RED ROBIN GOURMET BURGERS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Basis of Presentation and Recent Accounting Pronouncements

Red Robin Gourmet Burgers, Inc. (“Red Robin” or “the Company”), a Delaware corporation, develops and operates casual-dining restaurants. At July 10, 2011, the Company operated 321 company-owned restaurants located in 32 states. The Company operates its business as one operating and one reportable segment. The Company also franchises its restaurants, of which there were 137 restaurants in 21 states and two Canadian provinces as of July 10, 2011.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of Red Robin and its wholly owned subsidiaries. All intercompany accounts and transactions have been eliminated in consolidation. The Company’s financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Some of the more significant estimates included in the preparation of these financial statements pertain to recoverability of long-lived assets, recoverability of goodwill, estimated useful lives of other intangible assets, bonus accruals, lease accounting, estimating fair value, self-insurance liabilities, stock-based compensation expense, estimating breakage on unredeemed gift cards and deferred revenue related to our customer loyalty program, legal contingencies, and income taxes. Actual results could differ from those estimates. The results of operations for any interim period are not necessarily indicative of results for the full year.

The accompanying condensed consolidated financial statements of Red Robin have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (“SEC”). Certain information and footnote disclosures normally included in the Company’s annual consolidated financial statements on Form 10-K have been condensed or omitted. The condensed consolidated balance sheet as of December 26, 2010, has been derived from the audited consolidated financial statements as of that date, but does not include all disclosures required by generally accepted accounting principles. For further information, please refer to and read these interim condensed consolidated financial statements in conjunction with the Company’s audited consolidated financial statements included in the Company’s annual report on Form 10-K for the fiscal year ended December 26, 2010.

The Company’s quarter which ended July 10, 2011, is referred to as second quarter 2011, or the twelve weeks ended July 10, 2011; the first quarter ended April 17, 2011, is referred to as first quarter 2011, or the sixteen weeks ended April 17, 2011; and, together the first and second quarters of 2011 are referred to as the twenty-eight weeks ended July 10, 2011. The Company’s quarter which ended July 11, 2010, is referred to as second quarter 2010, or the twelve weeks ended July 11, 2010; the first quarter ended April 18, 2010, is referred to as first quarter 2010, or the sixteen weeks ended April 18, 2010; and, together the first and second quarters of 2010 are referred to as the twenty-eight weeks ended July 11, 2010.

Recent Accounting Pronouncements

In January 2010, the FASB issued an update regarding guidance over the disclosure requirements of fair value measurements. This update adds new requirements for disclosure about transfers into and out of Levels One and Two and also adds additional disclosure requirements about purchases, sales, issuances, and settlements relating to Level Three measurements. The guidance is effective beginning fiscal year 2010 for the disclosure requirements around Levels One and Two measurements, and is effective beginning fiscal year 2011 for the disclosure requirements around Level Three. This new guidance had no impact on the fair value disclosures of the Company, as there have been no transfers out of Levels One or Two.

In June 2011, the FASB finalized guidance on the Presentation of Comprehensive Income, which revises the manner in which entities present comprehensive income in their financial statements. The new guidance removes the presentation options and requires entities to report components of comprehensive income in either (1) a continuous statement of comprehensive income or (2) two separate but consecutive statements. Under the two-statement approach, the first statement would include components of net income, which is consistent with the income statement format used today, and the second statement would include components of other comprehensive income (OCI). This guidance is effective for fiscal years and interim periods within those years beginning after December 15, 2011.

2. Restaurant Impairment and Closures

The Company closed no restaurants in the first or the second quarter of 2011 and no impairments to restaurants were considered necessary during the first or second quarter 2011.

The Company closed one restaurant in the first quarter of 2010. There was no associated amount of goodwill to write off in connection with the closure. The Company

recognized charges of \$95,000 for the twenty-eight weeks ended July 11, 2010, related to lease terminations and other closing related costs for this restaurant.

3. Stock-Based Compensation

Stock Options

During the twelve weeks ended July 10, 2011, the Company issued 110,000 options with a weighted average grant date fair value of \$15.28 per share and a weighted average exercise price of \$34.60 per share. Compensation expense for these options is recognized over the remaining vesting period less expected forfeitures. The weighted average vesting period for all options outstanding is approximately 1.4 years. The Company issued 11,000 options with a weighted average grant date fair value of \$8.80 per share and a weighted average exercise price of \$20.69 per share during the twelve weeks ended July 11, 2010.

During the twenty-eight weeks ended July 10, 2011, the Company issued 133,000 options with a weighted average grant date fair value of \$14.40 per share and a weighted average exercise price of \$32.75 per share. Compensation expense for these options is recognized over the remaining weighted average vesting period for all options outstanding which is approximately 1.4 years. The Company issued 253,000 options with a weighted average grant date fair value of \$9.17 per share and a weighted average exercise price of \$21.71 per share during the twenty-eight weeks ended July 11, 2010.

The fair value of options at the grant date was estimated utilizing the Black-Scholes multiple option-pricing model with the following weighted average assumptions for the periods presented:

	Twelve Weeks Ended		Twenty-eight Weeks Ended	
	July 10, 2011	July 11, 2010	July 10, 2011	July 11, 2010
Risk-free interest rate	1.2%	1.3%	1.2%	1.7%
Expected years until exercise	3.6	3.6	3.6	3.5
Expected stock volatility	60.0%	58.0%	60.0%	57.2%
Dividend yield	0.0%	0.0%	0.0%	0.0%
Weighted-average Black-Scholes fair value per share at date of grant	\$ 15.28	\$ 8.80	\$ 14.40	\$ 9.17

Restricted Stock

The Company did not issue any shares of non-vested common stock during the twelve and twenty-eight weeks ended July 10, 2011. Compensation expense for the aggregate 16,000 shares of non-vested common stock outstanding at July 10, 2011 is recognized over the remaining vesting period, less expected forfeitures. The weighted average vesting period is approximately 1.0 years. These awards vest in installments over four years on the anniversary dates. The Company did not issue shares of non-vested common stock during the twelve weeks and twenty-eight weeks ended July 11, 2010.

Time Based RSUs

During the twelve weeks ended July 10, 2011, the Company granted 40,000 restricted stock units ("RSUs") to certain non-employee directors and employees under the Second Amended and Restated 2007 Performance Incentive Plan (the "Stock Plan") with a weighted average grant date fair value of \$34.61. The fair value of each RSU granted is equal to the market price of the Company's stock at date of grant. Compensation expense for the RSUs is recognized over the remaining vesting period, less expected forfeitures.

The weighted average vesting period for all RSUs outstanding is approximately 1.77 years. The RSUs granted to employees vest in equal installments over three to four years on the anniversary date and upon vesting, the Company issues one share of the Company's

[Table of Contents](#)

common stock for each RSU. The RSUs granted to non-employee directors are scheduled to vest in three equal installments on the first, second, and third anniversaries of the date of grant, and the shares underlying the units will be distributed upon vesting. The Company granted 28,000 RSUs with a weighted average grant date fair value of \$20.40 during the twelve weeks ended July 11, 2010.

During the twenty-eight weeks ended July 10, 2011, the Company granted 43,000 RSUs under the Stock Plan with a weighted average grant date fair value of \$33.77. The RSUs vest in equal installments over three to four years on the anniversary date and upon vesting, one share of the Company's common stock is issued for each RSU. The fair value of each RSU granted is equal to the market price of the Company's stock at date of grant. Compensation expense for the RSUs is recognized over the remaining weighted average vesting period, less expected forfeitures, for all RSUs outstanding which is approximately 1.77 years. The Company granted 90,000 RSUs or 131,000 RSUs inclusive of the performance based RSUs granted during second quarter 2010, under the Stock Plan with a weighted average grant date fair value of \$25.68 during the twenty-eight weeks ended July 11, 2010.

Performance Based RSUs

During the twenty-eight weeks ended July 10, 2011, the Company granted no performance based restricted stock units ("PSUs"). The Company issued 41,000 PSUs during the twenty-eight weeks ended July 11, 2010 with a grant date fair value of \$35.90. These PSUs are subject to company performance metrics based on Total Shareholder Return and measure the overall stock price performance of the Company to the stock price performance of a selected industry peer group, thus resulting in a market condition. The actual number of PSUs subject to the awards will be determined at the end of the performance period based on these performance metrics. The fair value of the PSUs is calculated using the Monte Carlo valuation method. This method utilizes multiple input variables to determine the probability of the Company achieving the market condition and the fair value of the awards. These awards have a three-year performance period and are classified as equity as each unit is convertible into one share of the Company's common stock upon vesting. Compensation expense is recognized on a straight-line basis over the requisite service period (or to an employee's eligible retirement date, if earlier).

4. Earnings Per Share

Basic earnings per share amounts are calculated by dividing net income (loss) by the weighted-average number of common shares outstanding during the period. Diluted earnings (loss) per share amounts are calculated based upon the weighted-average number of common shares and potentially dilutive shares of common stock outstanding during the period. Potentially dilutive shares are excluded from the computation in periods in which they have an anti-dilutive effect. Diluted earnings per share reflect the potential dilution that could occur if holders of options exercised their options into common stock. During the twelve and twenty-eight weeks ended July 10, 2011, 172,000 and 191,000, respectively, weighted stock options outstanding were not included in the computation of diluted earnings per share because to do so would have been anti-dilutive for the periods presented. During the twelve and twenty-eight weeks ended July 11, 2010, 571,000 and 504,000, respectively, weighted stock options outstanding were not included in the computation of diluted earnings per share because to do so would have been anti-dilutive for the periods presented. The Company uses the treasury stock method to calculate the impact of outstanding stock options. The computations for basic and diluted earnings (loss) per share are as follows (in thousands, except per share data):

	Twelve Weeks Ended		Twenty-eight Weeks Ended	
	July 10, 2011	July 11, 2010	July 10, 2011	July 11, 2010

Diluted	\$ 0.44	\$ 0.28	\$ 1.00	\$ 0.59

5. Borrowings

Borrowings at July 10, 2011 and December 26, 2010 are summarized below (in thousands):

7

[Table of Contents](#)

	July 10, 2011	December 26, 2010
Term loan facility	\$ 148,125	\$ 103,954
Revolving credit facility	—	43,000
Capital lease obligations	10,983	11,568
Total Debt	159,108	158,522
Less: Current portion	(9,162)	(19,577)
Long-term debt	\$ 149,946	\$ 138,945

On May 6, 2011, the Company amended and restated its credit facility, which was set to mature in June 2012, to provide a more flexible capital structure and facilitate its growth plans. Borrowings under the amended credit agreement may be used by the Company to repurchase shares of its capital stock within certain limits, continue to finance restaurant construction, and for working capital or other general corporate requirements. The amended credit facility is comprised of (i) a \$100 million revolving credit facility maturing on May 6, 2016 and (ii) a \$150 million term loan maturing on May 6, 2016, both with rates based on the London Interbank Offered Rate (LIBOR) plus a range of rates which is based on a leverage ratio with an initial rate of 2.75% or base rate plus 1.75% (base rate is the highest of (a) the Prime Rate, (b) the Federal Funds Rate plus an initial rate of 0.50% and (c) LIBOR for an Interest Period of one month plus 1%). The amended credit agreement also allows, subject to lender participation, the Company to increase the revolving credit facility or term loan by up to an additional \$100 million in the future. As part of the credit agreement, the Company may also request the issuance of up to \$20 million in letters of credit, the outstanding amount of which reduces the net borrowing capacity under the revolving credit facility. The amended credit agreement requires the payment of an annual commitment fee based upon the unused portion of the credit facility. The credit facility's interest rates and the annual commitment rate are based on a financial leverage ratio, as defined in the credit agreement. The Company's obligations under the amended credit agreement are secured by first priority liens and security interests in substantially all of the assets of the Company, which includes the capital stock of subsidiaries of the Company. Additionally, the credit agreement includes a negative pledge on all tangible and intangible assets (including all real and personal property) with customary exceptions.

