year. The projections are as of this date and the Company assumes no obligation to update or supplement this information.

The Company reiterates all aspects of its Fiscal 2024 guidance;

- Total revenue of \$1.250 billion to \$1.275 billion, including comparable restaurant revenue of a low single digit percentage decline.
- Restaurant level operating profit of 12.5% to 13.5%, inclusive of investments in the Guest experience and rent expenses related to the sale leaseback transactions;
- Adjusted EBITDA of \$60 million to \$70 million;
- Capital expenditures of \$25 million to \$35 million.

Fiscal 2024 includes 52 weeks versus 53 weeks in fiscal 2023.

Providing Income (loss) from operations and Net income (loss) guidance is potentially misleading and not practical given the difficulty of projecting event-driven transactional and other non-core operating items. As such, we do not present a reconciliation of forecasted non-GAAP measures to the corresponding GAAP measures.

(1) Comparable restaurant revenue for the first five weeks of the second quarter of fiscal 2024 is calculated based on the Company's point-of-sales sale data, which does not include adjustments for loyalty breakage.

Reconciliation of Non-GAAP Results to GAAP Results

In addition to the results provided in accordance with Generally Accepted Accounting Principles ("GAAP") throughout this press release, the Company has provided Adjusted EBITDA, Adjusted net income (loss) and Adjusted net income (loss) per share - diluted, which are non-GAAP measurements. We define EBITDA as net income (loss) before interest expense, income taxes, and depreciation and amortization. Adjusted EBITDA, Adjusted net income (loss) and Adjusted net income (loss) per share-diluted are supplemental measures of our performance that are not required by or presented in accordance with GAAP. We believe these non-GAAP measures give the reader additional insight into the ongoing operational results of the Company, and are intended to supplement the presentation of the Company's financial results in accordance with GAAP. Adjusted EBITDA, Adjusted net income (loss) per share-diluted exclude the impact of non-operating or nonrecurring items including changes in estimate, asset impairments, litigation contingencies, gains (losses) on debt extinguishment, restaurant and office closure costs, gains on sale leaseback transactions, severance and executive transition costs and other non-recurring, non-cash or discrete items; net of income tax impacts. Other companies may define these non-GAAP measures differently, and as a result may not be directly comparable to those of other companies. Management believes this supplemental information will assist with comparisons of past and future financial results against the present financial results presented herein.

The Company believes restaurant level operating profit is an important measure for management and investors because it is widely regarded in the restaurant industry as a useful metric by which to evaluate restaurant level operating efficiency and performance. The Company defines restaurant level operating profit to be income from operations less franchise revenue and other revenue, plus other charges (gains), net, pre-opening costs, selling costs, general and administrative expenses, and depreciation and amortization. The measure includes restaurant level occupancy costs that include fixed rents, percentage rents, common area maintenance charges, real estate and personal property taxes, general liability insurance, and other property costs, but excludes depreciation and amortization expense, substantially all of which is related to restaurant level assets, because such expenses represent historical sunk costs which do not reflect current cash outlay for the restaurants. The measure also excludes costs associated with selling, general, and administrative functions, pre-opening costs, as well as, other charges (gains), net because these costs are non-operating or nonrecurring and therefore not related to the ongoing operations of its restaurants. Restaurant level operating profit is not a measurement determined in accordance with GAAP and should not be considered in isolation, or as an alternative, to income (loss) from operations as an indicator of financial performance. Restaurant level operating profit as presented may not be comparable to other similarly titled measures of other companies in the Company's industry.