The Company borrowed \$150 million under the term loan facility and used the proceeds to repay all borrowings under the prior credit facility.

The Company is subject to a number of customary covenants under its credit agreement, including limitations on additional borrowings, acquisitions, capital expenditures, share repurchases, lease commitments and dividend payments, and requirements to maintain certain financial ratios. As of July 10, 2011, we were in compliance with all debt covenants.

6. Gift Card Breakage

The Company sells gift cards which do not have an expiration date, and it does not deduct dormancy fees from outstanding gift card balances. The Company recognizes revenue from gift cards when: (i) the gift card is redeemed by the customer; or (ii) the likelihood of the gift card being redeemed by the customer is remote (gift card breakage), and the Company determines that there is not a legal obligation to remit the unredeemed gift card balance to the relevant jurisdiction. The determination of the gift card breakage rate is based upon the Company's specific historical redemption patterns. The Company recognizes gift card breakage by applying its estimate of the rate of gift card breakage over the period of estimated performance (generally, 24 months). The Company completed its initial analysis of unredeemed gift card liabilities for gift cards that it sold in its restaurants during the second quarter 2010. The Company completed initial analysis of unredeemed gift card liabilities for gift cards sold in third party locations during the first quarter of 2011 and recognized \$438,000 into revenue as an initial adjustment. For the twelve and twenty-eight weeks ended July 10, 2011, the Company recognized gift card breakage of \$304,000 and \$1.1 million (inclusive of initial cumulative program adjustment for third party gift card sales). For the twelve and twenty-eight weeks ended July 11, 2010, the Company recognized \$200,000 and \$4.0 million (\$3.5 million as an initial cumulative program adjustment for restaurant gift card sales). Gift card breakage is included in other revenue in the consolidated statements of operations.

7. Advertising Costs

Costs incurred in connection with the advertising and marketing of the Company are included in selling, general, and administrative expenses and expensed as incurred or when the advertisement first runs. Such costs amounted to \$7.9 million and

8

[Table of Contents](#)

\$16.8 million for the twelve weeks and twenty-eight weeks ended July 10, 2011, respectively, and \$6.4 million and \$16.9 million, respectively, for the twelve and twenty-eight weeks ended July 11, 2010.

Under the Company's franchise agreements, both the Company and the franchisees must contribute a minimum percentage of revenues to two marketing and national media advertising funds ("the Marketing Funds"). These Marketing Funds are used to develop and distribute Red Robin® branded marketing materials, for media purchases and for administrative costs. The Company's portion of costs incurred by the Marketing Funds is recorded as selling, general, and administrative expenses in the Company's financial statements. Restricted cash represents contributed funds held for future use.

8. Derivative and Other Comprehensive Income

The Company enters into derivative instruments for risk management purposes only, including derivatives designated as a cash flow hedge under guidance for derivative instruments and hedging activities. The Company uses interest rate-related derivative instruments to manage its exposure to fluctuations in interest rates. By using these instruments, the Company exposes itself, from time to time, to credit risk and market risk. Credit risk is the failure of either party to the contract to perform under the terms of the derivative contract. When the fair value of a derivative contract is positive, the counterparty owes the Company, which creates credit risk for the Company. The Company minimizes the credit risk by entering into transactions with high-quality counterparties whose credit rating is evaluated on a quarterly basis. The Company's counterparty in the interest rate swap was SunTrust Bank, National Association (SunTrust). Market risk, as it related to the Company's interest-rate derivative, is the adverse effect on the value of a financial instrument that results from changes in interest rates. The Company minimizes market risk by establishing and monitoring parameters that limit the types and degree of market risk that the Company takes.

In August 2011, the Company entered into a variable-to-fixed interest rate swap agreement with Rabobank to hedge the Company's floating interest rate on half of the remaining term loan that is currently outstanding under the Company's amended and restated credit facility. We will receive variable rates based on 3-month LIBOR rate and pay a fixed rate of 1.135%.

In March 2008, the Company entered into a variable-to-fixed interest rate swap agreement with SunTrust to hedge the Company's floating interest rate on an aggregate of up to \$120 million of debt that was outstanding under the Company's amended and restated credit facility. The interest rate swap had an effective date of March 19, 2008, and \$50 million of the initial \$120 million expired on March 19, 2010, in accordance with its original term, and the remaining \$70 million expired on March 19, 2011. The Company was required to make payments based on a fixed interest rate of 2.7925% calculated on the remaining notional amount of \$70 million. In exchange, the Company received interest on \$70 million of the notional amount at a variable rate that was based on the 3-month LIBOR rate. The Company entered into the above interest rate swap with the objective of offsetting the variability of its interest expense that arises because of changes in the variable interest rate for the designated interest payments and designated the swap as a cash flow hedge since its inception. Accordingly, changes in fair value of the interest rate swap contract were recorded, net of taxes, as a component of accumulated other comprehensive loss ("AOCL") in the accompanying condensed consolidated balance sheets. The Company reclassifies the effective gain or loss from AOCL, net of tax, on the Company's consolidated balance sheet to interest expense on the Company's consolidated statements of income as the interest expense is recognized on the related debt.

The following table summarizes the fair value and presentation in the condensed consolidated balance sheets of the interest rate swap as hedging instruments as of July 10, 2011 and December 26, 2010 (in thousands):

Balance Sheet Location	Derivative Liability	
	Fair value at July 10, 2011	Fair value at December 26, 2010
Accrued liabilities	\$ —	\$ 411
Total derivatives	\$ —	\$ 411

The following table summarizes the effect of the interest rate swap on the condensed consolidated statements of operations for the twelve weeks ended July 10, 2011 and July 11, 2010 (in thousands):

	Twelve Weeks Ended		Twenty-eight Weeks Ended	
	July 10, 2011	July 11, 2010	July 10, 2011	July 11, 2010
Unrealized gain (loss) on swap in AOCL (pretax)	\$ —	\$ 93	\$ —	\$ (308)
Realized gain (loss) [pretax effective portion] recognized in interest expense	\$ —	\$ (401)	\$ 408	\$ (1,239)

There was no activity for the twelve weeks ended July 10, 2011. AOCL decreased by \$440,000 and on a pretax basis or \$197,000 on an after tax basis for the twenty-eight weeks ended July 10, 2011. For the twelve and twenty-eight weeks ended July 11, 2010, AOCL decreased by \$494,000 and \$931,000 on a pretax basis or \$278,000 and \$774,000 on an after tax basis for the twelve and twenty-eight weeks ended July 11, 2010, respectively. The interest rate swap had no hedge ineffectiveness, and as a result, no unrealized gains or losses were reclassified into net earnings as a result of hedge ineffectiveness for the twelve and twenty-eight weeks ended July 11, 2010.

Comprehensive income consists of net income and other gains and losses affecting stockholders' equity that are excluded from net income. Comprehensive income consisted of (in thousands):

	Twelve Weeks Ended		Twenty-eight Weeks Ended	
	July 10, 2011	July 11, 2010	July 10, 2011	July 11, 2010
Net income	\$ 6,894	\$ 4,333	\$ 15,603	\$ 9,285
Unrealized gain on cash flow swap, net of tax	—	278	—	774
Total comprehensive income	\$ 6,894	\$ 4,611	\$ 15,603	\$ 10,059

9. Fair Value Measurement

Fair value measurements are made under a three-tier fair value hierarchy, which prioritizes the inputs used in the measuring of fair value:

Level One: Observable inputs that reflect unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level Two: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level Three: Inputs that are generally unobservable. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value.

Assets and Liabilities Measured at Fair Value

The derivative liability associated with the interest rate swap at December 26, 2010 was considered to be a Level Two instrument. The interest rate swap was a standard cash flow hedge whose fair value is estimated using industry-standard valuation models. Such models project future cash flows and discount the future amounts to a present value using market-based observable inputs, including interest rate curves. See Note 8, *Derivative and Other Comprehensive Income*, for the discussion of the derivative

liability.

The Company's deferred compensation plan is a nonqualified deferred compensation plan which allows highly compensated employees to defer a portion of their base salary, bonuses, and commissions each plan year. The carrying value of both the liability for the deferred compensation plan and associated life insurance policy are equal to their fair value. These agreements are required to be measured at fair value on a recurring basis and are valued using Level Two inputs. At July 10, 2011, and December 26, 2010, a liability for participant contributions and investment income thereon of \$2.7 million and \$2.6 million is included in other non-current liabilities. To offset its obligation, the Company's plan administrator purchases corporate-owned whole-life insurance contracts on

10

certain team members. The cash surrender value of these policies at July 10, 2011, and December 26, 2010, was \$2.6 million and \$2.5 million, respectively, and is included in other assets, net.

As of July 10, 2011, the Company had no financial assets or liabilities that were measured using Level One or Level Three inputs. The Company also had no non-financial assets or liabilities that were required to be measured at fair value on a recurring basis.

The following table presents our assets and liabilities that are fair valued on a recurring basis for the quarter ended July 10, 2011, and for the fiscal year ended December 26, 2010 (in thousands):

Disclosures of Fair Value of Other Assets and Liabilities

The Company's liabilities under its credit facility and capital leases are carried at historical cost in the accompanying consolidated balance sheet. For disclosure purposes, we estimate the fair value of the credit facility and capital lease obligations using discounted cash flow analysis based on market rates obtained from independent third parties for similar types of debt. Both the credit facility and the Company's capital lease obligations are considered to be Level 2 instruments. The carrying amount of the Company's credit facility as of July 10, 2011, and December 26, 2010, was approximately \$148.1 million and \$147 million, respectively. The fair value of the Company's credit facility as of July 10, 2011, and December 26, 2010, was approximately \$148.1 million at both dates. There are \$11.0 million of outstanding borrowings recorded for the Company's capital leases as of July 10, 2011, which have an estimated fair value of \$11.7 million. At December 26, 2010, the carrying amount of the Company's capital lease obligations was \$11.6 million, and the fair value was \$11.5 million.

10. Related Party Transactions

In 2009, the Company appointed a member and former franchisee to its board of directors who qualifies as a related party. This board member is a principal of, and holds, directly or indirectly, interests of between 45% and 100% in each of three privately-held entities that hold the leases for three Company-owned restaurants. These restaurants were acquired from the franchisee as part of three restaurant acquisitions in 2007. Under those leases, the Company recognized rent and other related payments in the amounts of \$305,000 and \$289,000 for the twelve weeks ended July 10, 2011 and July 11, 2010, respectively and \$647,000 and \$640,000 for the twenty-eight weeks ended July 10, 2011 and July 11, 2010, respectively. Future minimum lease commitments under these leases are \$4.9 million as of July 10, 2011.

11. Commitments and Contingencies

In the normal course of business, there are various legal claims in process, matters in litigation, and other contingencies. These include claims resulting from employment related claims and claims from guests or team members alleging illness, injury or other food quality, health, or operational concerns. To date, no claims of this nature, certain of which are covered by insurance policies, have had a material adverse effect on us. While it is not possible to predict the outcome of these suits, legal proceedings, and claims with certainty, management is of the opinion that adequate provision for potential losses associated with these matters has been made in the financial statements and that the ultimate resolution of these matters will not have a material adverse effect on our financial position and results of operations.

12. Share Repurchase

On August 12, 2010, the Company's board of directors re-authorized a repurchase of up to \$50 million of the Company's equity securities, which may be made from time to time in open market transactions or through privately negotiated transactions through December 31, 2011. This repurchase plan does not obligate the Company to acquire any specific number of shares or acquire shares over any specified period of time. There were 25,000 shares repurchased in second quarter 2011 with an average purchase price of \$33.57 per share for a total of \$840,000. There were 422,530 shares repurchased under the plan for the twenty-eight weeks ended July 10, 2011 with an average purchase price of \$24.56 per share for a total of \$10.4 million. Subsequent to July 10, 2011 and through August 10, 2011, we have purchased 154,000 shares for \$5.3 million.

13. Subsequent Events

In August 2011, the Company entered into a variable-to-fixed interest rate swap agreement referred to in *Note 8 Derivative and Other Comprehensive Income*.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Management's Discussion and Analysis of Financial Condition and Results of Operations provides a narrative of our financial performance and condition that should be read in conjunction with the accompanying condensed consolidated financial statements. All comparisons under this heading between 2011 and 2010 refer to the twelve and twenty-eight week periods ending July 10, 2011 and July 11, 2010, respectively, unless otherwise indicated.

Overview

The following summarizes the operational and financial highlights during the twelve and twenty-eight weeks of fiscal 2011:

- *New Restaurant Openings.* We opened six and seven company-owned restaurant during the twelve and twenty-eight weeks ended July 10, 2011, respectively, versus one and four opened in the same periods in 2010. We plan to open up to five additional company-owned restaurants in 2011. We believe all remaining 2011 restaurant openings will be funded from our operating cash flows.
- *Comparable Restaurant Sales.* For the twelve weeks ended July 10, 2011, the 303 restaurants in our current comparable base experienced a 3.1% increase in sales from these same restaurants in the same period last year. This increase was driven by a 4.5% increase in average guest check, offset by a 1.4% decrease in guest count. For the twenty-eight weeks ended July 10, 2011, the restaurants in our comparable base experienced a 2.4% increase in sales from the same period last year. This increase was driven by a 2.5% increase in average guest check, offset by a 0.1% decrease in guest count.
- *Marketing Efforts.* We have executed a variety of revenue growth programs under our Project RED initiative during the first twenty-eight weeks of 2011. During the first quarter of 2011, we launched our Red Royalty loyalty program in all of our company-owned restaurants. After only two quarters, this program, which includes frequency rewards for guests, has already registered over 750,000 guests. We also implemented certain beverage programs including happy hour and beverage menu promotions that are aimed at increasing beverage sales, in particular alcoholic beverages, in our restaurants. In the second quarter of 2011, we completed a nationwide roll-out of our new tri-fold menu, which included a 1.5% price increase and features our beverages, appetizers, entrées, entrée combos and shareable desserts. Finally, we have continued our limited time offer (LTO) programs and national television media campaigns through the spring and summer of 2011. We believe many of these activities and their related impacts to our pricing and mix of offerings significantly contributed to the increases in our average guest check and margin contribution during 2011.
- *Food Costs.* As a percentage of restaurant revenue, we have seen an increase in cost of goods during the twelve and twenty-eight weeks ended July 10, 2011, in particular ground beef. Ground beef, which we purchase on the spot market,

12

[Table of Contents](#)

continues to experience significantly higher prices than previous years. We expect ground beef pricing will continue to be high throughout 2011. In addition, other factors continue to influence commodity prices, which will continue to have a negative impact on our costs of sales and profitability overall.

- *Labor.* Labor costs as a percentage of restaurant revenue decreased 1.8% and 1.5% for the twelve and twenty-eight weeks ended July 10, 2011 from the same periods in 2010. These decreases were primarily driven by the leverage from our higher average guest check and focus on increased productivity and lower wage levels.
- *Operating Expense Initiatives.* All other operating expense categories saw declines as a percent of restaurant revenue in second quarter 2011 primarily due to leverage from higher revenues and expense management activities under Project RED. We expect, in general, to see lower expenses as a percent of restaurant revenue in 2011 compared to 2010.

In view of the foregoing, the Company continues to make every effort to manage controllable costs and streamline operations, while our restaurant teams focus on driving traffic through the quality and value of our guest experience. Our efforts are expected to result in significant free cash flow, the majority of which may be used to reduce outstanding indebtedness and/or maintain the flexibility to opportunistically repurchase some of our common stock during the remainder of 2011 and execute our long term strategic initiatives.

Results of Operations

Operating results for each period presented below are expressed as a percentage of total revenues, except for the components of restaurant operating costs, which are expressed as a percentage of restaurant revenue.

This information has been prepared on a basis consistent with our audited 2010 annual financial statements and, in the opinion of management, includes all

adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the information for the periods presented. Our operating results may fluctuate significantly as a result of a variety of factors, and operating results for any period presented are not necessarily indicative of results for a full fiscal year.

Restaurant revenue during the twelve weeks ended July 10, 2011, which is comprised almost entirely of food and beverage sales, increased by \$14.1 million compared to second quarter 2010. Sales in our comparable restaurant base experienced a sales increase of approximately \$6.1 million or 3.1% during the second quarter 2011. This increase was primarily the result of a 4.5% increase in average guest check partially offset by a 1.4% decrease of guest counts. This net increase, we believe, was driven by a combination of our second quarter menu price increase, the nationwide rollout of our tri-fold menu, the Red Royalty loyalty program,

[Table of Contents](#)

and our second quarter LTO promotion and national cable television media campaign. Sales for non-comparable restaurants contributed an increase of \$10.0 million, primarily all of which was attributed to sales from restaurants opened after the second quarter of 2010.

Restaurant revenue for the twenty-eight week period ended July 10, 2011, increased \$28.2 million or 6.1% from the same period in 2010. Sales in our comparable restaurant base experienced a sales increase of approximately \$11.2 million or 2.4% for the period. This was primarily the result of a 2.5% increase in the average guest check partially offset by a 0.1% decrease in guest counts. Sales for non-comparable restaurants contributed an increase of \$21.5 million, of which \$19.8 million was attributable to restaurants that opened after the second quarter of 2010.

Average weekly sales volumes represent the total restaurant revenue, before discounts, for a population of restaurants in both a comparable and non-comparable category for each time period presented divided by the number of operating weeks in the period. Comparable restaurant average weekly sales volumes include those restaurants that are in the comparable base at the end of each period presented. At the end of the second quarter 2011, there were 303 comparable restaurants compared to 290 comparable restaurants at the end of the second quarter 2010. Non-comparable restaurants presented include those restaurants that had not yet achieved the five full quarters of operations during the periods presented. At the end of the second quarter 2011, there were 18 non-comparable restaurants versus 19 at the end of the second quarter 2010. Fluctuations in average weekly sales volumes for comparable restaurants reflect the effect of same store sales changes as well as the performance of new restaurants entering the comparable base during the period.

Franchise royalties and fees, which consist primarily of royalty income and initial franchise fees, increased 7% for both the twelve and twenty-eight weeks ended

July 10, 2011, respectively. The twelve and twenty-eight week increase is primarily attributable to the increased sales at franchise locations and four new franchise locations opened since July 11, 2010. Additionally, our franchisees reported that comparable restaurant sales increased 2.6% for U.S. restaurants and increased 3.4% for Canadian restaurants for the second quarter of 2011 compared to the second quarter of 2010. For the twenty-eight weeks ended July 10, 2011, our franchisees reported that comparable restaurant sales for U.S. restaurants increased 2.0% and Canadian restaurants increased 0.8% from the twenty-eight week period ended July 11, 2010.

Other revenue consists primarily of gift card breakage. We recognize restaurant revenue when a gift card is redeemed by a guest. Gift card breakage revenue is recognized if the likelihood of gift card redemption is remote and we determine that there is not a legal obligation to remit the unredeemed gift card balance to the relevant jurisdiction. We base the gift card breakage rate upon specific historical redemption patterns. We recognize gift card breakage by applying our estimate of the rate of gift card breakage over the period of estimated performance. We recognized \$438,000 of third-party gift card revenue as an initial cumulative program adjustment during the first quarter 2011 for gift card sales sold in third party retail locations. We recognized \$3.5 million of breakage revenue as an initial cumulative program adjustment during the first quarter 2010 for gift cards sold in our restaurants. We recognized \$304,000 and \$200,000 million respectively, of gift card breakage for the twelve weeks ended July 10, 2011 and July 11, 2010. We recognized \$1.1 million and \$4.0 million (inclusive of the initial cumulative adjustments) respectively, of gift card breakage for the twenty-eight weeks ended July 10, 2011 and July 11, 2010.

Cost of sales, comprised of food and beverage expenses, are variable and generally fluctuate with sales volume. For the twelve weeks ended July 10, 2011, cost of sales as a percentage of restaurant revenue increased 0.6%, or \$4.9 million. This increase was driven by a 0.9% increase in higher commodity costs, in particular, ground beef, steak fries and cheese and a 0.6% increase in higher cost food items resulting in the change in product mix from the introduction of our new menu which features our beverages, appetizers, entrées, entrée combos, and shareable desserts. These increases were partially offset by

15

Table of Contents

a 0.9% decrease due to the leverage of our higher average guest check.

For the twenty-eight weeks ended July 10, 2011, cost of sales as a percentage of restaurant revenue increased 0.7% and \$10.2 million from the twenty-eight weeks ended July 11, 2010; this increase was driven by 1.1% increase in commodity costs, including ground beef, steak fries, cheese and produce and a 0.3% increase related to the introduction of our new menu items. These increases were partially offset by a 0.8% decrease due to the leverage of our higher average guest check.

Labor

As a percent of restaurant revenue	33.3%	35.1%		(1.8)%	33.9%	35.4%	(1.5)%

Labor costs include restaurant hourly wages, fixed management salaries, stock-based compensation, bonuses, taxes, and benefits for restaurant team members. For the twelve weeks ended July 10, 2011, labor costs as a percentage of restaurant revenue decreased 1.8%. This decrease was primarily driven by an approximate 1.5% decrease due to the leverage of our higher average guest check on our fixed labor costs, including manager salaries, a 0.5% decrease in overall wages due to a focus on increased productivity and lower wage levels. These decreases were offset by an approximate 0.3% increase in payroll taxes specifically related to reduced HIRE Act payroll tax reductions realized in 2010.

For the twenty-eight weeks ended July 10, 2011, labor as a percentage of restaurant revenue decreased 1.5% from the twenty-eight weeks ended July 11, 2010. This decrease is driven by the leverage of our higher guest check as well as increased productivity at all team member levels. These decreases were partially offset by higher payroll taxes, specifically related to reduced HIRE Act payroll tax reductions realized in 2010.

	July 10, 2011	July 11, 2010			July 10, 2011	July 11, 2010	Percent Change
Operating	\$ 28,981	\$ 28,976		0.0%	\$ 67,742	\$ 67,615	0.2%
As a percent of restaurant revenue	13.7%	14.6%		(0.9)%	13.7%	14.5%	(0.8)%

Operating costs include variable costs such as restaurant supplies, energy costs, and other fixed costs such as repairs and maintenance. For the twelve and twenty-eight weeks ended July 10, 2011, operating costs as a percentage of restaurant revenue decreased 0.9% and 0.8% respectively, over prior year. Contributing to the twelve week decrease as a percentage of restaurant revenue was a combination of 0.6% leverage from higher restaurant revenue and 0.3% decrease in service costs. Contributing to the twenty-eight week decrease was a combination of 0.5% leverage from higher restaurant revenue and a 0.2% decrease in service and maintenance expenses.

Occupancy

(In thousands, except percentages)	Twelve Weeks Ended			Percent Change	Twenty-eight Weeks Ended		
	July 10, 2011	July 11, 2010			July 10, 2011	July 11, 2010	Percent Change
Occupancy	\$ 14,929	\$ 14,579		2.4%	\$ 34,757	\$ 34,287	1.4%
As a percent of restaurant revenue	7.0%	7.4%		(0.4)%	7.0%	7.4%	(0.4)%

Occupancy costs include fixed rents, percentage rents, common area maintenance charges, real estate and personal property taxes, general liability insurance, and other property costs. Our occupancy costs generally increase with increases in sales volume from contingent rents or the addition of new restaurants, but decline as a percentage of restaurant revenue as we leverage our fixed costs. For the twelve and twenty-eight weeks ended July 10, 2011, the decrease as a percentage of restaurant revenue was driven by the leverage of higher sales volumes on our primarily fixed rents.

Depreciation and Amortization

(In thousands, except percentages)	Twelve Weeks Ended			Twenty-eight Weeks Ended		
	July 10, 2011	July 11, 2010	Percent Change	July 10, 2011	July 11, 2010	Percent Change
Depreciation and amortization	\$ 12,634	\$ 13,185	(4.2)%	\$ 29,745	\$ 30,436	(2.3)%
As a percent of total revenues	5.9%	6.5%	(0.6)%	5.9%	6.4%	(0.5)%

Depreciation and amortization includes depreciation on capital expenditures for restaurants and corporate assets as well as amortization of acquired intangible assets and liquor licenses. Depreciation and amortization expense as a percentage of revenue for the twelve and twenty-eight weeks ended July 10, 2011, decreased which was driven by leverage from higher restaurant sales volumes on these fixed expenses.

Selling, General, and Administrative

(In thousands, except percentages)	Twelve Weeks Ended			Twenty-eight Weeks Ended		
	July 10, 2011	July 11, 2010	Percent Change	July 10, 2011	July 11, 2010	Percent Change
Selling, general, and administrative	\$ 24,540	\$ 20,008	22.7%	\$ 56,582	\$ 50,843	11.3%
As a percent of total revenues	11.4%	9.9%	1.5%	11.3%	10.7%	0.6%

Selling, general, and administrative costs include all corporate and administrative functions that support our existing restaurant operations, our franchises, and provide infrastructure to facilitate our future growth. Components of this category include corporate management, supervisory and staff salaries, bonuses, marketing costs, stock-based compensation and related employee benefits, travel, information systems, training, office rent, franchise administrative support, board of directors expenses, legal, leadership conference, and professional and consulting fees. For the twelve weeks ended July 10, 2011, the increase of \$4.5 million is due to increased marketing and advertising expense of \$1.3 million, \$1.2 million increase in accrued performance based bonuses, \$900,000 in severance charges related to our leadership team changes, \$675,000 in expenses related to infrastructure investments, and \$455,000 in legal and board/governance expenses.

For the twenty-eight weeks ended July 10, 2011, selling, general, and administrative costs increased 11.3%, or \$5.7 million, due to a \$2.3 million increase in accrued performance based bonuses, \$1.7 million in severance charges related to our reduction in force and executive leadership changes, \$1.3 million in legal and board/governance expenses, and \$1.3 million in expenses related to infrastructure investments. These increases were offset by a \$1.0 million decrease in marketing costs primarily driven by lower spending on television advertising.

Pre-opening Costs

(In thousands, except percentages)	Twelve Weeks Ended			Twenty-eight Weeks Ended		
	July 10, 2011	July 11, 2010	Percent Change	July 10, 2011	July 11, 2010	Percent Change
Pre-opening costs	\$ 1,516	\$ 375	NM	\$ 2,177	\$ 1,252	73.9%
As a percent of total revenues	0.7%	0.2%	0.5%	0.4%	0.3%	0.1%
Average per restaurant pre-opening costs	\$ 304	\$ 288	5.6%	\$ 294	\$ 265	10.1%

Pre-opening costs, which are expensed as incurred, consist of the costs of labor, hiring and training the initial work force for our new restaurants, travel expenses for our training teams, the cost of food and beverages used in training, marketing costs, lease costs incurred prior to opening, and other direct costs related to the opening of new restaurants. Pre-opening costs for the twelve weeks ended July 10, 2011, and July 11, 2010, reflect the opening of six and one new restaurants, respectively, and a 5.6% increase in average cost per restaurant. The increase in the average restaurant pre-opening costs was driven primarily by increased rent, higher wages and travel. For the twenty-eight weeks ended July 10, 2011, the increase in the average per restaurant opening costs was driven by increased rent, offset by decreases in wages and supplies costs.

Interest Expense, net

Interest expense, net was \$1.5 million and \$1.3 million for the twelve weeks ended July 10, 2011, and July 11, 2010, respectively and \$2.8 million and \$3.1 million for the twenty-eight weeks ended July 10, 2011, and July 11, 2010, respectively. Interest expense increased 17.2% and decreased 10.0% over the quarter and year-to-date prior year period, respectively. The increase for the twelve weeks ended July 10, 2011 was primarily due to the write off of approximately \$200,000 of debt issuance costs related to our former credit facility. The decrease for the twenty-eight weeks ended July 10, 2011 is due to lower debt balances during second quarter 2011. Our weighted average interest rate was 3.0% and 2.9% for the twelve and twenty-eight weeks ended July 10, 2011, versus 2.9% and 3.0% for the twelve and twenty-eight weeks ended July 11, 2010.

Provision for Income Taxes

The effective income tax rate for the second quarter 2011 was 8.8%, compared to 9.1% for the second quarter 2010. The effective income tax rate for the twenty-eight weeks ended July 10, 2011, and July 11, 2010, was 10.3% and 13.6%, respectively. The 2011 effective tax rate decrease over prior year is primarily due to more favorable general business tax credits, primarily the FICA Tip Tax Credit, as well as the 2011 HIRE Act Tax Credit as a percent of current year income before tax. We anticipate that our full year fiscal 2011 effective tax rate will be approximately 10.0%.

Liquidity and Capital Resources

General. Cash and cash equivalents increased \$24.6 million to \$42.5 million at July 10, 2011, from \$17.9 million at the beginning of the fiscal year. This increase was due primarily to \$54.2 million of cash provided by operating activities, offset by \$19.5 million used for the construction of new restaurants and expenditures for facility infrastructure improvements, \$10.4 million used for share repurchases. We expect to continue to reinvest available cash flows from operations to develop new restaurants or enhance existing restaurants, pay down debt, and maintain the flexibility to opportunistically repurchase some of our common stock and execute our long term strategic

initiatives.

Financial Condition and Future Liquidity. We require capital principally to grow the business through new restaurant construction, as well as to maintain, improve and refurbish existing restaurants, provide support for infrastructure needs, and for general operating purposes. In addition, we have and may continue to use capital to repurchase our common stock and execute our long term strategic initiatives. Our primary short-term and long-term sources of liquidity are expected to be available cash on hand, cash flows from operations and our revolving credit facility. Based upon current levels of operations and anticipated growth, we expect that cash flows from operations and cash on hand will be sufficient to meet debt service, capital expenditures, and working capital requirements for at least the next twelve months. The Company and the restaurant industry in general maintain relatively low levels of accounts receivable and inventories, and vendors generally grant trade credit for purchases, such as food and supplies. We also continually invest in our business through the addition of new restaurants and refurbishment of existing restaurants, which are reflected as long-term assets and not as part of working capital. We expect to open up to an additional five restaurants in 2011. We typically maintain current liabilities in excess of our current assets which results in a working capital deficit. We are able to operate with a substantial

[Table of Contents](#)

working capital deficit because restaurant sales are primarily conducted on a cash basis. Rapid turnover results in limited investment in inventories, and cash from sales is usually received before related accounts payable for food, supplies and payroll become due.

Credit Facility. On May 6, 2011, the Company amended and restated its existing credit facility to provide a more flexible capital structure and facilitate its growth plans. Borrowings under the amended credit agreement may be used by the Company to among other uses, repurchase shares of its capital stock or pay dividends within certain limits, to continue to finance restaurant construction, and for working capital and general corporate requirements. The amended credit facility is comprised of (i) a \$100 million revolving credit facility maturing on May 6, 2016 and (ii) a \$150 million term loan maturing on May 6, 2016, both with rates based on the London Interbank Offered Rate (LIBOR) plus 2.75% or base rate plus 1.75% (base rate is the highest of (a) the Prime Rate, (b) the Federal Funds Rate plus 0.50% and (c) LIBOR for an Interest Period of one month plus 1%). The amended credit agreement also allows, subject to lender participation, the Company to increase the revolving credit facility or term loan by up to an additional \$100 million in the future. As part of the credit agreement, the Company may also request the issuance of up to \$20 million in letters of credit, the outstanding amount of which reduces the net borrowing capacity under the revolving credit facility. The amended credit agreement requires the payment of an annual commitment fee based upon the unused portion of the credit facility. The credit facility's interest rates and the annual commitment rate are based on a financial leverage ratio, as defined in the credit agreement. The Company's obligations under the amended credit agreement are secured by second priority liens and security interests in substantially all of the assets of the Company, which includes the capital stock of subsidiaries of the Company. Additionally, the credit agreement includes a negative pledge on all tangible and intangible assets (including all real and personal property) with customary exceptions.

With regard to the term loan facility, we are required to repay principal amount of the term loan in consecutive quarterly installments which begin June 30, 2011, and end on the maturity date of the term loan. At July 10, 2011, we had \$148.1 million of borrowings outstanding under our term loan, and \$6.6 million of letters of credit outstanding under our revolving credit facility. There were no borrowings on the revolver. Loan origination costs associated with the credit facility and the net outstanding balance of costs related to the original and subsequent amendments to the credit facility are \$2.9 million and are included as deferred costs in other assets, net in the accompanying consolidated balance sheet as of July 10, 2011.

Covenants. We are subject to a number of customary covenants under our various credit agreements, including limitations on additional borrowings, acquisitions, stock repurchases, sales of assets, and dividend payments. In addition, we are required to maintain two financial ratios: a leverage ratio calculated as our debt outstanding including issued standby letters of credit divided by the last twelve months' earnings before interest, taxes, depreciation and amortization (EBITDA) adjusted for certain non-cash charges that will not result in cash payments in a subsequent period, any prepayment penalties incurred as a result of extraordinary debt extinguishment, certain pre-opening costs, unusual or non-recurring cash losses, net proceeds received from business interruption insurance, pro forma costs savings in connection with an acquisition, divestiture, restructuring or reorganization occurring prior to the time that Consolidated EBITDA is to be determined, cash or non-cash charges related to restructuring or cost reduction initiatives in an aggregate amount not to exceed a certain threshold, and non-cash gains and non-recurring or unusual cash gains for such period; and a fixed charge ratio calculated as our consolidated cash flow divided by our consolidated debt service obligations. As of July 10, 2011, we were in compliance with all covenants under our credit agreements.

Inflation

The primary inflationary factors affecting our operations are food, labor costs, energy costs, and materials used in the construction of new restaurants. A large number of our restaurant personnel are paid at rates based on the applicable minimum wage, and historically increases in the minimum wage have directly affected our labor costs. Many of our leases require us to pay taxes, maintenance, repairs, insurance, and utilities, all of which are generally subject to inflationary increases. We believe, that inflation did have a material negative impact on our financial condition and results during the second quarter of 2011, due primarily to increased food costs. Uncertainties related to fluctuations in costs, including energy costs, commodity prices, annual indexed wage increases and construction materials make it difficult to predict what impact, if any, continued inflation may have on our business during 2011. We expect commodity inflation to continue to impact our raw material cost for all of 2011.

Seasonality

Our business is subject to seasonal fluctuations. Historically, sales in most of our restaurants have been higher during the summer months and winter holiday season. Our quarterly and annual operating results and comparable restaurant sales may fluctuate significantly as a result of seasonality and other factors. Accordingly, results for any one quarter are not necessarily indicative of results to be expected for any other quarter or for any year and comparable restaurant sales for any particular future period may decrease.

[Table of Contents](#)

Off Balance Sheet Arrangements

Except for operating leases (primarily restaurant ground leases), we do not have any off balance sheet arrangements.

Critical Accounting Policies and Estimates

Critical accounting policies and estimates are those that we believe are both significant and that require us to make difficult, subjective or complex judgments, often because we need to estimate the effect of inherently uncertain matters. We base our estimates and judgments on historical experiences and various other factors that we believe to be appropriate under the circumstances. Actual results may differ from these estimates, including our estimates of future restaurant level cash flows, which are subject to the current economic environment, and we might obtain different estimates if we used different assumptions or conditions. We had no significant changes in our critical accounting policies and estimates since our last annual report. Our critical accounting estimates are contained in our annual report on Form 10-K for the year ended December 26, 2010.

Recent Accounting Pronouncements

In January 2010, the FASB issued an update regarding guidance over the disclosure requirements of fair value measurements. This update adds new requirements for disclosure about transfers into and out of Levels One and Two and also adds additional disclosure requirements about purchases, sales, issuances, and settlements relating to Level Three measurements. The guidance is effective beginning fiscal year 2010 for the disclosure requirements around Levels One and Two measurements, and is effective beginning fiscal year 2011 for the disclosure requirements around Level Three. This new guidance currently had no impact on the fair value disclosures of the Company, as there have been no transfers out of Levels One or Two.

In June 2011, the FASB finalized guidance on the Presentation of Comprehensive Income, which revises the manner in which entities present comprehensive income in their financial statements. The new guidance removes the presentation options and requires entities to report components of comprehensive income in either (1) a continuous statement of comprehensive income or (2) two separate but consecutive statements. Under the two-statement approach, the first statement would include components of net income, which is consistent with the income statement format used today, and the second statement would include components of other comprehensive income (OCI). This guidance is effective beginning after December 15, 2011.

Forward-Looking Statements

Certain information and statements contained in this report are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements include statements regarding our expectations, beliefs, intentions, plans, objectives, goals, strategies, future events or performance and underlying assumptions and other statements which are other than statements of historical facts, including, without limitation, statements that reflect the Company's current expectations regarding, among other things, future restaurant sales and results of operations, strategic initiatives, including Project RED, economic performance, liquidity and capital resources, anticipated new restaurant openings and funding sources for new restaurants, anticipated costs, including operating, commodity, labor and general and administrative costs, ability to fund capital expenditures, including new restaurant growth, and repay debt from cash flows, anticipated compliance with debt covenants, anticipated gift card breakage revenue, anticipated tax rates, advertising success, financial condition and achievements of the Company, and the Company's stock repurchase program. These statements may be identified, without limitation, by the use of forward-looking terminology such as "anticipate," "assume," "believe," "estimate," "expect," "intend," "plan," "project," "may," "will," "would" or comparable and similar terms or the negative thereof. Certain forward-looking statements are included in this Form 10-Q, principally in the sections captioned "Financial Statements" and "Management's Discussion and Analysis". All forward-looking statements included in this Form 10-Q are based on information available to the Company on the date hereof. Such statements speak only as of the date hereof and we undertake no obligation to update any such statement to reflect events or circumstances arising after the date hereof. These statements are based on assumptions believed by us to be reasonable, and involve known and unknown risks and uncertainties that could cause actual results to differ materially from those described in the statements. These risks and uncertainties include, but are not limited to, the following: our business objectives and strategic plans, including the strength of our long-term growth and profit, expense management and capital deployment opportunities; our strategies and initiatives, including Project RED and its objectives; our ability to open and operate additional restaurants in both new and existing markets profitably; the anticipated number of new restaurants and the timing of such openings; estimated costs of opening and operating new restaurants, including general and administrative, marketing and, franchise development costs; expected future revenues and earnings; comparable and non-comparable restaurant sales; results of operations; and future restaurant growth (both company-owned and franchised); anticipated restaurant operating costs, including commodity and food prices, labor and energy costs and selling, general and administrative expenses and ability to reduce overhead costs and improve efficiencies; anticipated advertising costs and plans to include television advertising to support 2011 LTO promotions and the success of our advertising and marketing activities and tactics, including our Red Royalty program and the effect on revenue and guest counts; our ability to attract

[Table of Contents](#)

new guests and retain loyal guests, and our new initiatives targeted at adult guests; any future price increases, and their impact on our revenue and profit; future capital deployment strategies, including potential share repurchases and debt refinancing, capital and anticipated expenditures including the amounts of such capital expenditures; our expectation that we will have adequate cash from operations and credit facility borrowings to reduce our debt and to meet all future debt service, capital expenditures, including new restaurant development, and working capital requirements in fiscal year 2011; anticipated compliance with debt covenants; the sufficiency of the supply of commodities and labor pool to carry on our business; anticipated restaurant closings and related impairment charges; anticipated interest and tax expense; impact of the adoption of new accounting standards on our financial and accounting systems and analysis programs; expectations regarding competition and our competitive advantages; expectations regarding consumer preferences and consumer discretionary spending; and other risk factors described from time to time in our SEC reports, including the Company's most recent Annual Report on Form 10-K for the fiscal year ended December 26, 2010, filed with the SEC on February 25, 2011.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Under our credit agreement in effect during second quarter 2011, we were exposed to market risk from changes in interest rates on borrowings, which bear interest at one of the following rates we select: an Alternate Base Rate (ABR), based on the Prime Rate plus 1.25% to 2.00%, or a LIBOR, based on the relevant one, three or six-month LIBOR, at our discretion, plus 2.25% to 3.00%. The spread, or margin, for ABR and LIBOR loans under the credit agreement is subject to quarterly adjustment based on our then current leverage ratio, as defined by the credit agreement. As of July 10, 2011, we had \$148.1 million of borrowings subject to variable interest rates. A plus or minus 1.0% change in the effective interest rate applied to these loans would have resulted in pre-tax interest expense fluctuation of \$1,481,000 on an annualized basis.

Our objective in managing exposure to interest rate changes is to limit the impact of interest rate changes on earnings and cash flows and to lower overall borrowing costs. To achieve this objective, we have used an interest rate swap and may use other means such as caps to manage our net exposure to interest rate changes related to our borrowings. As appropriate, on the date derivative contracts are entered into, we designate derivatives as either a hedge of the fair value of a recognized asset or liability or of an unrecognized firm commitment (fair value hedge), or a hedge of a forecasted transaction or of the variability of cash flows to be received or paid related to a recognized asset or liability (cash flow hedge).

Primarily all of our transactions are conducted, and our accounts are denominated, in United States dollars. Accordingly, we are not exposed to significant foreign currency risk.

Many of the food products purchased by us are affected by changes in weather, production, availability, seasonality and other factors outside our control. In an effort to control some of this risk, we have entered into some fixed price product purchase commitments some of which exclude fuel surcharges and other fees. In addition, we believe that almost all of our food and supplies are available from several sources, which helps to control food commodity risks.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's reports under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the management of Red Robin Gourmet Burgers, Inc. (Management), including the Company's Chief Executive Officer (CEO) and Principal Accounting Officer (PAO), as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, Management recognizes that any controls and procedures, no matter how well designed and operated, can only provide reasonable assurance of achieving the desired control objectives. As a result, the Company's CEO and PAO have concluded that, based upon the evaluation of disclosure controls and procedures (as defined in Rule 13a-15(e) or 15d-15(e) under the Exchange Act), the Company's disclosure controls and procedures were effective as of the end of the period covered by this report.

The Company's Management, with the participation of the CEO and PAO, have evaluated whether any change in the Company's internal control over financial reporting occurred during the fiscal quarter ended July 10, 2011. Based on that evaluation, Management concluded that there has been no change in the Company's internal control over financial reporting during the fiscal quarter ended July 10, 2011, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

On June 20, 2011, the Company was served with a wage and hour class action lawsuit, *Kevin McConnell v. Red Robin International, Inc.* The lawsuit was filed in United States District Court in the Northern District of California in the San Francisco division. The claims are 1) failure to provide meal and rest periods; 2) failure to compensate employees for all hours worked; 3) failure to furnish wage and hour statements; 4) failure to maintain employee time records; 5) unfair competition; 6) waiting time penalties and 7) claims under the Private Attorney General Act. Red Robin filed its Answer on July 11, 2011. Although we plan to vigorously defend against this suit, we cannot predict the outcome of this lawsuit or whether we may be required to pay damages, settlement costs, legal costs or other amounts that may not be covered by insurance.

In December 2009, the Company was served with a purported class action lawsuit, *Marcos R. Moreno v. Red Robin International, Inc.* The case was filed in Superior Court in Ventura County, California and has been removed to Federal District Court for the Central District of California under the Class Action Fairness Act of 2005 ("CAFA"). Red Robin filed its Answer and Affirmative Defenses on February 10, 2010. The lawsuit alleges failure to pay wages and overtime, failure to provide rest and meal breaks or to pay compensation in lieu of such breaks, failure to pay timely wages on termination, failure to provide accurate wage statements, and unlawful business practices and unfair competition. Plaintiff is seeking compensatory and special damages, restitution for unfair competition, premium pay, penalties and wages under the Labor Code, and attorneys' fees, interest and costs. On March 24, 2010, the Court granted a stay of the case pending the outcome of a California case currently before the California Supreme Court for review. That case involves similar allegations regarding rest and meal breaks. It is anticipated that the California Supreme Court will provide useful guidance on rest and meal breaks when the opinion in that case is issued. We believe the *Moreno* suit is without merit. Although we plan to vigorously defend against this suit, we cannot predict the outcome of this lawsuit or whether we may be required to pay damages, settlement costs, legal costs or other amounts that may not be covered by insurance.

In the normal course of business, there are various other claims in process, matters in litigation and other contingencies. These include claims resulting from employment related claims and claims from guests or team members alleging illness, injury or other food quality, health or operational concerns. To date, no claims of these types of litigation, certain of which are covered by insurance policies, have had a material effect on us. While it is not possible to predict the outcome of these other suits, legal proceedings and claims with certainty, management is of the opinion that adequate provision for potential losses associated with these other matters has been made in the financial statements and that the ultimate resolution of these other matters will not have a material adverse effect on our financial position and results of operations.

Item 1A. Risk Factors

A description of the risk factors associated with our business is contained in Item 1A, "Risk Factors," of our Annual Report on Form 10-K for the fiscal year ended December 26, 2010 filed with the SEC on February 25, 2011. One additional risk factor is added at the section entitled "Risks Related to Our Business" under Item 1A, to read in its entirety as stated below. This cautionary statement is to be used as a reference in connection with any forward-looking statements. The factors, risks and uncertainties identified in this cautionary statement are in addition to those contained in any other cautionary statements, written or oral, which may be made or otherwise addressed in connection with a forward-looking statement or contained in any of our subsequent filings with the SEC.

If we do not successfully manage the transitions associated with our new executive officers, there could be an adverse impact on our revenues, operations or results of operations.

Within the last year, we have appointed a new chief executive officer, chief financial officer and chief marketing officer. As a result, these officers and the rest of the executive team have a limited history of working together. Our success depends on our ability to fully integrate our new executives into our business and their ability to lead and implement our strategies and initiatives. If we are unable to effect a smooth transition with the new executives and to successfully integrate them, or if these new executives fail to perform effectively, our business, financial condition, and results of operations could be adversely affected.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the fiscal quarter ended July 10, 2011, the Company did not have any sales of securities in transactions that were not registered under the Securities Act of 1933, as amended, that have not been reported in a Form 8-K. The table below provides a summary of the Company's purchases of its own common stock during second quarter 2011.

(1) In August 2010, the Company's board of directors re-authorized a repurchase of up to \$50.0 million of the Company's equity securities. Under this authorization, repurchases of our common stock may be made from time to time in open market transactions and through privately negotiated transactions through December 31, 2011. This authorization may be modified, suspended or terminated at any time. The timing and number of shares repurchased pursuant to the share repurchase authorization will be subject to a number of factors, including current market conditions, legal constraints and available cash or other sources of funding. As of July 10, 2011, the Company purchased 422,530 shares under the plan for a total of \$10.4 million.

EMPLOYMENT AGREEMENT

This EMPLOYMENT AGREEMENT (this "Agreement") is made as of this 1st day of August, 2011, by and between RED ROBIN GOURMET BURGERS, INC., a Delaware corporation (the "Company"), and Denny Post ("Executive").

RECITAL

WHEREAS, the parties desire to enter into this Agreement setting forth the terms and conditions for the employment relationship between Executive and the Company.

NOW, THEREFORE, in consideration of the promises and mutual covenants and agreements herein contained and intending to be legally bound hereby, the Company and Executive hereby agree as follows:

AGREEMENT

1. Employment Period. The Company, through its wholly-owned subsidiary, Red Robin International, Inc., a Nevada corporation ("RRI"), hereby employs Executive, and Executive hereby accepts such employment, upon the terms and conditions hereinafter set forth. The term of Executive's employment hereunder shall be deemed to have commenced on August 1, 2011 (the "Effective Date"), and shall continue indefinitely, subject to termination as provided herein (such term being referred to herein as the "Employment Period"). Executive and the Company acknowledge that, except as may otherwise be provided by this Agreement or under any other written agreement between Executive and the Company, the employment of Executive by the Company and RRI is "at will" and Executive's employment may be terminated by either Executive or the Company at any time for any reason, or no reason. RRI shall be the "employer" for tax, legal reporting, payroll processing and similar purposes.

2. Position and Duties.

(a) During the Employment Period, Executive shall be employed as and hold the title of Chief Marketing Officer of the Company, with such duties and responsibilities that are customary for public company chief marketing officer positions. In addition, the Chief Executive Officer may assign Executive such duties and responsibilities that are not substantially inconsistent with her position as Chief Marketing Officer of the Company.

(b) During the Employment Period, Executive shall devote substantially all of her skill, knowledge and working time to the business and affairs of the Company and its subsidiaries; provided that in no event shall this sentence prohibit Executive from performing personal and charitable activities and any other activities approved by the Board, so long as such activities do not materially and adversely interfere with Executive's duties for the Company and are in compliance with the Company's policies. Executive shall perform her services at the Company's headquarters, presently located in Greenwood Village, Colorado. Executive shall use her best efforts to carry out her responsibilities under this Agreement faithfully and efficiently.

3. Compensation.

(a) Base Salary. During the Employment Period, Executive shall receive from the Company an annual base salary ("Annual Base Salary") at the rate of \$385,000.00, with such salary to be adjusted at such times, if any, and in such amounts as recommended by the Chief Executive Officer and approved by the Board or a committee thereof. Executive's Annual Base Salary shall be subject to annual review by the Chief Executive Officer and the Board during the Employment Term. The Company shall pay the Annual Base Salary to Executive in accordance with the Company's and RRI's normal payroll policy.

(b) Signing Bonus. Within ten business days following the Effective Date, the Company shall pay Executive a signing bonus in an amount of \$125,000.00 (the "Signing Bonus"); provided, however, Executive shall be required to repay to the Company the gross amount of the Signing Bonus (\$125,000.00) within forty-five days of her termination date if, prior to the first anniversary of the Effective Date, Executive resigns without Good Reason or is terminated for Cause.

(c) Annual Incentive Compensation. In addition to the Annual Base Salary, Executive is eligible to receive an annual cash bonus each fiscal year during the Employment Period as determined in accordance with the Company's annual incentive plan and as approved by the Compensation Committee (the "Annual Bonus"). For the 2011 fiscal year, the Annual Bonus shall be targeted at 70% of Executive's Annual Base Salary (pro-rated for 2011 and other partial years of employment). The actual amount of any Annual Bonus shall depend on the level of achievement of the applicable performance criteria established with respect to the Annual Bonus by the Board and the Compensation Committee in their sole discretion.

(d) Equity Awards. On the Effective Date, Executive will receive equity awards pursuant to the Company's Second Amended and Restated 2007 Performance Incentive Plan (the "Plan") as follows: (i) a non-qualified stock option having a grant date fair value of \$123,000, which shall vest as follows: (A) 25% on the one-year anniversary of the Effective Date; and (B) thereafter in equal monthly installments over the following three years; (ii) time-vested restricted stock units having a grant date target value of \$61,600, of which 25% shall vest on each of the first, second, third and fourth anniversaries of the Effective Date; and (iii) a long-term incentive cash award with a target payout amount of \$123,200, which shall be earned based on the Company's attainment of EBITDA and ROIC performance objectives. All future annual equity awards granted to Executive shall be contingent on the attainment of certain performance criteria established with respect to such award by the Board and the Compensation Committee in their sole discretion.

(e) Other Benefits.

(i) Welfare and Benefit Plans. During the Employment Period: (A) Executive shall be entitled to participate in all incentive, savings and retirement plans, practices, policies and programs of the Company and RRI to the same extent as other senior executive employees, including, among other things, participation in the Company's Non-Qualified Deferred Compensation Plan; and (B) Executive and/or Executive's family, as the case may be, shall be eligible to participate in, and shall receive all benefits under, all welfare benefit plans, practices, policies and programs provided by the Company and RRI (including, to the extent provided, without limitation, medical, prescription, dental, disability, salary continuance, employee life insurance, group life insurance, accidental death and travel accident insurance plans and programs) to the same extent as other senior executive employees.

(ii) Expenses. During the Employment Period, Executive shall be entitled to receive prompt reimbursement for all reasonable travel and other expenses incurred by Executive in carrying out Executive's duties under this Agreement, provided that Executive complies with the policies, practices and procedures of the Company and RRI for submission of expense reports, receipts or similar documentation of the incurrence and purpose of such expenses (collectively referred to herein as "Expense Policies").

(iii) Vacation. Executive shall be entitled to no less than three (3) weeks of paid vacation and/or paid time off per calendar year (as prorated for partial years) in accordance with the Company's policies on accrual and use applicable to executive officers as in effect from time to time.

(iv) Car Allowance. During the Employment Period, Executive shall be paid a monthly car allowance in the gross amount of \$833.33.

(v) Moving and Relocation Expenses. It is expected that Executive shall reside permanently in the Denver, Colorado metropolitan area on or

before the Effective Date. Employer will pay on Executive's behalf relocation expenses as set forth below (inclusive of the Relocation Gross-Up (as defined below)) ("Relocation Expenses"), subject to Employer's customary payroll practices and legal requirements regarding withholding. The Company shall also provide Executive with a tax gross-up for applicable federal, state and local taxes paid by Executive in connection with

the reimbursement provided under this Section 3(e)(v) and the tax gross-up payment itself (the "Relocation Gross-Up"). The Relocation Gross-Up shall be paid no later than April 15th of the year following the year to which such taxable income relates. The Relocation Expenses shall include (A) any brokerage commissions incurred in the sale of Executive's current home (up to 6% of the sales price of Executive's current home), (B) new loan financing fees, (C) up to one "point" on a new mortgage loan, or (D) other costs associated with buying or selling a home in an amount not to exceed \$30,000. In addition, Relocation Expenses shall be provided for (A) reasonable expenses actually incurred by Executive to move personal effects from Seattle, Washington to the Denver, Colorado metropolitan area, (B) reasonable costs incurred for four round trips to Denver, Colorado from Seattle, Washington to search for a home and (C) reimbursement for rent, electricity, gas and water expenses actually incurred by Executive for interim housing in the Denver, Colorado metropolitan area for a period of up to twelve months commencing on the Effective Date (or such earlier date as Executive is no longer incurring such interim housing expenses). Notwithstanding the foregoing, Relocation Expenses shall not include "loss on sale" protection for Executive's current home. The Company's total reimbursement obligation in respect of the Relocation Expenses shall not exceed \$425,000. If Executive terminates her employment without Good Reason or is terminated by the Company for Cause prior to the first anniversary of the Effective Date, Executive shall be required to repay the Company the gross amount of the Relocation Expenses incurred pursuant to this Section 3(e)(v) within forty-five days of the termination date. Executive shall submit to the Company receipts and other applicable documentation evidencing the Relocation Expenses, and the Company shall remit payment for such Relocation Expenses in accordance with its standard accounts payable practices, but in any event no later than the last day of the calendar year following the calendar year in which the expense was incurred. In no event shall Reimbursement Expenses incurred in one year affect reimbursements or payments or benefits due or payable in any other calendar year.

(f) Reservation of Rights. The Company reserves the right to modify, suspend or discontinue any and all of the employee benefit plans, practices, policies and programs referenced in subsections (e)(i), (ii) and (iii) above at any time without recourse by Executive so long as such action is taken with respect to senior executives generally and does not single out Executive.

4. Termination.

(a) Death or Disability. Executive's employment and all associated rights and benefits shall terminate automatically upon Executive's death. If the Company determines in good faith that the Disability of Executive has occurred, it may give to Executive written notice of its intention to terminate Executive's employment. In such event, Executive's employment with the Company shall terminate effective on the 30th day after receipt of such notice by Executive, provided that, within the 30 days after such receipt, Executive shall not have returned to full-time performance of her duties.

(b) Cause. The Company may terminate Executive's employment at any time for Cause.

(c) By the Company without Cause. The Company may terminate Executive's employment at any time without Cause.

(d) By Executive for Good Reason. Executive may terminate her employment at any time for Good Reason by delivery of not less than fourteen (14) days' advance written notice to the Company of the effective date of termination.

(e) Change in Control. Executive's employment may be terminated within twenty-four (24) months following a Change in Control Event by the Company without Cause or by Executive for Good Reason.

(f) Obligations of the Company Upon Termination.

(i) Death; Disability; For Cause; Resignation without Good Reason. If Executive's employment is terminated by reason of Executive's Death or Disability or by the Company for Cause or Executive resigns without Good Reason, this Agreement shall terminate without further obligations to Executive or her legal representatives under this Agreement, other than for (A) payment of the sum of (1) Executive's Annual Base Salary through the date of termination to the extent not theretofore paid, and (2) any accrued vacation pay, in each case to the extent not theretofore paid (the sum of the amounts described in clauses (1) and (2) shall be hereinafter referred to as the "Accrued Obligations"), which Accrued Obligations shall be paid to Executive or her estate or beneficiary, as applicable, in a lump sum in cash within 30 days of the effective date of termination; and (B) payment to Executive or her estate or beneficiary, as applicable, of any amounts due pursuant to the terms of any applicable employee benefit plans; provided, however, that as conditions precedent to receiving the payments and benefits provided for in this Section 4(f)(i) in the event of Executive's resignation (other than payment of the Accrued Obligations or payments or benefits due under employee benefit plans), Executive shall first execute and deliver to the Company and RRI a general release agreement in a form that is

satisfactory to the Company and RRI and all rights of Executive thereunder or under applicable law to rescind or revoke the release shall have expired no later than the 45 days after the date of termination. If Executive fails to timely execute the general release, all payments and benefits set forth in this Section 4(f)(i) (other than payment of the Accrued Obligations or payments or benefits due under employee benefit plans) shall be forfeited.

(ii) By the Company without Cause or by Executive for Good Reason (Before or Following a Change in Control) If, prior to the expiration of the stated term of this Agreement, the Company terminates Executive's employment for any reason other than for Cause or Executive terminates her employment for Good Reason (in either case before, or within twenty-four (24) months following a Change in Control), this Agreement shall terminate without further obligations to Executive other than:

(A) payment of Accrued Obligations through the effective date of termination in a lump sum in cash within 30 days of the effective date of termination; and

(B) continued payment of Executive's Annual Base Salary as in effect immediately prior to the date of termination (such payments to be made in accordance with the Company's normal payroll practices) for a period consisting of twelve (12) months following the effective date of termination (the "Severance Period");

provided, however, that as conditions precedent to receiving the payments and benefits provided for in this Section 4(f)(ii) (other than payment of the Accrued Obligations), Executive shall first execute and deliver to the Company and RRI a general release agreement in a form that is satisfactory to the Company and RRI, and all rights of Executive thereunder or under applicable law to rescind or revoke the release shall have expired no later than the 45 days after the date of termination. If Executive fails to timely execute the general release, all payments and benefits set forth in this Section 4(f)(ii) (other than the payment of the Accrued Obligations) shall be forfeited.

(iii) Exclusive Remedy. Executive agrees that the payments contemplated by this Section 4(f) shall constitute the exclusive and sole remedy for any termination of her employment, and Executive covenants not to assert or pursue any other remedies, at law or in equity, with respect to any termination of

employment; provided, however, that nothing contained in this Section 4(f)(iii) shall prevent Executive from otherwise challenging in a subsequent arbitration proceeding a determination by the Company that it was entitled to terminate Executive's employment hereunder for Cause.

(iv) Termination of Payments. Anything in this Agreement to the contrary notwithstanding, the Company shall have the right to terminate all payments and benefits owing to Executive pursuant to this Section 4(f) upon the Company's discovery of any breach or threatened breach by Executive of her obligations under the general release or Sections 5, 6, 7 and 8 of this Agreement.

(g) Survival of Certain Obligations Following Termination. Notwithstanding any other provision contained in this Agreement, the provisions in Sections 5 through 11 and 14 through 21 of this Agreement shall survive any termination of Executive's employment hereunder (but shall be subject to Executive's right to receive the payments and benefits provided under this Section 4).

5. Confidential Information. Except in the good-faith performance of her duties hereunder, Executive shall not disclose to any person or entity or use, any information not in the public domain, in any form, acquired by Executive while she was employed or associated with the Company or RRI or, if acquired following the termination of such association, such information which, to Executive's knowledge, has been acquired, directly or indirectly, from any person or entity owing a duty of confidentiality to the Company or RRI, relating to the Company or its business. Executive agrees and acknowledges that all of such information, in any form, and copies and extracts thereof are and shall remain the sole and exclusive property of the Company, and Executive shall on request return to the Company the originals and all copies of any such information provided to or acquired by Executive in connection with her association with the Company or RRI, and shall return to the Company all files, correspondence and/or other communications received, maintained and/or originated by Executive during the course of such association.

6. Covenant Not to Compete. Executive agrees that, for the period commencing on the Effective Date and ending twelve months after the date of termination of Executive's employment as Chief Marketing Officer (the "Restrictive Period"), Executive shall not, in the state of Colorado directly or indirectly, either for herself or for, with or through any other Person, own, manage, operate, control, be employed by, participate in, loan money to or be connected in any manner with, or permit her name to be used by, any business that, in the reasonable judgment of the Board, competes with the Company and its subsidiaries in the burger focused restaurant business (a "Competitive Activity"). In making its judgment as to whether any business is engaged in a Competitive Activity, the Board shall act in good faith, and shall first provide Executive with a reasonable opportunity to present such

information as Executive may desire for the Board's consideration. For purposes of this Agreement, the term "participate" includes any direct or indirect interest, whether as an officer, director, employee, partner, sole proprietor, trustee, beneficiary, agent, representative, independent contractor, consultant, advisor, provider of personal services, creditor, owner (other than by ownership of less than five percent of the stock of a publicly-held corporation whose stock is traded on a national securities exchange (a "Public Company")).

7. No Interference. During the Restrictive Period, Executive shall not, without the prior written approval of the Company, directly or indirectly through any other Person (a) induce or attempt to induce any employee of the Company or RRI at the level of Director or higher to leave the employ of the Company or RRI, or in any way interfere with the relationship between the Company or RRI and any employee thereof, (b) hire any Person who was an employee of the Company or RRI at the level of Director or higher within twelve months after such Person's employment with the Company or RRI was terminated for any reason or (c) induce or attempt to induce any supplier or other business relation of the Company or RRI to cease doing business with the Company or RRI, or in any way interfere with the relationship between any such supplier or business relation and the Company or RRI.

8. Return of Documents. In the event of the termination of Executive's employment for any reason, Executive shall deliver to the Company all of (a) the property of the Company or any of its subsidiaries, and (b) non-personal documents and data of any nature and in whatever medium of the Company or any of its subsidiaries, and she shall not take with him any such property, documents or data or any reproduction thereof, or any documents containing or pertaining to any Confidential Information.

9. Reasonableness of Restrictions. Executive agrees that the covenants set forth in Sections 5, 6, 7 and 8 are reasonable with respect to their duration, geographical area and scope. In the event that any of the provisions of Sections 5, 6, 7 and 8 relating to the geographic or temporal scope of the covenants contained therein or the nature of the business or activities restricted thereby shall be declared by a court of competent jurisdiction to exceed the maximum restrictiveness such court deems enforceable, such provision shall be deemed to be replaced herein by the maximum restriction deemed enforceable by such court.

10. Injunctive Relief. The parties hereto agree that the Company would suffer irreparable harm from a breach by Executive of any of the covenants or agreements contained herein, for which there is no adequate remedy at law. Therefore, in the event of the actual or threatened breach by Executive of any of the provisions of this Agreement, the Company, or its respective successors or assigns, may, in addition and supplementary to other rights and remedies existing in their favor, apply to any court of law or equity of competent jurisdiction for specific performance, injunctive or other relief in order to enforce compliance with, or prevent any violation of, the provisions hereof; and that, in the event of such a breach or threat thereof, the Company shall be entitled to obtain a temporary restraining order and/or a preliminary or permanent injunction restraining Executive from engaging in activities prohibited hereby or such other relief as may be required to specifically enforce any of the covenants contained herein.

11. Extension of Restricted Periods. In addition to the remedies the Company may seek and obtain pursuant to this Agreement, the restricted periods set forth herein shall be extended by any and all periods during which Executive shall be found by a court to have been in violation of the covenants contained herein.

12. Stock Ownership Requirement. While employed by the Company, Executive shall be expected to maintain ownership of common stock or stock equivalents having a value equal to approximately 1.5 times her Annual Base Salary in accordance with guidelines established by the Compensation Committee from time to time. For purposes of these guidelines, stock ownership includes shares over which Executive has direct or indirect ownership or control. Stock equivalents for this purpose include vested restricted share units but do not include unvested restricted share units subject to a performance requirement. Executive is expected to meet this ownership requirement within five years after the Effective Date. In the event Executive is unable to meet the foregoing ownership requirements within five years of the Effective Date, Executive shall retain all net after tax profit shares following option exercise and/or the vesting of restricted stock units until Executive has satisfied the requirements set forth in this Section 12.

13. Definitions. As used herein, unless the context otherwise requires, the following terms have the following respective meanings:

"Cause" means with respect to the termination by the Company of Executive as an employee of the Company:

(i) Executive's continual or deliberate neglect in the performance of her material duties; provided that Company gives written notice to the Executive of the existence of such a condition within 90 days of the initial existence of the condition and the Executive has at least 30 days from the date when such notice is provided to cure the condition, if curable.

(ii) Executive's failure to devote substantially all of her working time to the business of the Company and its subsidiaries (other than as expressly permitted in this Agreement);

(iii) Executive's failure to follow the lawful directives of the Board in any material respect;

(iv) Executive's engaging in misconduct in connection with the performance of any of her duties, including, without limitation, falsifying or attempting to falsify documents, books or records of the Company or its subsidiaries, misappropriating or attempting to misappropriate funds or other property, or securing or attempting to secure any personal profit in connection with any transaction entered into on behalf of the Company or its subsidiaries;

(v) the violation by Executive, in any material respect, of any policy or of any code or standard of behavior or conduct generally applicable to employees of the Company or its subsidiaries;

(vi) Executive's breach of the material provisions of this Agreement or any other non-competition, non-interference, non-disclosure, confidentiality or other similar agreements executed by Executive with the Company or any of its subsidiaries or other act of disloyalty to the Company or any of its subsidiaries (including, without limitation, aiding a competitor or unauthorized disclosure of confidential information); or

(vii) Executive's engaging in conduct which is reasonably likely to result in material injury to the reputation of the Company or any of its subsidiaries, including, without limitation, commission of a felony, fraud, embezzlement or other crime involving moral turpitude.

"Change in Control Event" means:

(i) The acquisition by any individual, entity or group (within the meaning of Section 13(d)(3) or 14(d)(2) of the Exchange Act (a "Person")) of beneficial ownership (within the meaning of Rule 13d-3 promulgated under the Exchange Act) of more than 50% or more of either (1) the then-outstanding shares of common stock of the Company (the "Outstanding Company Common Stock") or (2) the combined voting power of the then-outstanding voting securities of the Company entitled to vote generally in the election of directors (the "Outstanding Company Voting Securities"); provided, however, that, for purposes of this definition, the following acquisitions shall not constitute a Change in Control Event; (A) any acquisition directly from the Company, (B) any acquisition by the Company, (C) any acquisition by any employee benefit plan (or related trust) sponsored or maintained by the Company or any affiliate of the Company or a successor, or (D) any acquisition by any entity pursuant to a transaction that complies with subsections (iii)(A), (B) and (C) below;

(ii) In the event the Board is a classified board, a majority of the individuals who serve in the same class of directors that constitute the Board as of the Effective Date (the "Incumbent Board") cease for any reason to constitute at least a majority of that class of directors, or in the event the Board is not a classified board, members of the Incumbent Board cease for any reason to constitute at least a majority of the Board; provided, however, that any individual becoming a director subsequent to the Effective Date whose election, or nomination for election by the Company's stockholders, was approved by a vote of at least two-thirds of the directors then comprising the Incumbent Board (including for these purposes, the new members whose election or nomination was so approved, without counting the member and her predecessor twice) shall be considered as though such individual were a member of the Incumbent Board, but excluding, for this purpose, any such individual whose initial assumption of office occurs as a result of an actual or threatened election contest with respect to the election or removal of directors or other actual or threatened solicitation of proxies or consents by or on behalf of a Person other than the Board;

(iii) Consummation of a reorganization, merger, statutory share exchange or consolidation or similar corporate transaction involving the Company or any of its Subsidiaries, a sale or other disposition of all or substantially all of the assets of the Company, or the acquisition of assets or stock of another entity by the Company or any of its Subsidiaries (each, a "Business Combination"), in each case unless, following such Business Combination, (A) all or substantially all of the individuals and entities that were the beneficial owners of the Outstanding Company Common Stock and the Outstanding Company Voting Securities immediately prior to such Business Combination beneficially own, directly or indirectly, more than 50% of the then-outstanding shares of common stock and the combined voting power of the then-outstanding voting securities entitled to vote generally in the election of directors, as the case may be, of the entity resulting from such Business Combination (including, without limitation, an entity that, as a result of such transaction, owns the Company or all or substantially all of the Company's assets directly or through one or more subsidiaries (a "Parent")) in substantially the same proportions as their ownership immediately prior to such Business Combination of the Outstanding Company Common Stock and the Outstanding Company Voting Securities, as the case

may be, (B) no Person (excluding any entity resulting from such Business Combination or a Parent or any employee benefit plan (or related trust) of the Company or such entity resulting from such Business Combination or Parent) beneficially owns, directly or indirectly, more than 50% of, respectively, the then-outstanding shares of common stock of the entity resulting from such Business Combination or the combined voting power of the then-outstanding voting securities of such entity, except to the extent that the ownership in excess of more than 50% existed prior to the Business Combination, and (C) at least a majority of the members of the board of directors or trustees of the entity resulting from such Business Combination or a Parent were members of the Incumbent Board at the time of the execution of the initial agreement or of the action of the Board providing for such Business Combination; or

(iv) Approval by the stockholders of the Company of a complete liquidation or dissolution of the Company.

"Disability" means a physical or mental impairment which substantially limits a major life activity of Executive and which renders Executive unable to perform the essential functions of her position, even with reasonable accommodation which does not impose an undue hardship on the Company. The Company reserves the right, in good faith, to make the determination of disability under this Agreement based upon information supplied by Executive and/or her medical personnel, as well as information from medical personnel (or others) selected by the Company or its insurers.

"Good Reason" shall mean the occurrence, without Executive's express written consent, of: (i) a reduction in Executive's compensation other than as permitted pursuant to Section 3 hereof; (ii) a relocation of the Company's headquarters to a location more than twenty (20) miles from the location of the Company's headquarters prior to such relocation; (iii) any willful breach by the Company of any material provision of this Agreement; or (iv) a significant reduction in the then-effective responsibilities of the Chief Marketing Officer; provided that Executive gives written notice to the Company of the existence of such a condition within 90 days of the initial existence of the condition and the Company has at least 30 days from the date when such notice is provided to cure the condition without being required to make payments due to termination by the Company for Good Reason or upon a Change in Control Event.

14. **Arbitration.** Any controversy arising out of or relating to this Agreement, its enforcement or interpretation, or because of an alleged breach, default, or misrepresentation in connection with any of its provisions, or any other controversy arising out of Executive's employment, including, but not limited to, any state or federal statutory or common law claims, shall be submitted to arbitration in Denver, Colorado, before a sole arbitrator selected from Judicial Arbitrator Group, Inc., Denver, Colorado, or its successor ("JAG"), or if JAG is no longer able to supply the arbitrator, such arbitrator shall be selected from the Judicial Arbitration and Mediation Services, Inc. ("JAMS"), or other mutually agreed upon arbitration provider, as the exclusive forum for the resolution of such dispute. Provisional injunctive relief may, but need not, be sought by either party to this Agreement in a court of law while arbitration proceedings are pending, and any provisional injunctive relief granted by such court shall remain effective until the matter is finally determined by the Arbitrator. Final resolution of any dispute through arbitration may include any remedy or relief which the Arbitrator deems just and equitable, including any and all remedies provided by applicable state or federal statutes. At the conclusion of the arbitration, the Arbitrator shall issue a written decision that sets forth the essential findings and conclusions upon which the Arbitrator's award or decision is based. Any award or relief granted by the Arbitrator hereunder shall be final and binding on the parties hereto and may be enforced by any court of competent jurisdiction. The parties acknowledge and agree that they are hereby waiving any rights to trial by jury in any action, proceeding or counterclaim brought by either of the parties against the other in connection with any matter whatsoever arising out of or in any way connected with this Agreement or Executive's employment, and under no circumstances shall class claims be processed or participated in by Executive. The parties agree that Company shall be responsible for payment of the forum costs of any arbitration hereunder, including the Arbitrator's fee. Executive and the Company further agree that in any proceeding to enforce the terms of this Agreement, the prevailing party shall be entitled to its or her reasonable attorneys' fees and costs incurred by it or her in connection with resolution of the dispute in addition to any other relief granted.

15. Governing Law. This Agreement and the legal relations hereby created between the parties hereto shall be governed by and construed under and in accordance with the internal laws of the State of Colorado, without regard to conflicts of laws principles thereof. Each Participant shall submit to the venue and personal jurisdiction of the Colorado state and federal courts concerning any dispute for which judicial redress is permitted pursuant to this Agreement; however the Company is not limited in seeking relief in those courts.

16. Taxes.

(a) Except as otherwise provided in Section 3(e)(v) and Section 20, and to the extent specifically provided in Section 17, Executive shall be solely liable for Executive's tax consequences of compensation and benefits payable under this Agreement, including any consequences of the application of Section 409A of the Code.

(b) In order to comply with all applicable federal or state income tax laws or regulations, the Company may withhold from any payments made under this Agreement all applicable federal, state, city or other applicable taxes.

17. Section 409A Savings Clause.

(a) It is the intention of the parties that compensation or benefits payable under this Agreement not be subject to the additional tax imposed pursuant to Section 409A of the Code. To the extent such potential payments or benefits could become subject to additional tax under such Section, the parties shall cooperate to amend this Agreement with the goal of giving Executive the economic benefits described herein in a manner that does not result in such tax being imposed.

(b) Each payment or benefit made pursuant to Section 4(f) of this Agreement shall be deemed to be a separate payment for purposes of 409A. In addition, payments or benefits pursuant to Section 4(f) shall be exempt from the requirements of Code Section 409A to the maximum extent possible as "short-term deferrals" pursuant to Treasury Regulation Section 1.409A-1(b)(4), as involuntary separation pay pursuant to Treasury Regulation Section 1.409A-1(b)(9)(iii), and/or under any other exemption that may be applicable, and this Agreement shall be construed accordingly.

(c) For purposes of this Agreement, phrases such as "termination of employment" shall be deemed to mean "separation from service," as defined in Section 409A of the Code and the Treasury Regulations thereunder.

(d) If Executive is a specified employee within the meaning of Section 409A(a)(2)(B)(i) of the Code and would receive any payment sooner than 6 months after Executive's "separation from service" that, absent the application of this Section 17(d), would be subject to additional tax imposed pursuant to Section 409A of the Code as a result of such status as a specified employee, then such payment shall instead be payable on the date that is the earliest of (i) 6 months after Executive's "separation from service," or (ii) Executive's death.

18. Entire Agreement. This Agreement (including Exhibits) constitutes and contains the entire agreement and final understanding concerning Executive's employment with the Company and the other subject matters addressed herein between the parties. It is intended by the parties as a complete and exclusive statement of the terms of their agreement. It supersedes and replaces all prior negotiations and all agreements proposed or otherwise, whether written Or oral, concerning the subject matter hereof. Any representation, promise or agreement not specifically included in this Agreement shall not be binding upon or enforceable against either party. This is a fully integrated agreement.

19. Amendment and Waiver. The provisions of this Agreement may be amended or waived only with the prior written consent of the Board (or a person expressly authorized thereby) and Executive, and no course of conduct or failure or delay in enforcing the provisions of this Agreement shall affect the validity, binding effect or enforceability of this Agreement.

20. Excise Tax Payment.

(a) Anything in this Agreement to the contrary notwithstanding, in the event it shall be determined that any payment or distribution by the Company to or for the benefit of Executive (whether paid or payable or distributed or distributable pursuant to the terms of this Agreement or otherwise) (a "Payment") including, by example and not by way of limitation, acceleration (by the Company or otherwise) of the date of vesting or payment under any plan, program, arrangement or agreement of the Company, would be subject to the excise tax imposed by Code Section 4999 or any interest or penalties with respect to such excise tax (such excise tax together with any such interest and penalties, shall be referred to as the "Excise Tax"), then there shall be made a calculation under which such Payments provided to Executive are reduced to the extent necessary so that no portion thereof shall be subject to the Excise Tax (the "4999 Limit"). A comparison shall then be made between (A) Executive's Net After-Tax Benefit (as defined below) assuming application of the 4999 Limit; and (B) Executive's Net After-Tax Benefit without application of the 4999 Limit. If (B) exceeds (A) by \$100,000 or more, then no limit on the Payments received by Executive under this Agreement shall be imposed by this Section 21. Otherwise, the amount payable to Executive pursuant to this Agreement shall be reduced so that no such Payment is subject to the Excise Tax. "Net After-Tax Benefit" shall mean the sum of (x) all payments that Executive receives or is entitled to receive from the Company that are contingent on a change in the ownership or effective control of the Company or in the ownership of a substantial portion of the assets of the Company within the meaning of Code section 280G(b)(2) (either, a "Section 280G Transaction"), less (y) the amount of federal, state, local and employment taxes and Excise Tax (if any) imposed with respect to such payments.

(b) All determinations required to be made under this Section 21, including whether and when a Payment is cut back pursuant to Section 21(a) and the amount of such cut-back, and the assumptions to be utilized in arriving at such determination, shall be made by a professional services firm designated by the Board that is experienced in performing calculations under Section 280G (the "Professional Services Firm") which shall provide detailed supporting calculations both to the Company and Executive. If

the Professional Services Firm is serving as accountant or auditor for the individual, entity or group effecting the Change in Control Event, the Board shall appoint another qualified professional services firm to make the determinations required hereunder (which accounting firm shall then be referred to as the Professional Services Firm hereunder). All fees and expenses of the Professional Services Firm shall be borne solely by the Company.

(c) In the event that a reduction in Payments is required pursuant to this Section, then, except as provided below with respect to Payments that consist of health and welfare benefits, the reduction in Payments shall be implemented by determining the "Parachute Payment Ratio" (as defined below) for each Payment and then reducing the Payments in order beginning with the Payment with the highest Parachute Payment Ratio. For Payments with the same Parachute Payment Ratio, such Payments shall be reduced based on the time of payment of such Payments, with amounts being paid furthest in the future being reduced first. For Payments with the same Parachute Payment Ratio and the same time of payment, such Payments shall be reduced on a pro-rata basis (but not below zero) prior to reducing Payments next in order for reduction. For purposes of this Section, "Parachute Payment Ratio" shall mean a fraction, the numerator of which is the value of the applicable Payment as determined for purposes of Code Section 280G, and the denominator of which is the financial present value of such Parachute Payment, determined at the date such payment is treated as made for purposes of Code Section 280G (the "Valuation Date"). In determining the denominator for purposes of the preceding sentence (1) present values shall be determined using the same discount rate that applies for purposes of discounting payments under Code Section 280G; (2) the financial value of payments shall be determined generally under Q&A 12, 13 and 14 of Treasury Regulation 1.280G-1; and (3) other reasonable valuation assumptions as determined by the Company shall be used. Notwithstanding the foregoing, Payments that consist of health and welfare benefits shall be reduced after all other Payments, with health and welfare Payments being made furthest in the future
